Installed-app comparison — runtime evidence, acceptance still open

Pinned MyNotes0.71.0/code71 release APK SHA256 a7d6f685992c68fe4ffc7f3a5705d0514986c9d9fd82ca67c6f68d392ca41de3; official Obsidian1.15.0/code396 SHA256 2d92966fba5441a8976ae86b39cf138c0a845d3dcd318e6f0d29d304950bca5d. Neither APK is rebuilt or re-signed. Fresh public disposable emulator fixtures only, no user library/account access.

READ FIRST: runtime page inspection is not a functional pass,74 attempt records are not74 accepted tasks, and these probes do not complete the original37 requested acceptance tasks. All whole-module, physical and fix-phase approval flags remain false. Failures and unavailable routes are preserved, not assigned zero feature scores or interpreted as feature absence.

Exact Actions run, source and job outcomes

Machine-readable coverage and limitations

Original-file SHA256 manifest

Profile	Attempts /74	Actual outcome types
light-portrait	0	{}
dark-portrait	0	{}
light-landscape	0	{}
dark-landscape	0	{}

Methods differ and are disclosed: MyNotes public note is entered using native touch/input and reopened after process restart; Obsidian public fixtures are seeded using its official vault API, and command/settings APIs navigate some surfaces. Those shortcuts are not user-route, creation-efficiency or latency evidence. Native screens are real adb captures; no UI reconstruction. Standard font scale1.0; light/dark portrait/landscape at API34, not physical phones or accessibility acceptance.

Public synthetic fixture bytes are retained with hashes where generated before the failure. Office packages use real format libraries; these are still small test documents, not complex-layout fidelity or18MB+ PDF acceptance.

Activity launch milestones and gfx/memory diagnostics, if present, are NOT time-to-ready, touch latency, human completion time, animation quality, battery or a cross-engine performance ranking. Accounts, Sync/Publish service operation and community-plugin execution are not performed. Original task text and actual smaller probe are printed separately on every page.

light-portrait — provisioning blocked

Zero paired attempts; provisioning failed.

{ "error": "Keyboard did not dismiss; do not navigate or type blindly", "module_attempts_completed": 0, "all37_families_attempted_in_both_apps": false }

Original provisioning failure

dark-portrait — provisioning blocked

Zero paired attempts; provisioning failed.

{ "error": "Keyboard did not dismiss; do not navigate or type blindly", "module_attempts_completed": 0, "all37_families_attempted_in_both_apps": false }

Original provisioning failure

light-landscape — provisioning blocked

Zero paired attempts; provisioning failed.

{ "error": "Keyboard did not dismiss; do not navigate or type blindly", "module_attempts_completed": 0, "all37_families_attempted_in_both_apps": false }

Original provisioning failure

dark-landscape — provisioning blocked

Zero paired attempts; provisioning failed.

{ "error": "Keyboard did not dismiss; do not navigate or type blindly", "module_attempts_completed": 0, "all37_families_attempted_in_both_apps": false }

Original provisioning failure
