Installed-app comparison — runtime evidence, acceptance still open

Pinned MyNotes0.71.0/code71 release APK SHA256 a7d6f685992c68fe4ffc7f3a5705d0514986c9d9fd82ca67c6f68d392ca41de3; official Obsidian1.15.0/code396 SHA256 2d92966fba5441a8976ae86b39cf138c0a845d3dcd318e6f0d29d304950bca5d. Neither APK is rebuilt or re-signed. Fresh public disposable emulator fixtures only, no user library/account access.

READ FIRST: runtime page inspection is not a functional pass,74 attempt records are not74 accepted tasks, and these probes do not complete the original37 requested acceptance tasks. All whole-module, physical and fix-phase approval flags remain false. Failures and unavailable routes are preserved, not assigned zero feature scores or interpreted as feature absence.

Exact Actions run, source and job outcomes

Machine-readable coverage and limitations

Original-file SHA256 manifest

Profile	Attempts /74	Actual outcome types
light-portrait	60	{'bounded_outcome_verified': 5, 'interaction_observed': 38, 'counterpart_not_established': 2, 'blocked': 14, 'inspection_only': 1}
dark-portrait	48	{'blocked': 20, 'counterpart_not_established': 1, 'interaction_observed': 26, 'inspection_only': 1}
light-landscape	42	{'blocked': 19, 'bounded_outcome_verified': 3, 'interaction_observed': 16, 'diagnostic_only': 1, 'counterpart_not_established': 3}
dark-landscape	74	{'bounded_outcome_verified': 3, 'blocked': 46, 'interaction_observed': 19, 'counterpart_not_established': 5, 'diagnostic_only': 1}

light-portrait capture health: 58 complete original snapshot records; 2 capture errors. Capture-owner fields exist for 58 records. Zero owner fields in older originals means unrecorded, not that no app frames exist.

dark-portrait capture health: 47 complete original snapshot records; 1 capture errors. Capture-owner fields exist for 47 records. Zero owner fields in older originals means unrecorded, not that no app frames exist.

light-landscape capture health: 42 complete original snapshot records; 0 capture errors. Capture-owner fields exist for 42 records. Zero owner fields in older originals means unrecorded, not that no app frames exist.

dark-landscape capture health: 74 complete original snapshot records; 0 capture errors. Capture-owner fields exist for 74 records. Zero owner fields in older originals means unrecorded, not that no app frames exist.

Short-session evidence may span several fresh guests per profile. This is disclosed setup isolation, NOT proof that a long session is reliable. Repeated public inputs may share a SHA256-addressed retained_path in the manifest; every original entry and its exact uncompressed hash is retained. Large text records may use verified lossless gzip to avoid a huge duplicate dataset. Modules and PNG screenshots remain directly readable; the manifest identifies each stored path and encoding.

Methods differ and are disclosed: MyNotes public note is entered using native touch/input and reopened after process restart; Obsidian public fixtures are seeded using its official vault API, and command/settings APIs navigate some surfaces. Offscreen selector targets may be scrolled into view by the harness before touch. Those shortcuts are not user-route, unaided discoverability, creation-efficiency or latency evidence. Native screens are real adb captures; no UI reconstruction. Standard font scale1.0; light/dark portrait/landscape at API34, not physical phones or accessibility acceptance.

Public synthetic fixture bytes are retained with hashes where generated before the failure. Office packages use real format libraries; these are still small test documents, not complex-layout fidelity or18MB+ PDF acceptance.

Activity launch milestones and gfx/memory diagnostics, if present, are NOT time-to-ready, touch latency, human completion time, animation quality, battery or a cross-engine performance ranking. Accounts, Sync/Publish service operation and community-plugin execution are not performed. Original task text and actual smaller probe are printed separately on every page.

PLAN-X01 | Find, organise, label and reorder | planned light-portrait

Original acceptance task (NOT automatically accepted): Find an archived body-only match while a folder filter is active; reorder a distant card, then return.

mynotes — bounded_outcome_verified. Actual bounded check: Body-only search returns the known title and marker passage outside the search input; not latency or broad search acceptance.

mynotes original exact result record

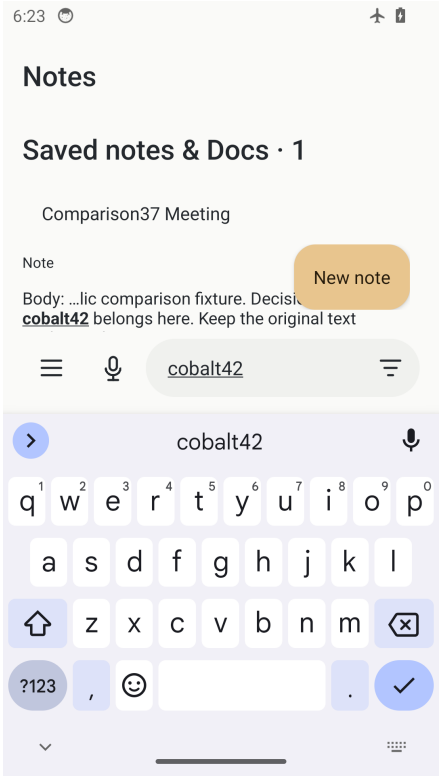

mynotes original screenshot

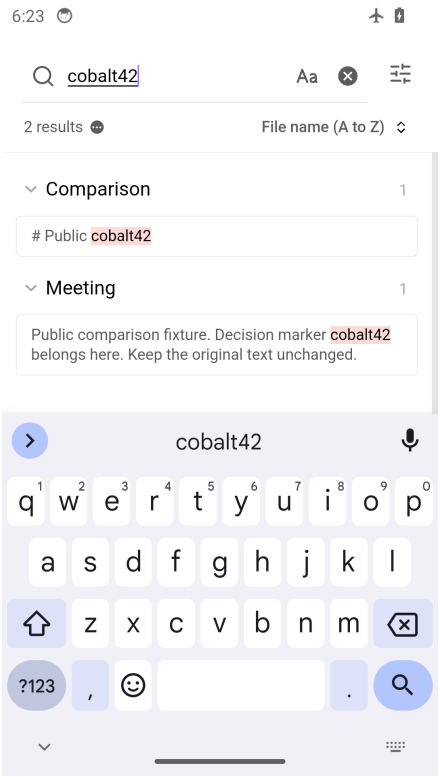

obsidian — bounded_outcome_verified. Actual bounded check: Actual query input yields marker passage and target file title in visible result containers; command API opened pane, not touch-route efficiency.

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Record actual scope, result passage, selected filters and persisted order; repeat list/grid, keyboard and large text. Measure drag continuity only in a new live session.

PLAN-X02 | Writing, reading and formatting | planned light-portrait

Original acceptance task (NOT automatically accepted): Format the middle of a paragraph, type new text, undo, dismiss the keyboard and reopen the note.

mynotes — bounded_outcome_verified. Actual bounded check: Exact public body read back after force-stop/relaunch and opening the saved note; bounded plain-note persistence only.

mynotes original exact result record

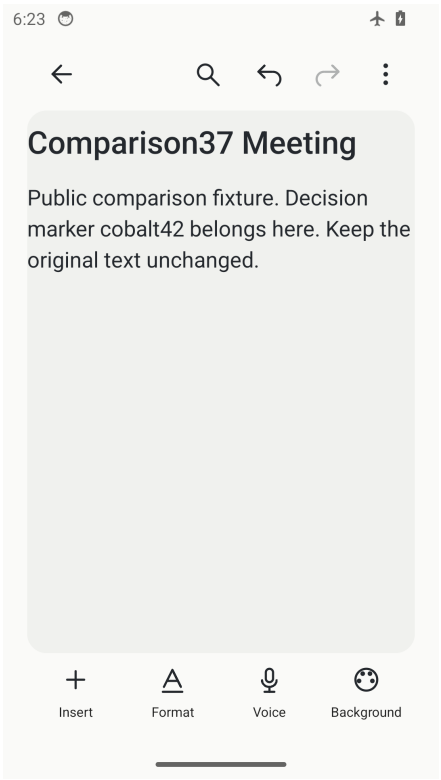

mynotes original screenshot

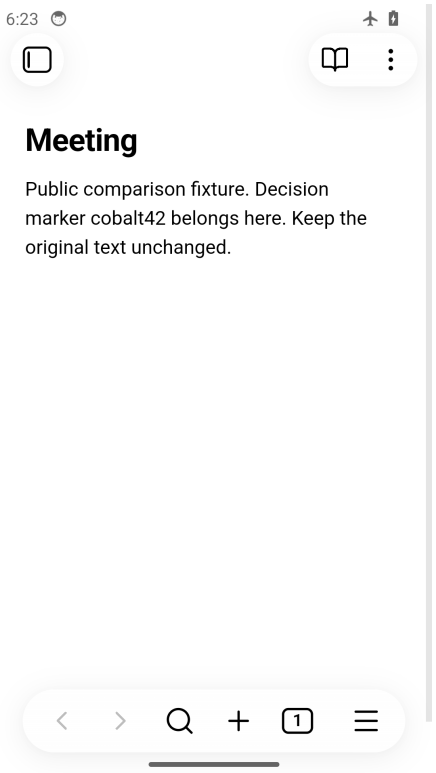

obsidian — bounded_outcome_verified. Actual bounded check: Official vault readback retains exact API-seeded public body. Fixture setup is not a UI creation or cross-app typing-efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Retain surrounding prose, correct style target, caret and saved result. Repeat with large text; compare actual task completion and mistakes, not assertion counts.

PLAN-X03 | Checklists, numbering and list editing | planned light-portrait

Original acceptance task (NOT automatically accepted): Insert an item in the middle, indent it, move it past the viewport, hide completed rows and undo.

mynotes — interaction_observed. Actual bounded check: Named native controls opened; no implicit persistence, discoverability or module acceptance.

mynotes original exact result record

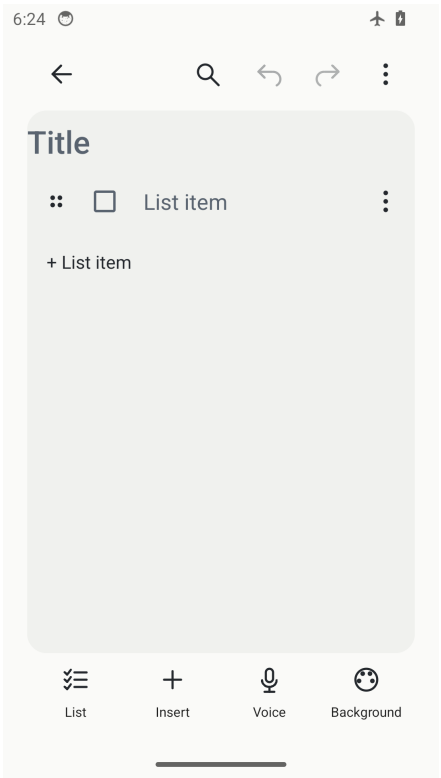

mynotes original screenshot

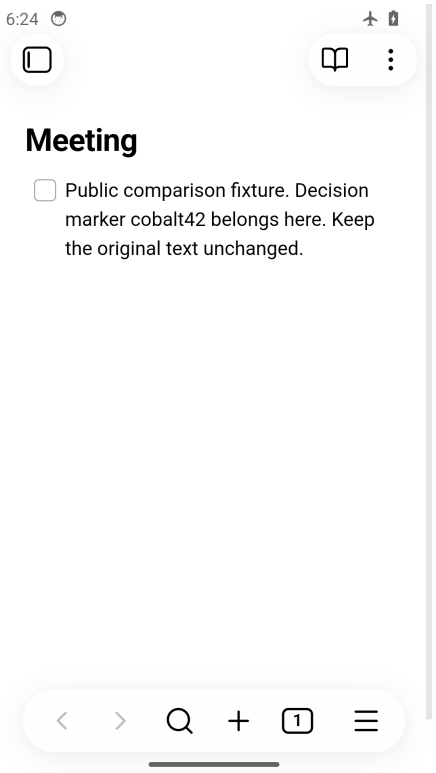

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: No lost items, wrong-list operations or accidental workspace swipes. Verify numbering after insertion and Backspace exit at an empty item.

PLAN-X04 | Tables and direct cell editing | planned light-portrait

Original acceptance task (NOT automatically accepted): Edit a long cell in a wide table; insert a column beside it, toggle header role, delete a row and undo.

mynotes — interaction_observed. Actual bounded check: Named native controls opened; no implicit persistence, discoverability or module acceptance.

mynotes original exact result record

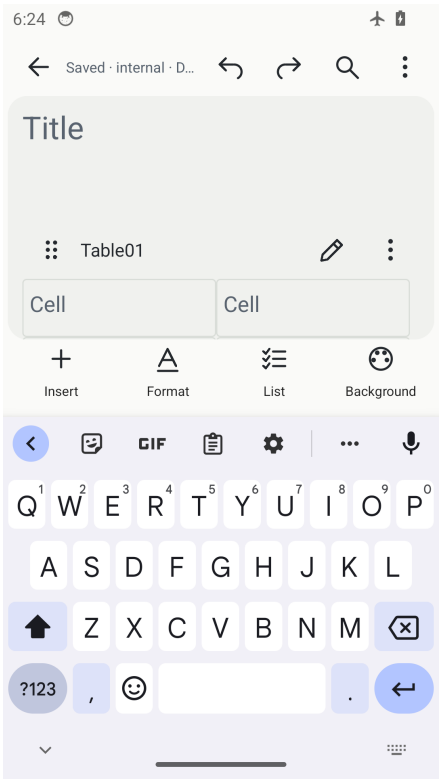

mynotes original screenshot

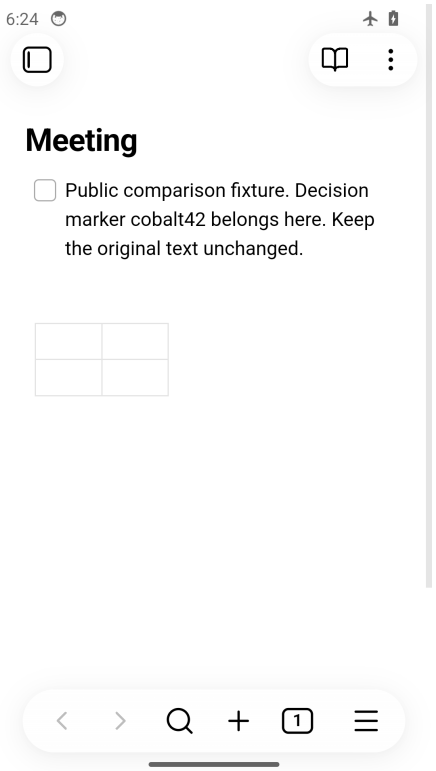

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Keep the active cell visible above the IME; no unexpected horizontal jump; restore content and header meaning after undo. Compare the same table, not these unequal fixtures.

PLAN-X05 | Images, attachments and inline media | planned light-portrait

Original acceptance task (NOT automatically accepted): Insert a photo, select two recognized words, keep the image, edit its crop, then remove only the intended attachment.

mynotes — interaction_observed. Actual bounded check: Image insertion/picker entry, not image-import success.

mynotes original exact result record

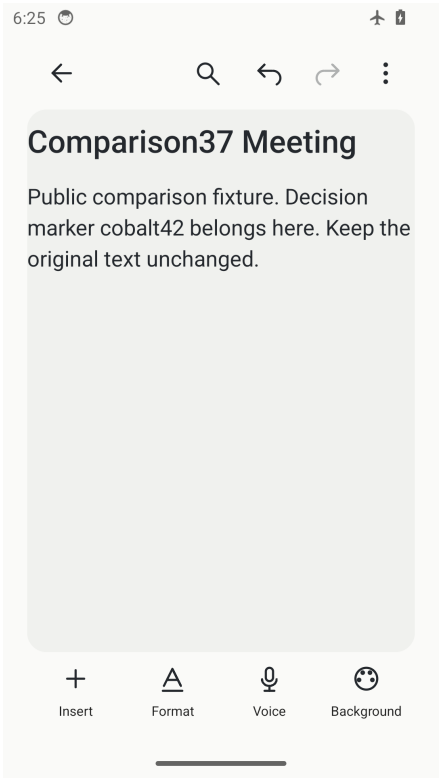

mynotes original screenshot

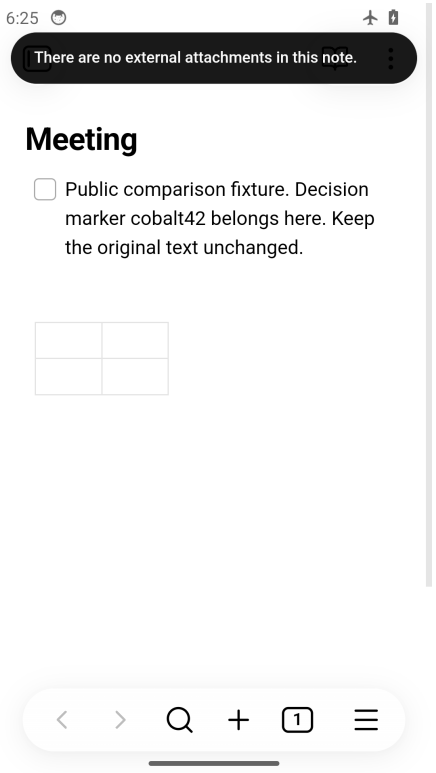

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Keep source bytes, unrelated blocks and names intact; make copy versus replacement clear. Verify offscreen word selection and explicit outside-tap dismissal.

PLAN-X06 | Web hyperlinks and external opening | planned light-portrait

Original acceptance task (NOT automatically accepted): Add a long URL to selected words, correct a malformed address, reopen, edit and remove the link.

mynotes — interaction_observed. Actual bounded check: Link editor entry only; external destination is not opened offline.

mynotes original exact result record

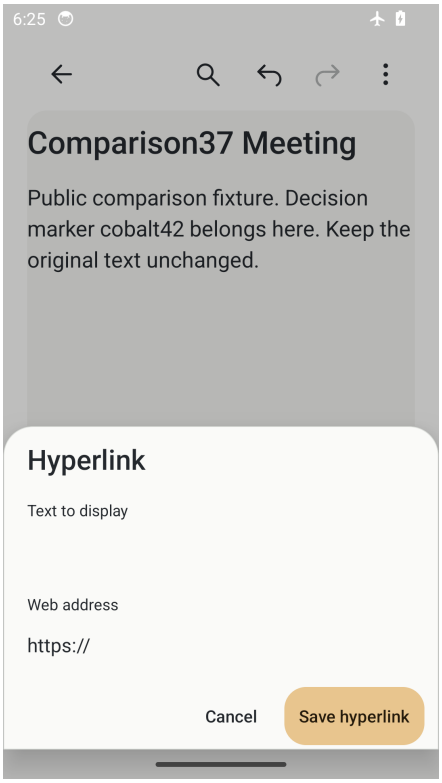

mynotes original screenshot

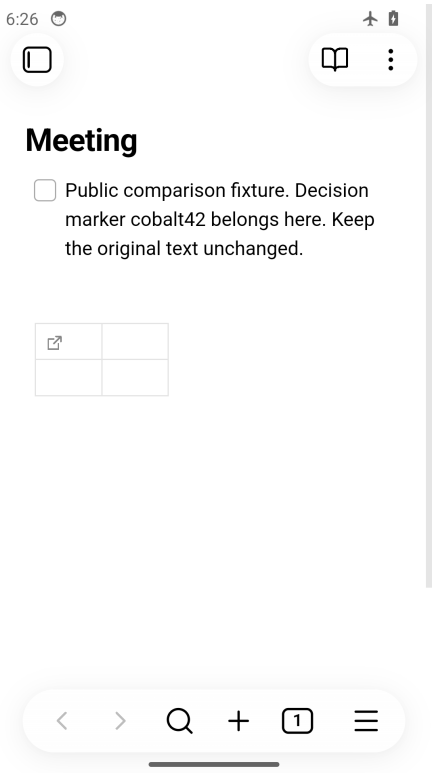

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: No duplicate URL per line, changed neighboring prose or unnoticed external launch. Check keyboard visibility, wrapped fields and TalkBack error announcement.

PLAN-X07 | Internal links, backlinks, graph and previews | planned light-portrait

Original acceptance task (NOT automatically accepted): Link A to a heading in B, rename B, return through backlinks and preview the target without losing A.

mynotes — counterpart_not_established. Actual bounded check: Requested counterpart not established in the visited first-party settings surface. This is NOT proof of app-wide absence or a comparative score.

mynotes original exact result record

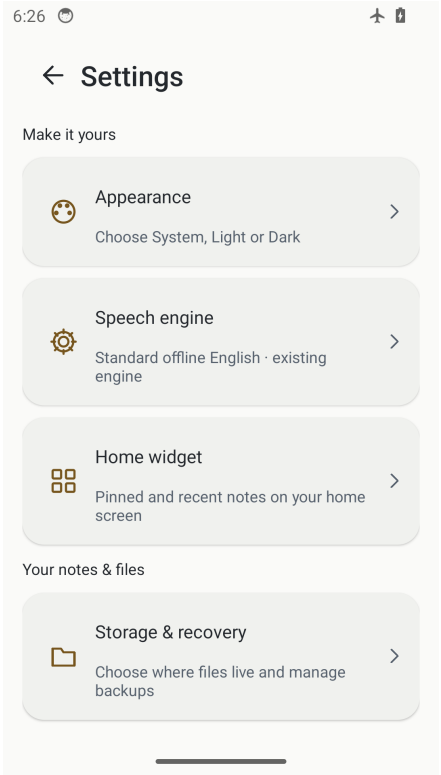

mynotes original screenshot

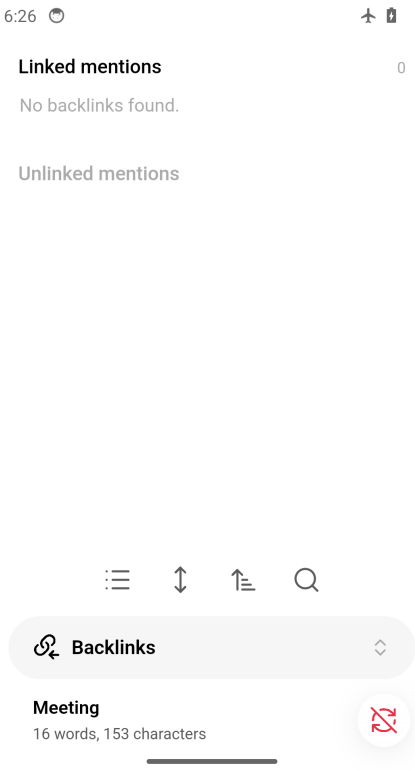

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Target identity and rename behavior must be verified live; count wrong destinations and recovery steps. No graph speed or link-integrity winner has been measured.

PLAN-X08 | Long-note orientation, tags, footnotes and word count | planned light-portrait

Original acceptance task (NOT automatically accepted): Locate a middle heading, find a repeated phrase, follow a footnote and return to the exact reading location.

mynotes — bounded_outcome_verified. Actual bounded check: Actual in-note query produces the marker result passage; not a long-note heading/footnote or reading-location acceptance.

mynotes original exact result record

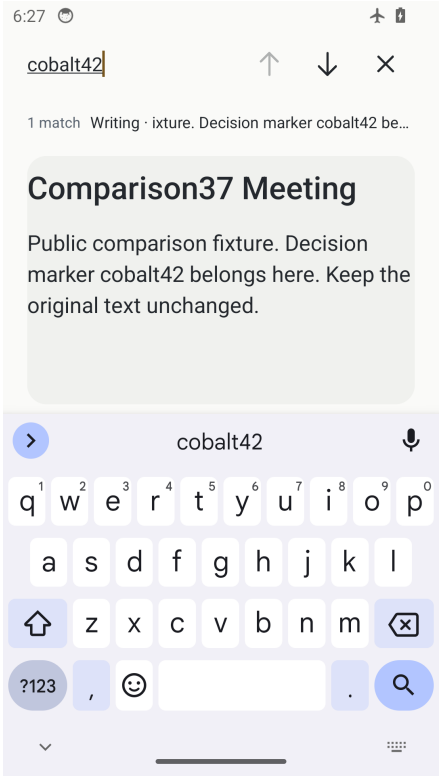

mynotes original screenshot

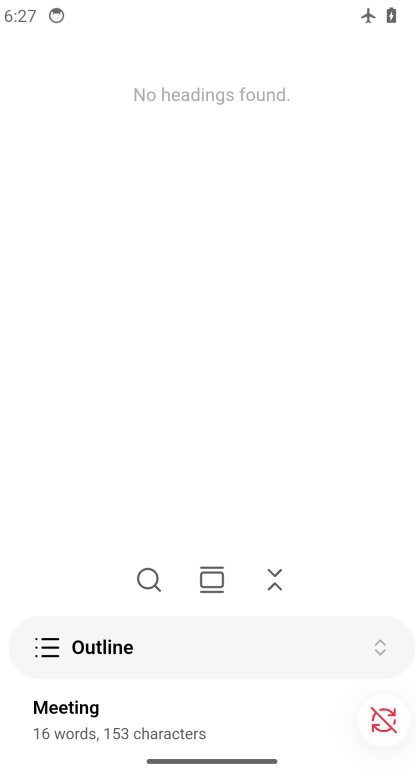

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify target and return anchors, heading levels, counts and generated text treatment; do not infer footnote success from a registered command.

PLAN-X09 | Properties and Bases | planned light-portrait

Original acceptance task (NOT automatically accepted): For users who need records, edit one typed field, filter a view, rename a file and reopen the view.

mynotes — counterpart_not_established. Actual bounded check: Requested counterpart not established in the visited first-party settings surface. This is NOT proof of app-wide absence or a comparative score.

mynotes original exact result record

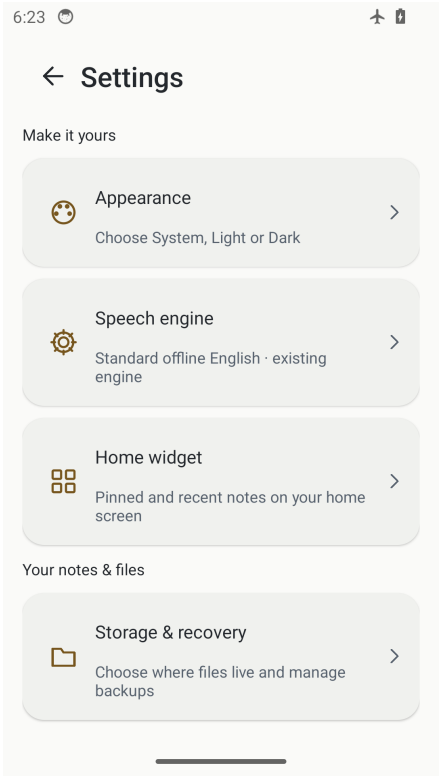

mynotes original screenshot

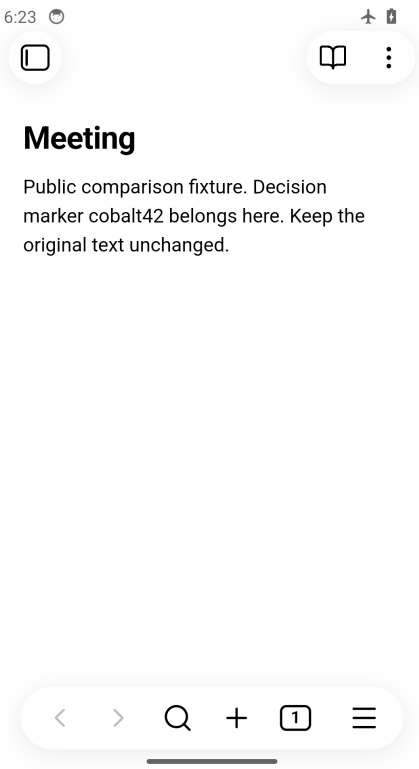

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Validate data types, retained filters, note identity and error recovery. No Bases performance, formulas or equivalent MyNotes capability is certified here.

PLAN-X10 | Quick capture, daily notes, templates and unique notes | planned light-portrait

Original acceptance task (NOT automatically accepted): From a cold start, capture a short thought; then create a repeated meeting structure and return tomorrow.

mynotes — interaction_observed. Actual bounded check: Named native controls opened; no implicit persistence, discoverability or module acceptance.

mynotes original exact result record

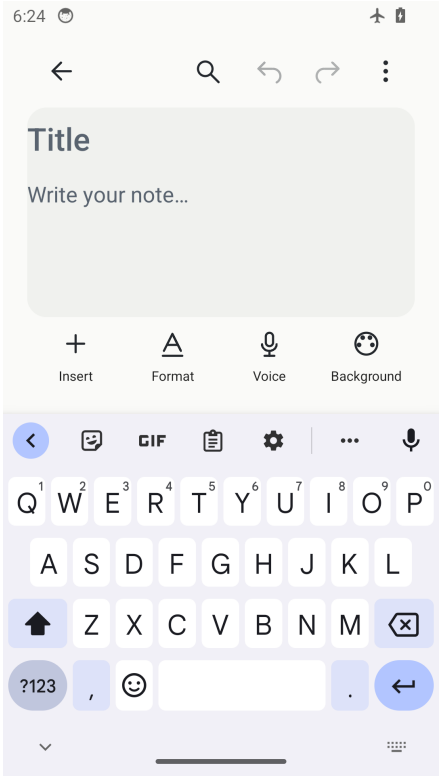

mynotes original screenshot

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Observe time to first saved words, setup mistakes, duplicate daily notes and return continuity. Do not populate fake user content to make the app feel busy.

PLAN-X11 | Freehand drawing and Canvas | planned light-portrait

Original acceptance task (NOT automatically accepted): Draw a diagram annotation, leave and reopen it; in Canvas connect two cards, pan/zoom and reopen the board.

mynotes — interaction_observed. Actual bounded check: Actual drawing entry, not a shared Canvas capability or saved drawing pass.

mynotes original exact result record

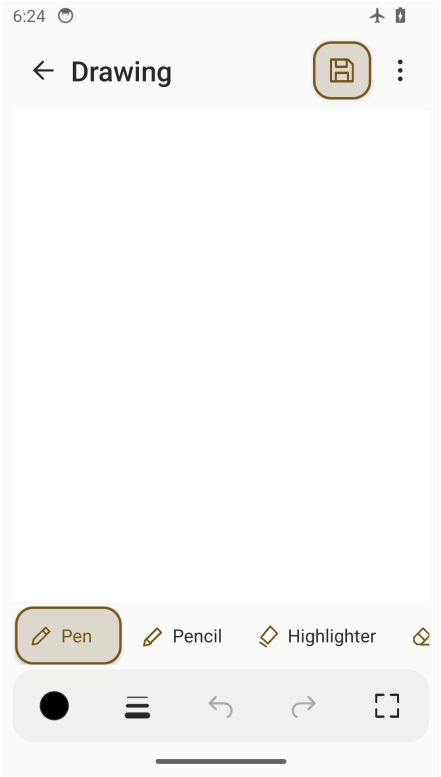

mynotes original screenshot

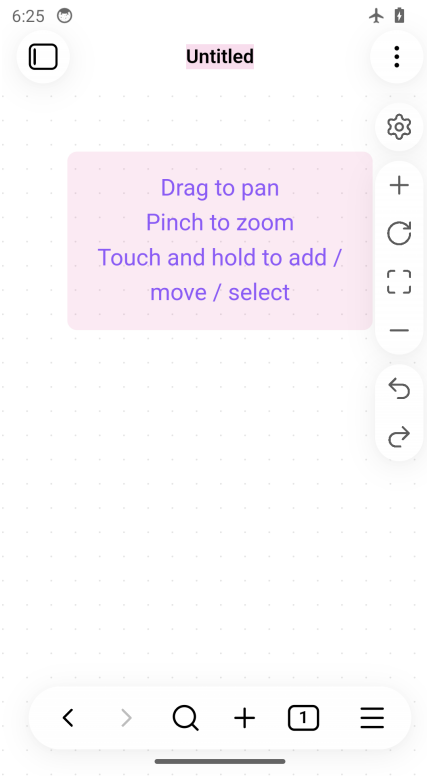

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Evaluate each tool against its own output goal. For common save/return work, preserve content and location; latency needs real stroke traces on matched hardware.

PLAN-X12 | Diagrams, shapes, arrows and grouping | planned light-portrait

Original acceptance task (NOT automatically accepted): Add two shapes, connect them, group, resize, split the arrow, undo and reopen.

mynotes — interaction_observed. Actual bounded check: Rectangle tool activated; no comparator equivalence or persisted graph acceptance.

mynotes original exact result record

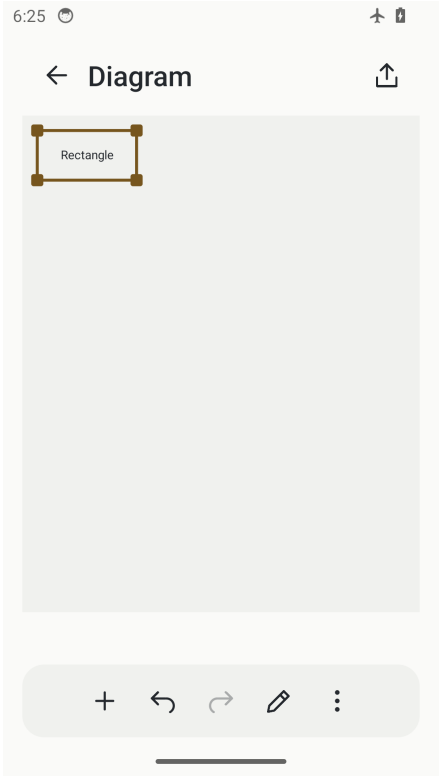

mynotes original screenshot

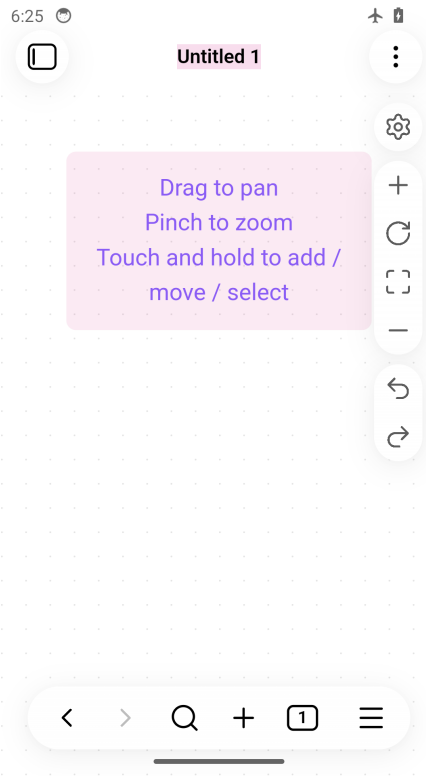

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Check actual anchor geometry, target selection, retained names and no accidental duplication. Run long-press/context-menu actions with large text and TalkBack.

PLAN-X13 | PDF reading, selection, search and markup | planned light-portrait

Original acceptance task (NOT automatically accepted): Open a large scanned/mixed PDF, zoom a distant page, select offscreen text, find a hit with IME, mark a rotated page and export.

mynotes — blocked. Actual bounded check: Picker did not expose public fixture Comparison.pdf

mynotes original exact result record

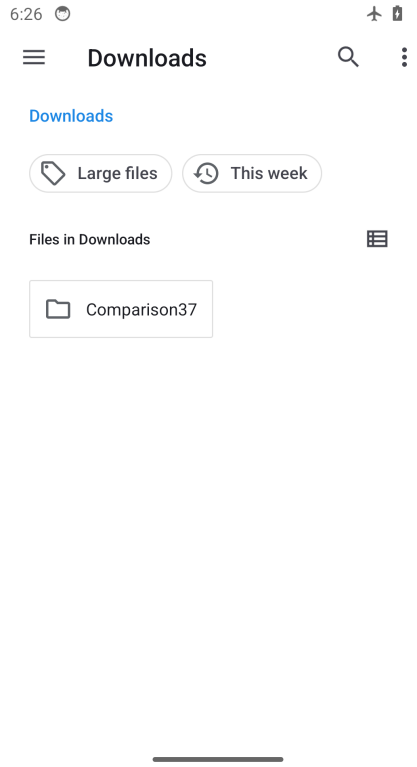

mynotes original screenshot

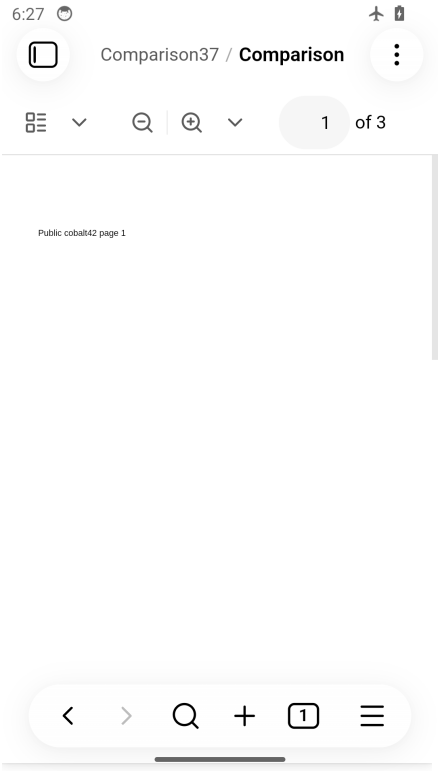

obsidian — interaction_observed. Actual bounded check: Public attachment opened through official vault/workspace API shortcut; actual view type captured, not full format fidelity or user import-route acceptance.

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Compare the original bytes; inspect hit position, highlight geometry and rendered export. Exercise cancellation and a partial destination; private markup drafts are outside Notes backups.

PLAN-X14 | Word files and original-layout expectations | planned light-portrait

Original acceptance task (NOT automatically accepted): Open a DOCX with headers, inline images, wide tables and hard page breaks; select text, zoom and create an editable copy.

mynotes — interaction_observed. Actual bounded check: Actual system picker selected the specified original; viewer/reader state inspected, not complete fidelity/search acceptance.

mynotes original exact result record

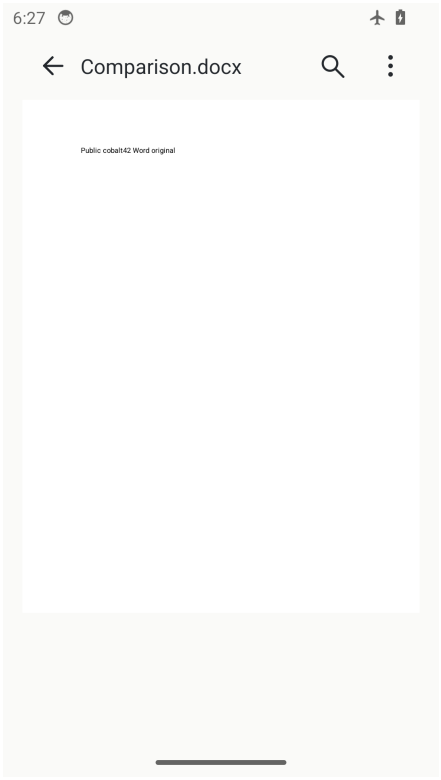

mynotes original screenshot

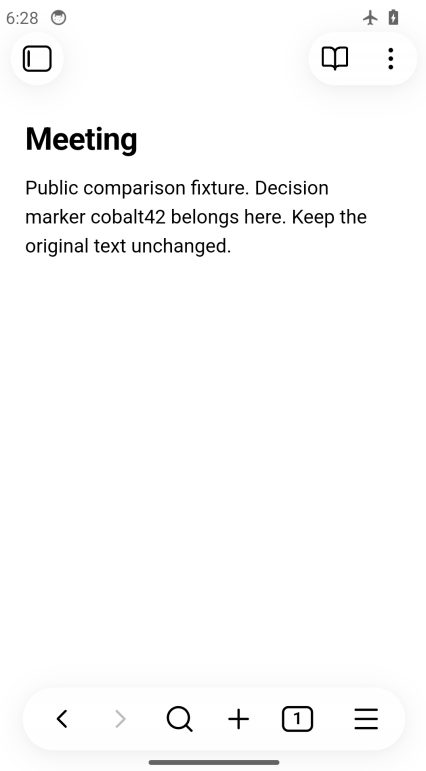

obsidian — blocked. Actual bounded check: ('Target file view not established', {'type': 'markdown', 'file': 'Comparison37/Meeting.md', 'body': 'Meeting\nPublic comparison fixture. Decision marker cobalt42 belongs here. Keep the original text unchanged.\n1'})

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Check original bytes and document return position, compare rendered pages with a suitable Word reference, and disclose any dropped layout/media. Do not invent fidelity from a synthetic one-page frame.

PLAN-X15 | Large TXT and read-only text viewing | planned light-portrait

Original acceptance task (NOT automatically accepted): Open a large multilingual TXT, find a repeated phrase near the end, select across the viewport and return to the prior file list.

mynotes — blocked. Actual bounded check: Picker did not expose public fixture Comparison.txt

mynotes original exact result record

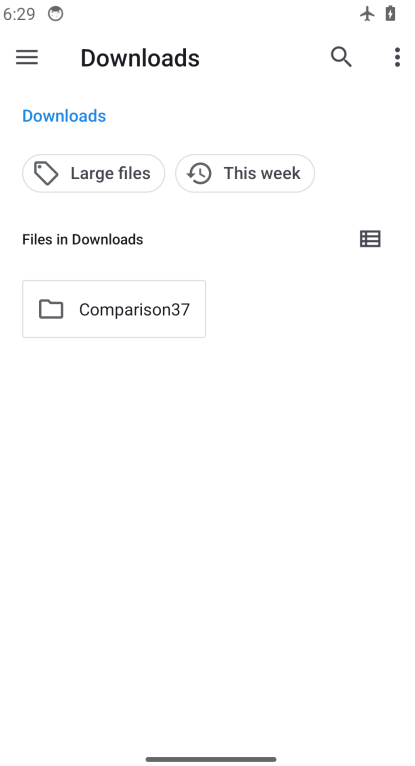

mynotes original screenshot

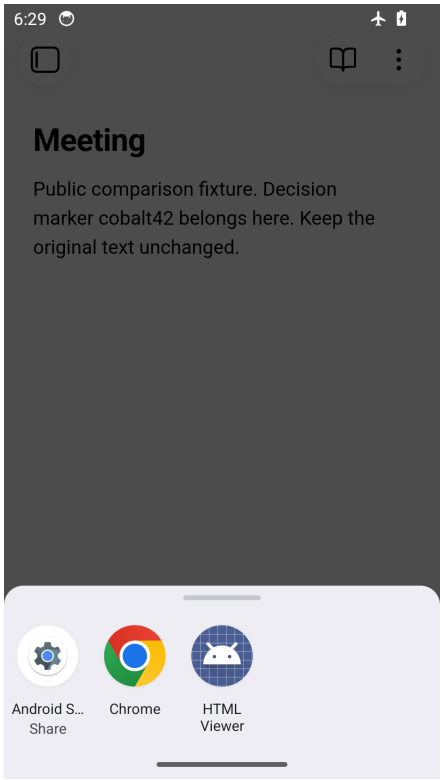

obsidian — blocked. Actual bounded check: ('Target file view not established', {'type': 'markdown', 'file': 'Comparison37/Meeting.md', 'body': 'Meeting\nPublic comparison fixture. Decision marker cobalt42 belongs here. Keep the original text unchanged.\n1'})

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Measure open/find latency separately from rendering; inspect Unicode integrity, clear selection on deliberate tap, retained page and unchanged original.

PLAN-X16 | Spreadsheet previews and cached values | planned light-portrait

Original acceptance task (NOT automatically accepted): Open quoted CSV and a multi-sheet XLSX with formulas, missing cached results and wide cells; locate a value and copy it.

mynotes — interaction_observed. Actual bounded check: Actual system picker selected the specified original; viewer/reader state inspected, not complete fidelity/search acceptance.

mynotes original exact result record

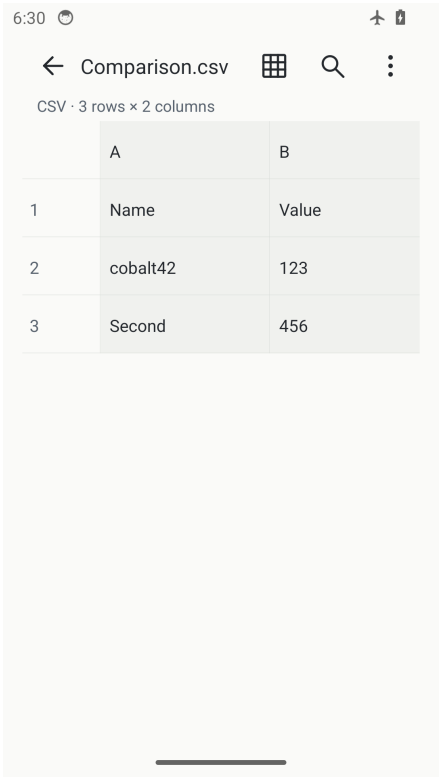

mynotes original screenshot

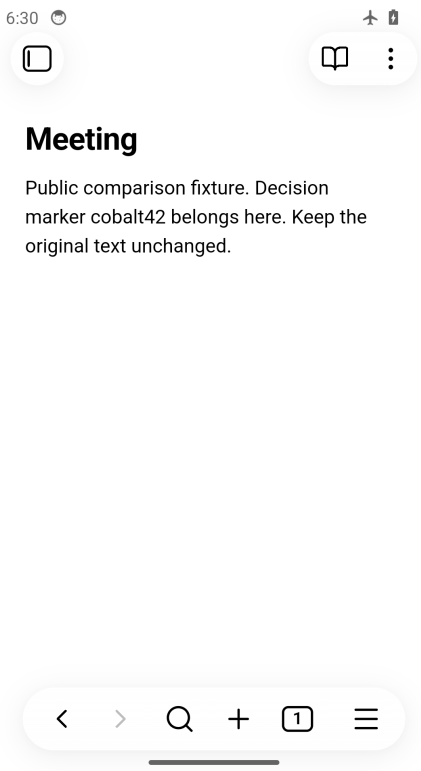

obsidian — blocked. Actual bounded check: ('Target file view not established', {'type': 'markdown', 'file': 'Comparison37/Meeting.md', 'body': 'Meeting\nPublic comparison fixture. Decision marker cobalt42 belongs here. Keep the original text unchanged.\n1'})

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Compare visible rows/columns and Unicode with source values, disclose cached-only results, retain sheet/scroll position and never execute macros or scripts.

PLAN-X17 | Markdown, HTML, RTF, ODT and slide imports | planned light-portrait

Original acceptance task (NOT automatically accepted): Open one realistic file of each advertised type, inspect text order and unsupported elements, then cancel or create a copy.

mynotes — interaction_observed. Actual bounded check: Each named format attempted separately; blocked or text-only views are not full import fidelity passes.

mynotes original exact result record

mynotes original screenshot

Format subtasks: Comparison.md:interaction_observed; Comparison.html:interaction_observed; Comparison.rtf:interaction_observed; Comparison.odt:interaction_observed; Comparison.pptx:interaction_observed

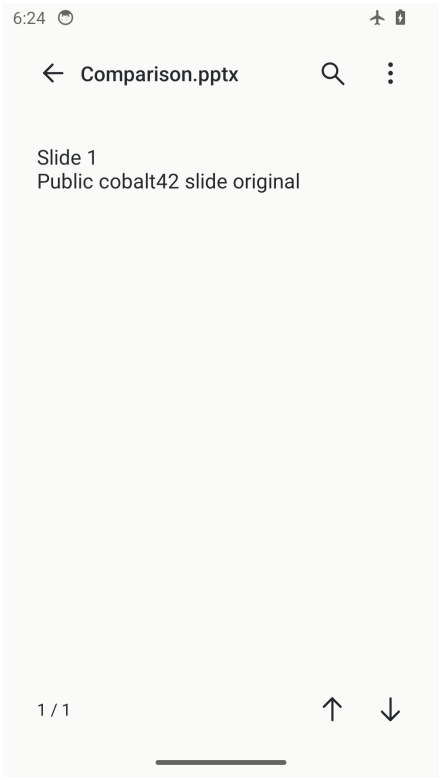

obsidian — interaction_observed. Actual bounded check: Each real attachment attempted independently; view type is not import fidelity.

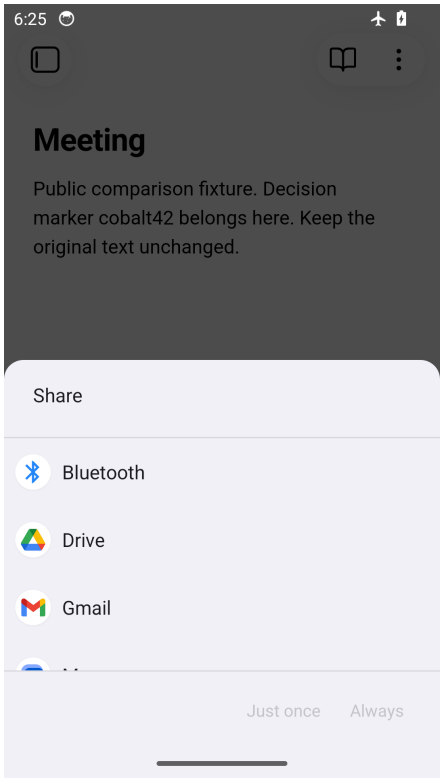

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

Format subtasks: Comparison.md:interaction_observed; Comparison.html:blocked; Comparison.rtf:blocked; Comparison.odt:blocked; Comparison.pptx:blocked

No whole-family acceptance. Remaining: Record per-format fidelity and actionable errors; preserve originals, reject malformed/oversized archives safely and distinguish external-reader delegation from in-app support.

PLAN-X18 | OCR, image-region text and scanned-page recognition | planned light-portrait

Original acceptance task (NOT automatically accepted): Read tiny/oblique/multilingual public scenes, blank controls and selected image regions; compare exact expected text and corrected output.

mynotes — interaction_observed. Actual bounded check: OCR entry only. Actual varied-scene recognition/accuracy remains unverified in this paired task.

mynotes original exact result record

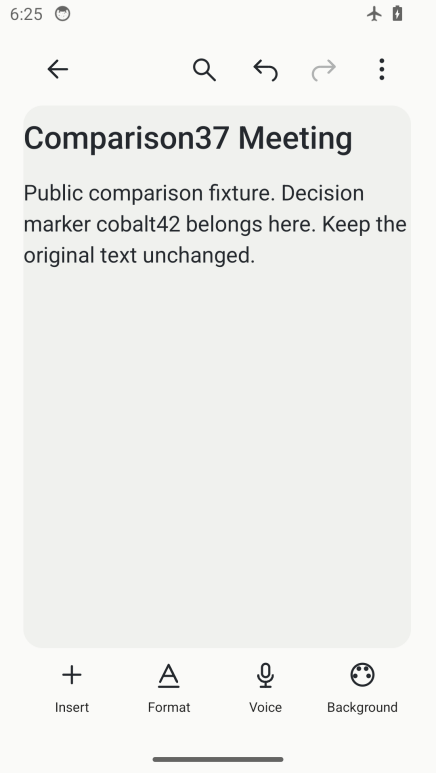

mynotes original screenshot

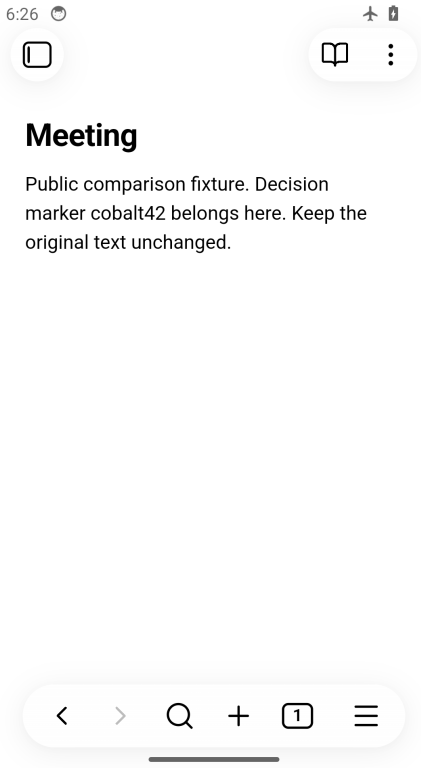

obsidian — blocked. Actual bounded check: No matching installed core command established for ocr|recogniz; not proof of feature absence

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Retain source hashes, full hypotheses, CER, omissions/false words, cold/warm latency and correction time. No new accuracy study or training occurred in this report.

PLAN-X19 | Voice recording, playback and transcription | planned light-portrait

Original acceptance task (NOT automatically accepted): Record varied Indian speakers, pause/resume, deny/regrant permission, play through a headset and correct names/numbers while listening.

mynotes — interaction_observed. Actual bounded check: Named native controls opened; no implicit persistence, discoverability or module acceptance.

mynotes original exact result record

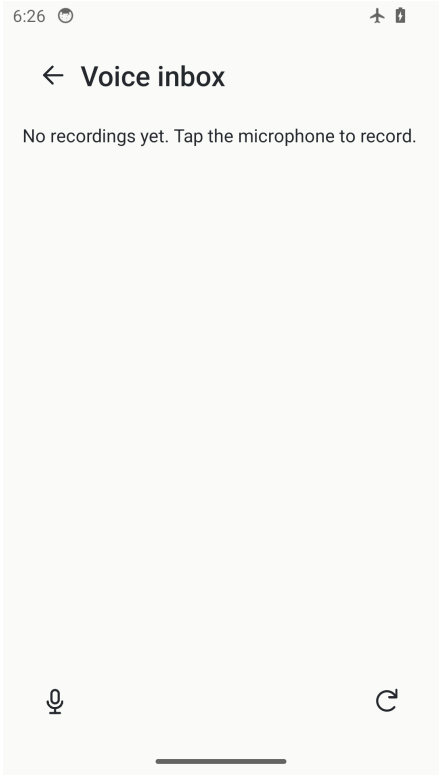

mynotes original screenshot

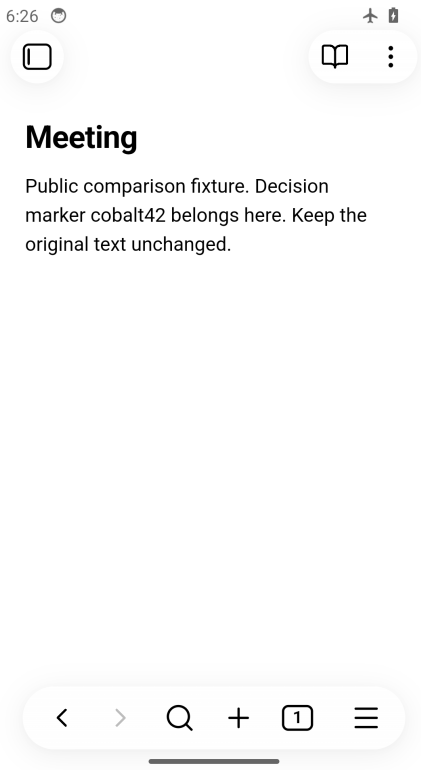

obsidian — blocked. Actual bounded check: No matching installed core command established for audio-recorder; not proof of feature absence

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Measure word errors, boundary losses, time-to-review, seek accuracy and actual audible playback on physical hardware. Verify originals export separately from note backups.

PLAN-X20 | Reminders and notifications | planned light-portrait

Original acceptance task (NOT automatically accepted): Set, rename and reschedule a reminder, deny notifications, reboot and then tap the delivered notification.

mynotes — interaction_observed. Actual bounded check: Reminder dialog entry; notification delivery/time persistence not inferred.

mynotes original exact result record

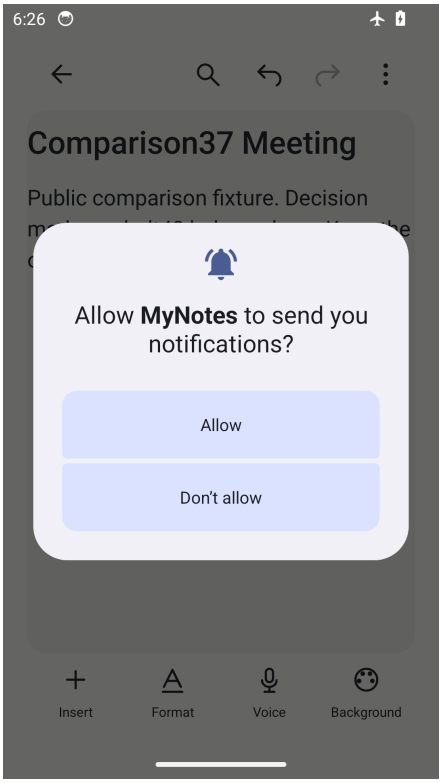

mynotes original screenshot

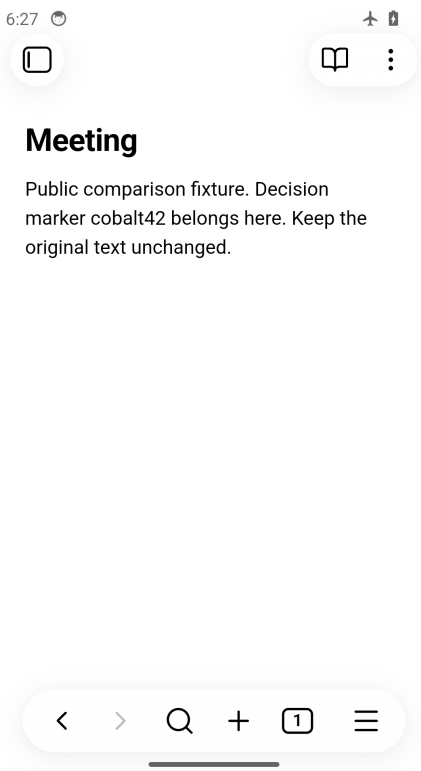

obsidian — blocked. Actual bounded check: No matching installed core command established for reminder; not proof of feature absence

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Use disposable notes; verify no stale/duplicate notification, correct note identity and sensible blocked-state feedback. Measure actual delivery under power restrictions separately.

PLAN-X21 | Home widget and Android entry points | planned light-portrait

Original acceptance task (NOT automatically accepted): Place/resize the widget, pin and archive notes, share text from another app and open a reminder deep link.

mynotes — blocked. Actual bounded check: Home Library control not ready; app error is not suppressed

mynotes original exact result record

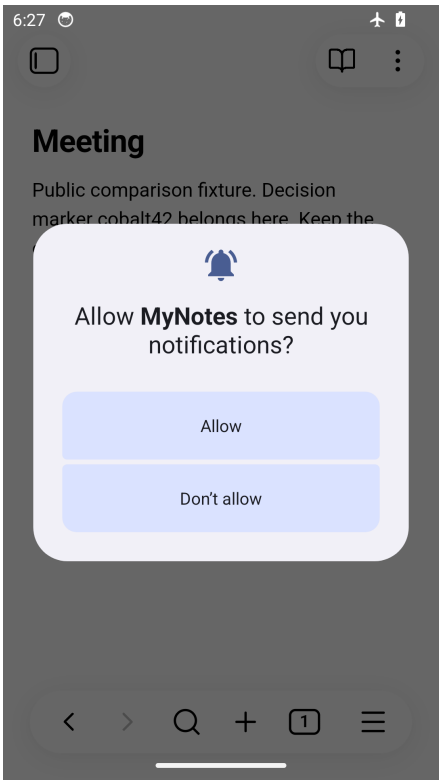

mynotes original screenshot

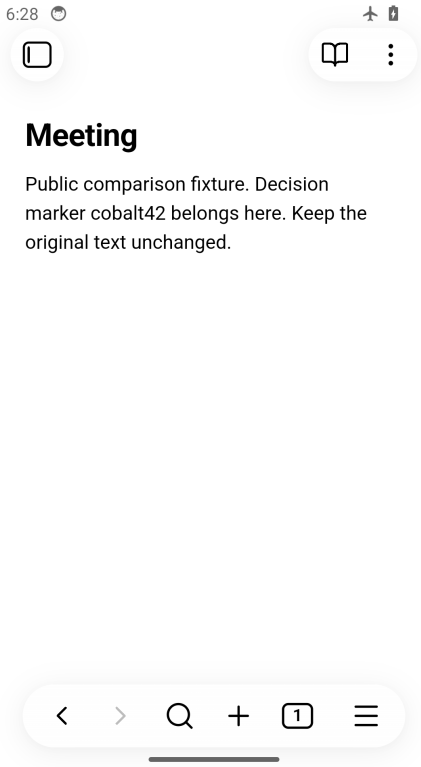

obsidian — inspection_only. Actual bounded check: Android provider diagnostic, not placement, usability or proof of all entry points.

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify labels, intended note, no duplicates and return context on real launchers, including large system text. Do not restore widget/notification consent silently during recovery.

PLAN-X22 | Appearance, backgrounds, fonts and accessibility | planned light-portrait

Original acceptance task (NOT automatically accepted): Switch system theme, increase font scale, navigate with TalkBack and format selected text over a patterned background.

mynotes — blocked. Actual bounded check: Home Library control not ready; app error is not suppressed

mynotes original exact result record

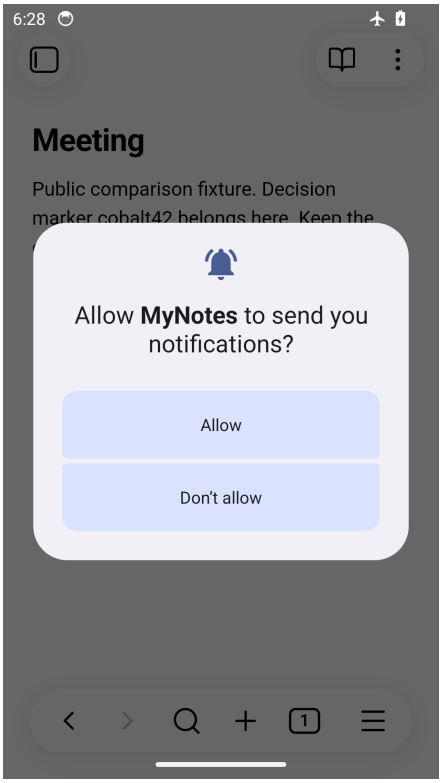

mynotes original screenshot

obsidian — interaction_observed. Actual bounded check: Official settings API navigation; actual visible surface retained. Requested tab is not presumed reached without subsequent evidence review.

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

Capture blocker: Command '['adb', 'shell', 'uiautomator', 'dump', '/sdcard/paired-window.xml']' timed out after 35 seconds

obsidian original exact result record

No original capture

No whole-family acceptance. Remaining: Check clipping, announced scope/selection, contrast and focus order across orientations; screenshots alone do not establish 48dp targets or a successful screen-reader task.

PLAN-X23 | First-use storage, private folders and optional App folder | planned light-portrait

Original acceptance task (NOT automatically accepted): Create notes offline, choose an empty optional folder, revoke access, save again and reconnect without clearing app data.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Inspect exact copied categories and pending status; test reinstall/reselection only on disposable fixtures. Never tell the user to uninstall or clear their real library for this review.

PLAN-X24 | Portable backup, import merge and full recovery | planned light-portrait

Original acceptance task (NOT automatically accepted): Export a near-limit rich library, exceed the limit safely, import identical and same-ID changed notes, then verify every supported content type.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: No silent partial success or overwrite; disclose omitted categories and readable/non-encrypted JSON. A complete App-folder checkpoint is a separate opt-in recovery mechanism, not this portable file.

PLAN-X25 | Trash, permanent deletion and recovery | planned light-portrait

Original acceptance task (NOT automatically accepted): Delete/restore a rich note, inspect what happens to its audio and exports, then purge only a disposable selected note.

mynotes — interaction_observed. Actual bounded check: Named native controls opened; no implicit persistence, discoverability or module acceptance.

mynotes original exact result record

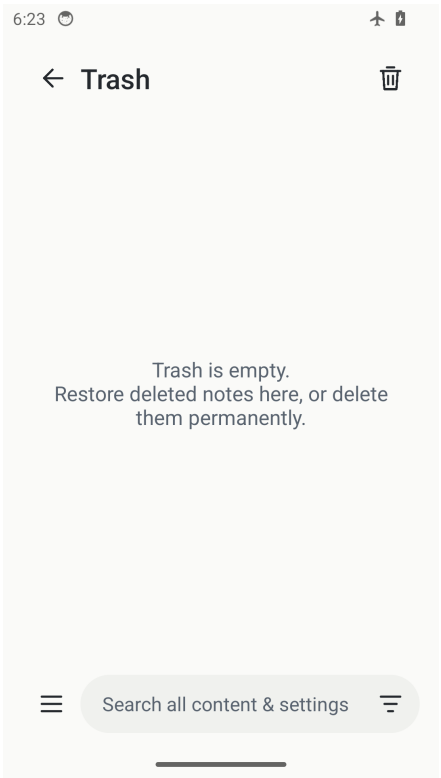

mynotes original screenshot

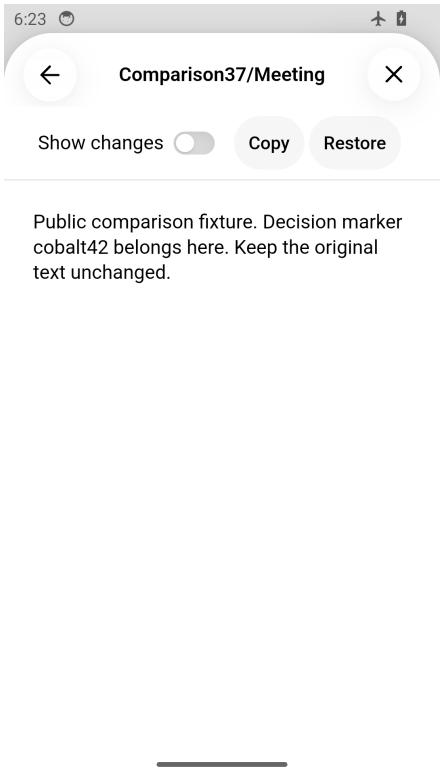

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify the exact affected IDs, Undo boundaries, expiry policy and retained separate data. Never infer crash or power-loss recovery from a confirmation screenshot.

PLAN-X26 | Archive, pinning and bookmarks | planned light-portrait

Original acceptance task (NOT automatically accepted): Pin a note, archive it, find it globally, restore it and compare a saved Obsidian bookmark task.

mynotes — interaction_observed. Actual bounded check: Named native controls opened; no implicit persistence, discoverability or module acceptance.

mynotes original exact result record

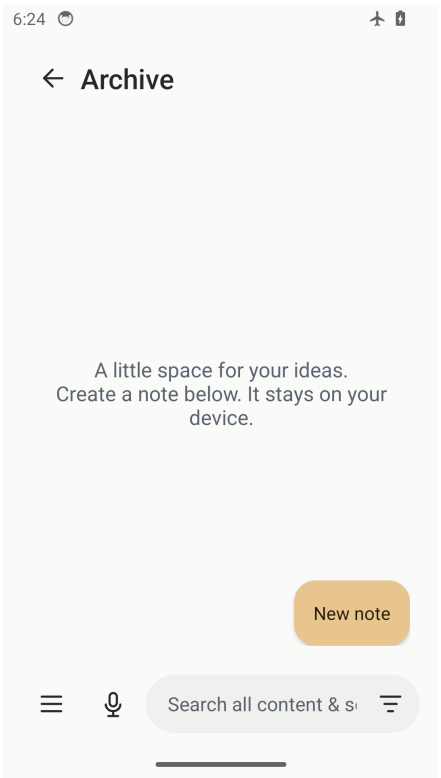

mynotes original screenshot

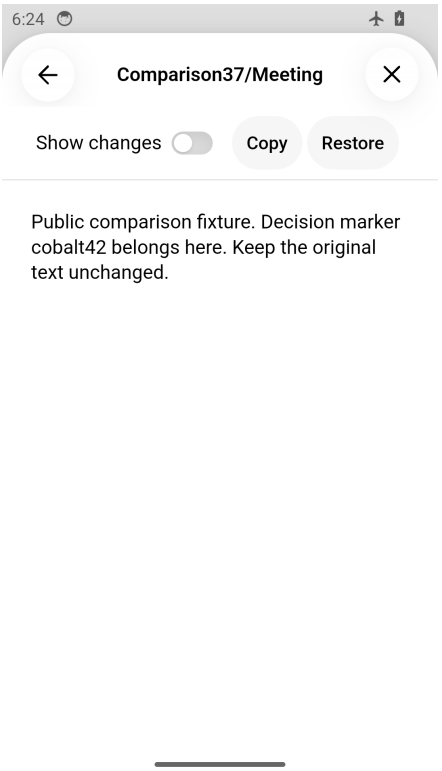

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Check persisted identity/order, scope labels and no accidental duplicate. Bookmark persistence must be newly verified rather than inferred from its empty pane.

PLAN-X27 | Undo, redo, editing history and save feedback | planned light-portrait

Original acceptance task (NOT automatically accepted): Edit text/table/image, undo and redo, leave and reopen; repeat after controlled process restart on disposable data.

mynotes — interaction_observed. Actual bounded check: Editor action surface; actual Undo/Redo/history outcome not inferred.

mynotes original exact result record

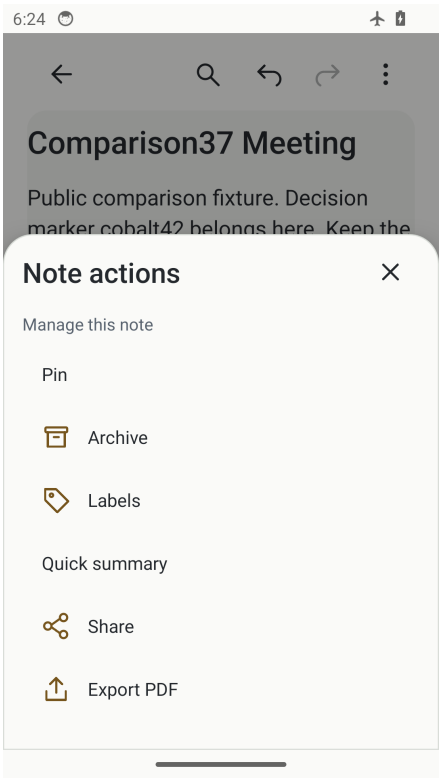

mynotes original screenshot

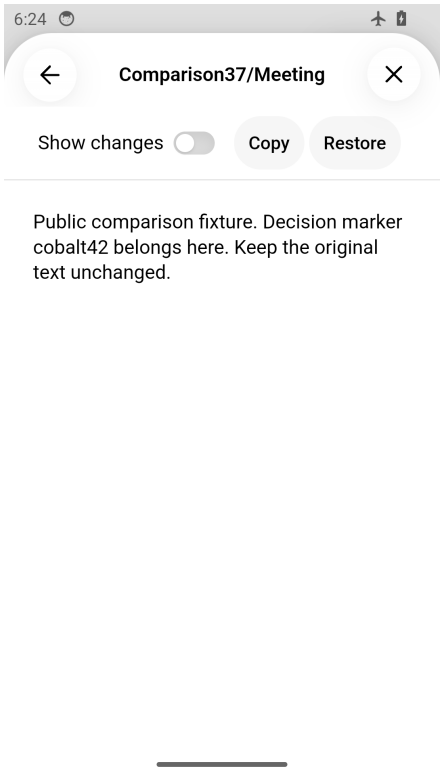

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify exact rich payload and history matching the saved revision; preserve current content when history is invalid or trimmed. Never run destructive migration on the user library.

PLAN-X28 | Workspaces, tabs and mobile navigation | planned light-portrait

Original acceptance task (NOT automatically accepted): Switch between two notes, a PDF and Settings; reorder content near an edge, then return to the initial editing location.

mynotes — blocked. Actual bounded check:

mynotes original exact result record

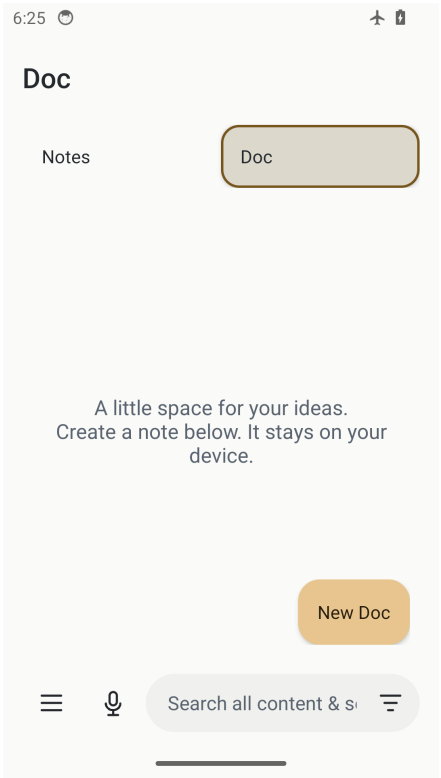

mynotes original screenshot

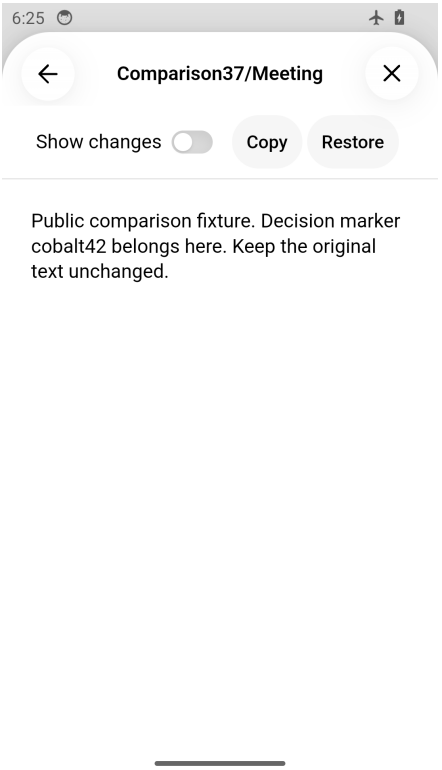

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Log wrong destinations, lost context, accidental switches and state after restart. Workspace restoration is outstanding until a matching live task succeeds.

PLAN-X29 | Settings, commands, quick actions and help discovery | planned light-portrait

Original acceptance task (NOT automatically accepted): Without a walkthrough, find move, undo, export, a setting and one uncommon editor action using touch alone.

mynotes — interaction_observed. Actual bounded check: Named native controls opened; no implicit persistence, discoverability or module acceptance.

mynotes original exact result record

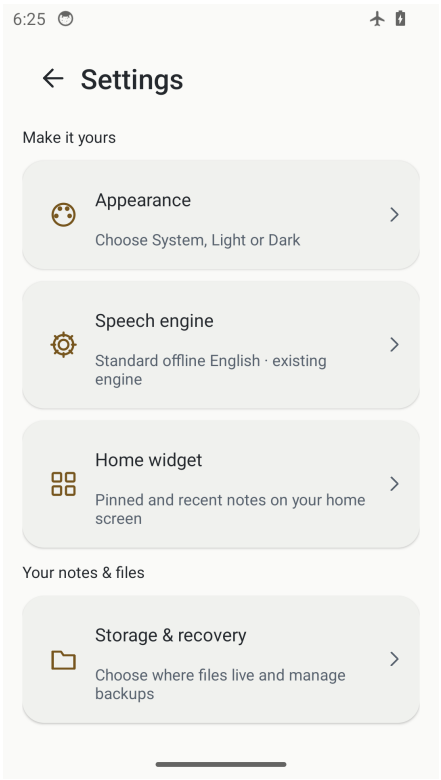

mynotes original screenshot

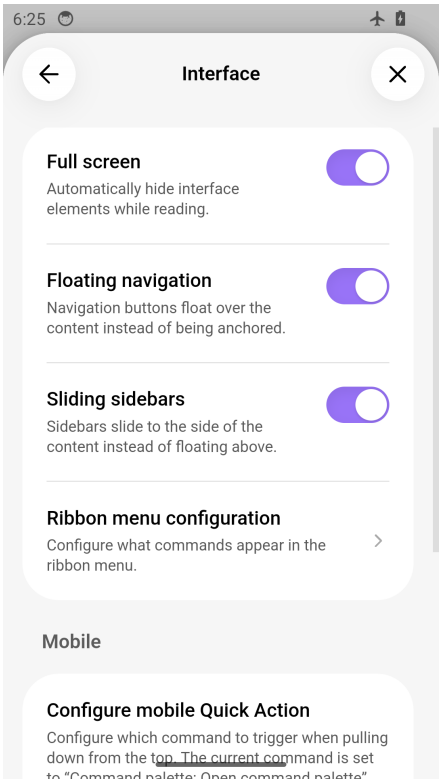

obsidian — interaction_observed. Actual bounded check: Official settings API navigation; actual visible surface retained. Requested tab is not presumed reached without subsequent evidence review.

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Observe search terms, wrong taps and help requests; distinguish disabled/contextual/unconfigured actions. Do not use all 205 inventoried commands as a usability success count.

PLAN-X30 | Export, sharing, duplication and note composition | planned light-portrait

Original acceptance task (NOT automatically accepted): Share a mixed note, export PDF and JSON, duplicate it, merge selected notes and undo the merge.

mynotes — interaction_observed. Actual bounded check: Share entry/resolver only; no external app, message or network operation is performed.

mynotes original exact result record

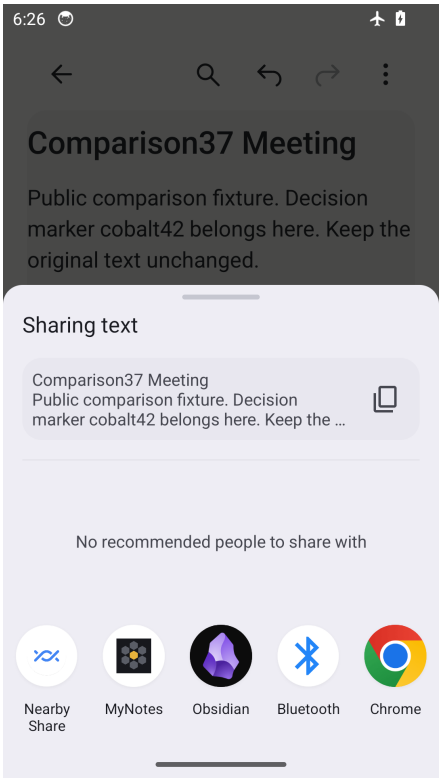

mynotes original screenshot

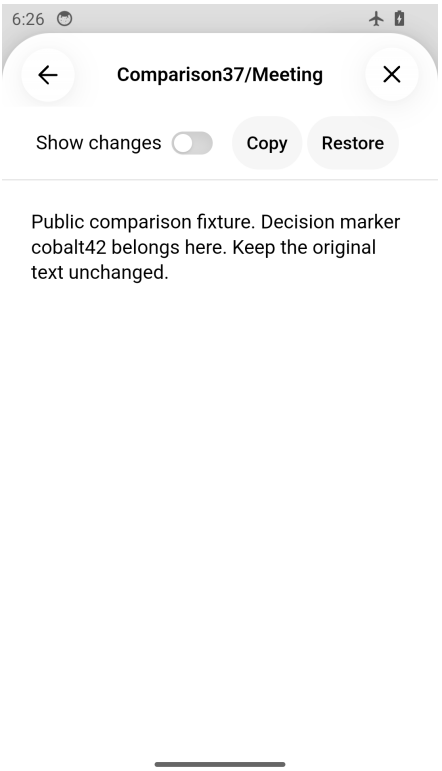

obsidian — blocked. Actual bounded check: No matching installed core command established for workspace:share; not proof of feature absence

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Check text/media/table fidelity for each promised format, exact source IDs and retained source copies; destination failure must not silently destroy content.

PLAN-X31 | Local summary and text assistance | planned light-portrait

Original acceptance task (NOT automatically accepted): Summarize varied notes with negation, dates and multilingual sentences; check the retained source and decide whether the result is useful.

mynotes — interaction_observed. Actual bounded check: Local summary surface only; no saving or summary accuracy acceptance.

mynotes original exact result record

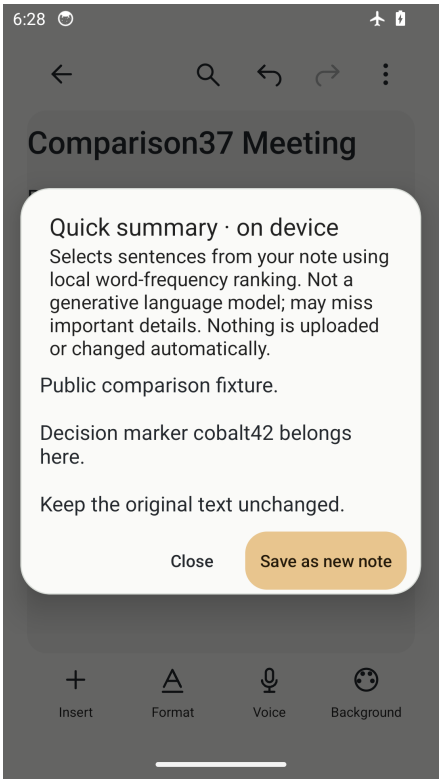

mynotes original screenshot

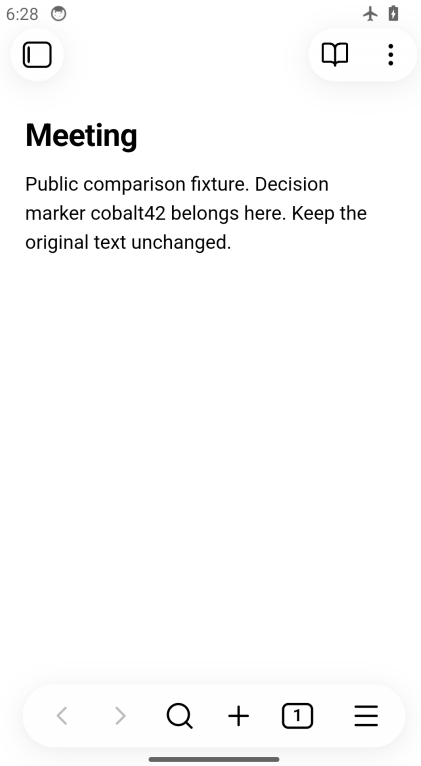

obsidian — blocked. Actual bounded check: No matching installed core command established for summari; not proof of feature absence

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify each sentence comes from the source, essential cautions are not lost and limits are clear. No summary-quality test was executed in this report.

PLAN-X32 | Privacy, permission boundaries and diagnostic logs | planned light-portrait

Original acceptance task (NOT automatically accepted): Deny microphone, use notes normally, enable logs for a dummy issue, filter/export/delete and inspect the resulting local file.

mynotes — blocked. Actual bounded check: No visible enabled exact-label control: ('Diagnostics',); labels=['', '', '', '', '', 'Back', 'Settings', '', '', 'Make it yours', '', '', '', 'Appearance', 'Choose System, Light or Dark', '', '', '', '', 'Speech engine', 'Standard offline English · existing engine', '', '', '', '', 'Home widget', 'Pinned and recent notes on your home screen', '', 'Your notes & files', '', '', '', 'Storage & recovery', 'Choose where files live and manage backups', '', 'Help & privacy', '', '']

mynotes original exact result record

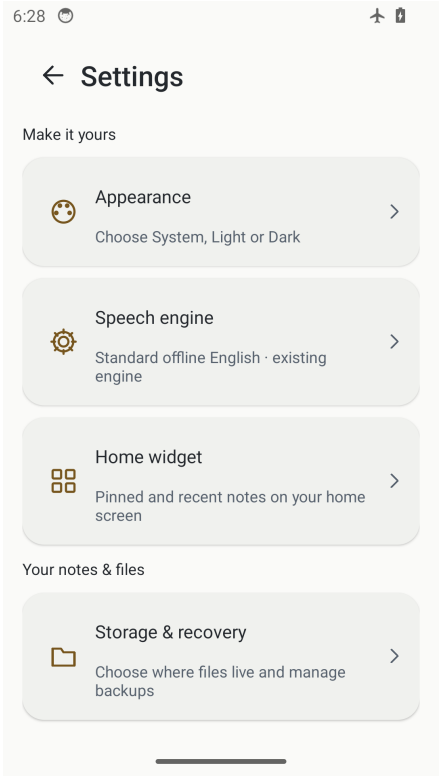

mynotes original screenshot

obsidian — interaction_observed. Actual bounded check: Official settings API navigation; actual visible surface retained. Requested tab is not presumed reached without subsequent evidence review.

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

Capture blocker: Command '['adb', 'shell', 'uiautomator', 'dump', '/sdcard/paired-window.xml']' timed out after 35 seconds

obsidian original exact result record

No original capture

No whole-family acceptance. Remaining: Verify opt-out, readable levels/time range, explicit delete confirmation and exported content minimisation. Security of all native dependencies was not certified here.

PLAN-X33 | Smoothness, speed, footprint and reliability | planned light-portrait

Original acceptance task (NOT automatically accepted): On matched hardware, cold start, create/type, search a large library, drag a distant card, open a large PDF and recover from a controlled failure.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Collect touch-to-visible timings, frame trace, dropped frames, memory and exact failure logs. Distinguish timeouts/socket failures from app crashes and do not publish a fabricated global score.

PLAN-X34 | Core modules, community plugins and extensibility | planned light-portrait

Original acceptance task (NOT automatically accepted): Find a core module, understand its description, enable/disable it and identify changed controls; inspect restricted/plugin trust text without installing unknown code.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Verify reversible configuration and a stable default note workflow. No community code was installed or executed; unknown plugins and future modules are outside this pinned-version inventory.

PLAN-X35 | Sync, Publish, account and service boundaries | planned light-portrait

Original acceptance task (NOT automatically accepted): For a future explicitly authorised service study, evaluate offline edits, conflicts, account loss, export and deliberate public visibility with disposable data.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: No login, purchase, upload or publishing was performed. Conflict resolution, encryption, recovery and cost/value remain untested; an entry screen is not a passed sync task.

PLAN-X36 | Slides, presentation and reading projections | planned light-portrait

Original acceptance task (NOT automatically accepted): Present a multi-slide disposable note, navigate, dismiss the keyboard, rotate and return to editing; compare PDF reading only as a separate output route.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Verify every slide, media, controls and return location. Obsidian landscape was not qualified by its retained audit; no physical presentation run occurred here.

PLAN-X37 | About, models, licences and honest help | planned light-portrait

Original acceptance task (NOT automatically accepted): Ask a novice to identify where notes are saved, how to protect audio and how to export useful diagnostics without sending private notes.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Observe whether they can explain the result in their own words. Do not substitute long notices or a generated guide for successful comprehension.

PLAN-X01 | Find, organise, label and reorder | planned dark-portrait

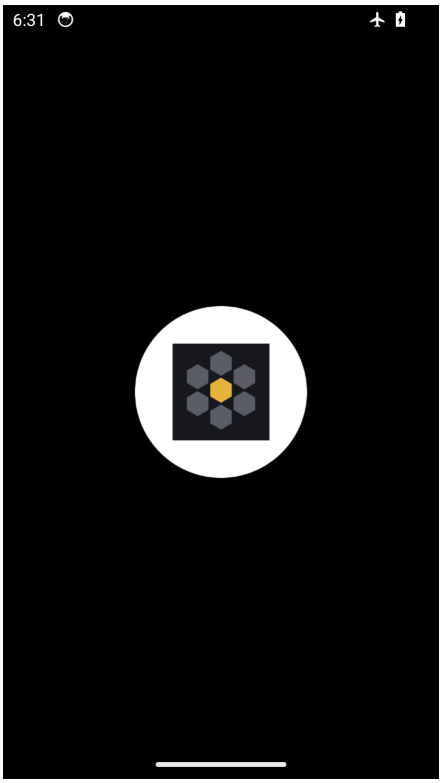

Original acceptance task (NOT automatically accepted): Find an archived body-only match while a folder filter is active; reorder a distant card, then return.

mynotes — blocked. Actual bounded check: Command '['adb', 'shell', 'am', 'start', '-W', '-n', 'app.space.notes/.NotesActivity']' timed out after 45 seconds

mynotes original exact result record

mynotes original screenshot

obsidian: NOT EXECUTED — no original record.

No original capture

No whole-family acceptance. Remaining: Record actual scope, result passage, selected filters and persisted order; repeat list/grid, keyboard and large text. Measure drag continuity only in a new live session.

PLAN-X02 | Writing, reading and formatting | planned dark-portrait

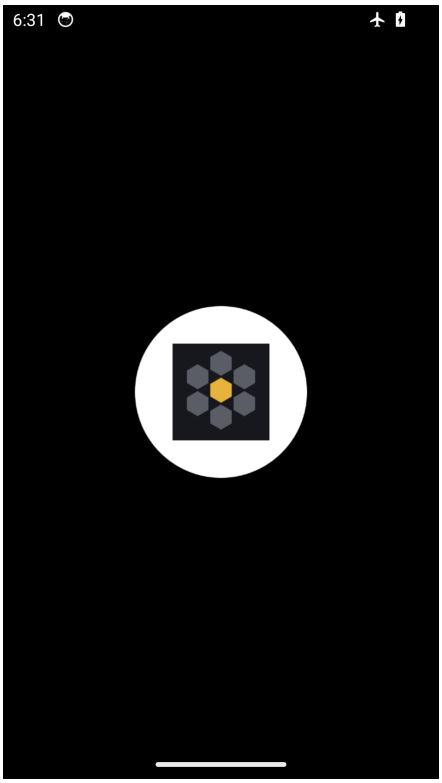

Original acceptance task (NOT automatically accepted): Format the middle of a paragraph, type new text, undo, dismiss the keyboard and reopen the note.

mynotes — blocked. Actual bounded check: Command '['adb', 'shell', 'am', 'start', '-W', '-n', 'app.space.notes/.NotesActivity']' timed out after 45 seconds

mynotes original exact result record

mynotes original screenshot

obsidian: NOT EXECUTED — no original record.

No original capture

No whole-family acceptance. Remaining: Retain surrounding prose, correct style target, caret and saved result. Repeat with large text; compare actual task completion and mistakes, not assertion counts.

PLAN-X03 | Checklists, numbering and list editing | planned dark-portrait

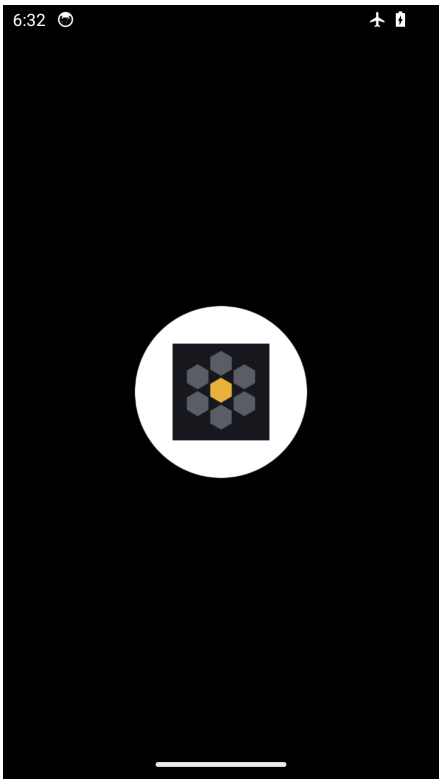

Original acceptance task (NOT automatically accepted): Insert an item in the middle, indent it, move it past the viewport, hide completed rows and undo.

mynotes — blocked. Actual bounded check: Command '['adb', 'shell', 'am', 'start', '-W', '-n', 'app.space.notes/.NotesActivity']' timed out after 45 seconds

mynotes original exact result record

mynotes original screenshot

obsidian: NOT EXECUTED — no original record.

No original capture

No whole-family acceptance. Remaining: No lost items, wrong-list operations or accidental workspace swipes. Verify numbering after insertion and Backspace exit at an empty item.

PLAN-X04 | Tables and direct cell editing | planned dark-portrait

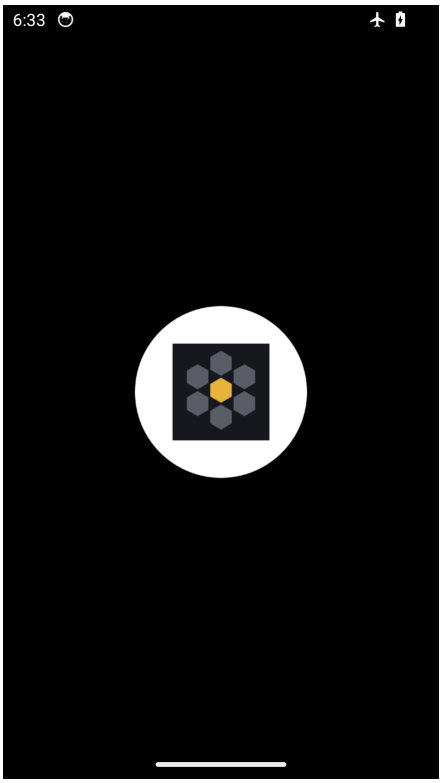

Original acceptance task (NOT automatically accepted): Edit a long cell in a wide table; insert a column beside it, toggle header role, delete a row and undo.

mynotes — blocked. Actual bounded check: Command '['adb', 'shell', 'am', 'start', '-W', '-n', 'app.space.notes/.NotesActivity']' timed out after 45 seconds

mynotes original exact result record

mynotes original screenshot

obsidian: NOT EXECUTED — no original record.

No original capture

No whole-family acceptance. Remaining: Keep the active cell visible above the IME; no unexpected horizontal jump; restore content and header meaning after undo. Compare the same table, not these unequal fixtures.

PLAN-X05 | Images, attachments and inline media | planned dark-portrait

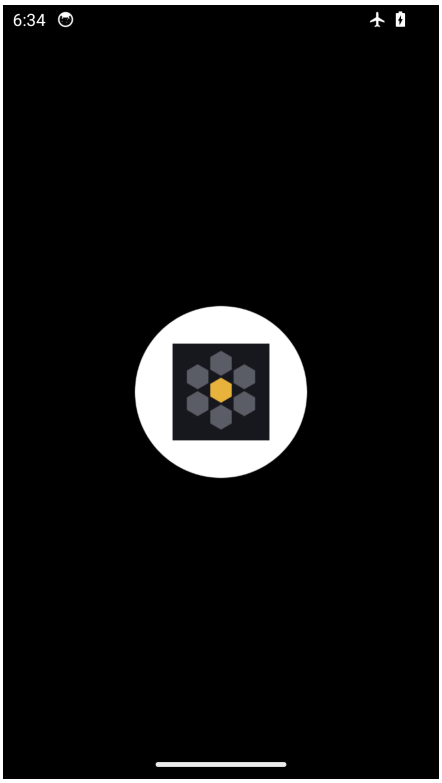

Original acceptance task (NOT automatically accepted): Insert a photo, select two recognized words, keep the image, edit its crop, then remove only the intended attachment.

mynotes — blocked. Actual bounded check: Command '['adb', 'shell', 'am', 'start', '-W', '-n', 'app.space.notes/.NotesActivity']' timed out after 45 seconds

mynotes original exact result record

mynotes original screenshot

obsidian: NOT EXECUTED — no original record.

No original capture

No whole-family acceptance. Remaining: Keep source bytes, unrelated blocks and names intact; make copy versus replacement clear. Verify offscreen word selection and explicit outside-tap dismissal.

PLAN-X06 | Web hyperlinks and external opening | planned dark-portrait

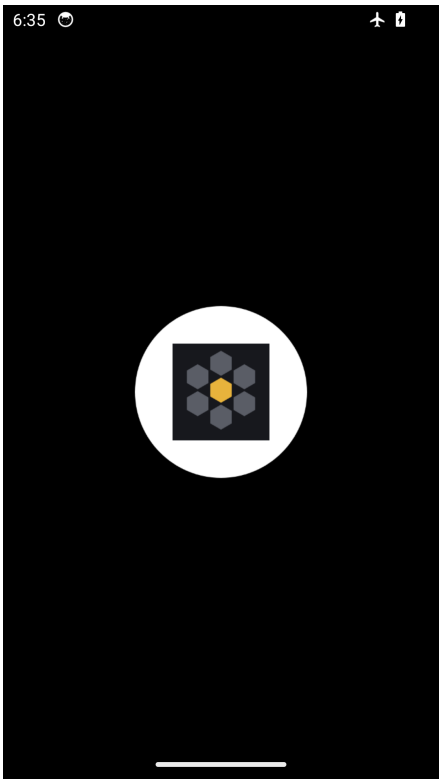

Original acceptance task (NOT automatically accepted): Add a long URL to selected words, correct a malformed address, reopen, edit and remove the link.

mynotes — blocked. Actual bounded check: Command '['adb', 'shell', 'am', 'start', '-W', '-n', 'app.space.notes/.NotesActivity']' timed out after 45 seconds

mynotes original exact result record

mynotes original screenshot

obsidian: NOT EXECUTED — no original record.

No original capture

No whole-family acceptance. Remaining: No duplicate URL per line, changed neighboring prose or unnoticed external launch. Check keyboard visibility, wrapped fields and TalkBack error announcement.

PLAN-X07 | Internal links, backlinks, graph and previews | planned dark-portrait

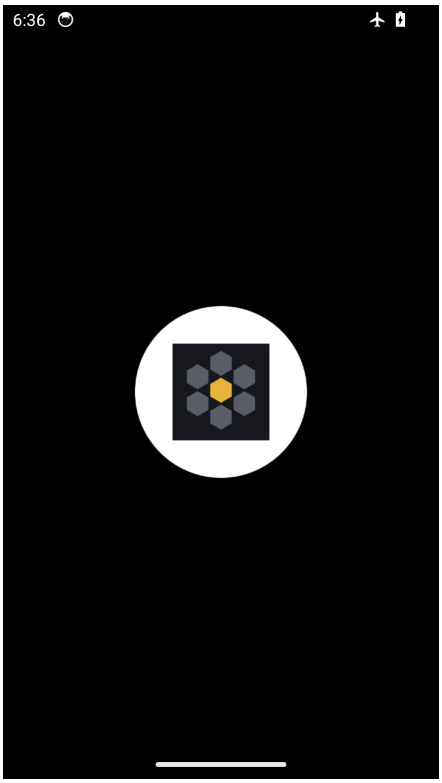

Original acceptance task (NOT automatically accepted): Link A to a heading in B, rename B, return through backlinks and preview the target without losing A.

mynotes — blocked. Actual bounded check: Command '['adb', 'shell', 'am', 'start', '-W', '-n', 'app.space.notes/.NotesActivity']' timed out after 45 seconds

mynotes original exact result record

mynotes original screenshot

obsidian: NOT EXECUTED — no original record.

No original capture

No whole-family acceptance. Remaining: Target identity and rename behavior must be verified live; count wrong destinations and recovery steps. No graph speed or link-integrity winner has been measured.

PLAN-X08 | Long-note orientation, tags, footnotes and word count | planned dark-portrait

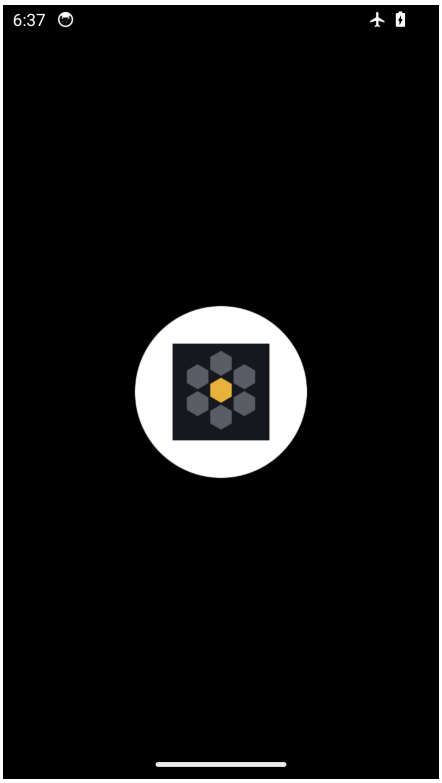

Original acceptance task (NOT automatically accepted): Locate a middle heading, find a repeated phrase, follow a footnote and return to the exact reading location.

mynotes — blocked. Actual bounded check: Command '['adb', 'shell', 'am', 'start', '-W', '-n', 'app.space.notes/.NotesActivity']' timed out after 45 seconds

mynotes original exact result record

mynotes original screenshot

obsidian: NOT EXECUTED — no original record.

No original capture

No whole-family acceptance. Remaining: Verify target and return anchors, heading levels, counts and generated text treatment; do not infer footnote success from a registered command.

PLAN-X09 | Properties and Bases | planned dark-portrait

Original acceptance task (NOT automatically accepted): For users who need records, edit one typed field, filter a view, rename a file and reopen the view.

mynotes — counterpart_not_established. Actual bounded check: Requested counterpart not established in the visited first-party settings surface. This is NOT proof of app-wide absence or a comparative score.

mynotes original exact result record

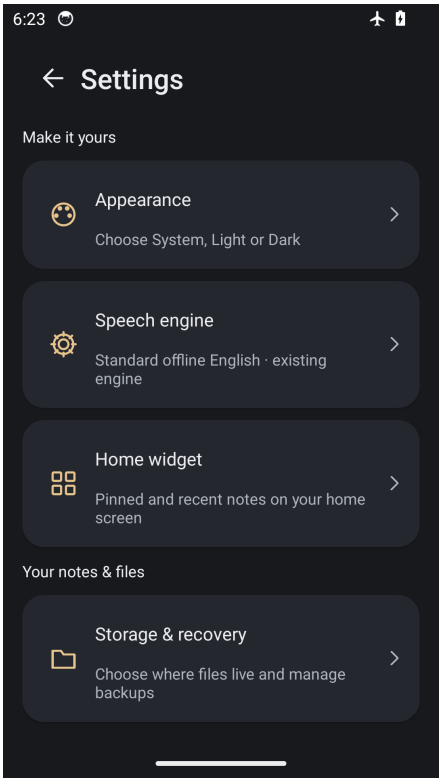

mynotes original screenshot

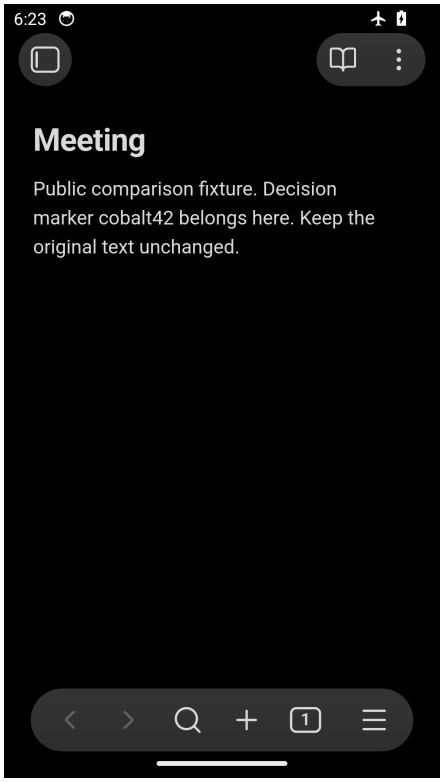

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Validate data types, retained filters, note identity and error recovery. No Bases performance, formulas or equivalent MyNotes capability is certified here.

PLAN-X10 | Quick capture, daily notes, templates and unique notes | planned dark-portrait

Original acceptance task (NOT automatically accepted): From a cold start, capture a short thought; then create a repeated meeting structure and return tomorrow.

mynotes — interaction_observed. Actual bounded check: Named native controls opened; no implicit persistence, discoverability or module acceptance.

mynotes original exact result record

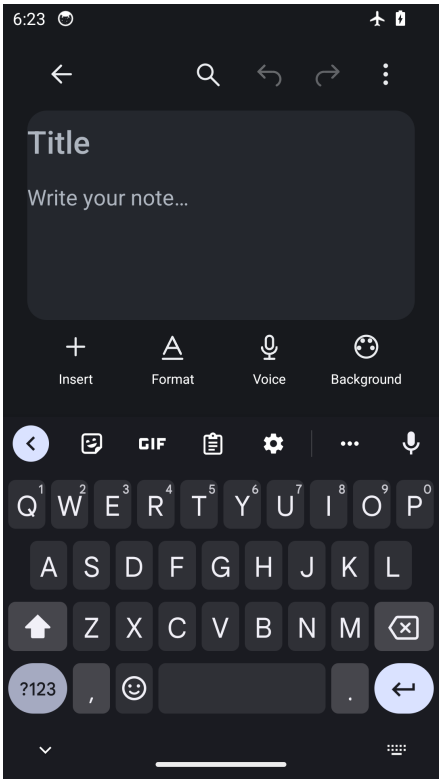

mynotes original screenshot

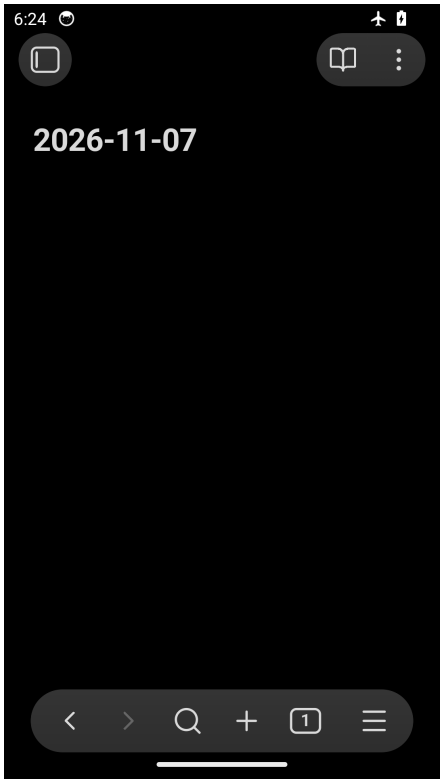

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Observe time to first saved words, setup mistakes, duplicate daily notes and return continuity. Do not populate fake user content to make the app feel busy.

PLAN-X11 | Freehand drawing and Canvas | planned dark-portrait

Original acceptance task (NOT automatically accepted): Draw a diagram annotation, leave and reopen it; in Canvas connect two cards, pan/zoom and reopen the board.

mynotes — interaction_observed. Actual bounded check: Actual drawing entry, not a shared Canvas capability or saved drawing pass.

mynotes original exact result record

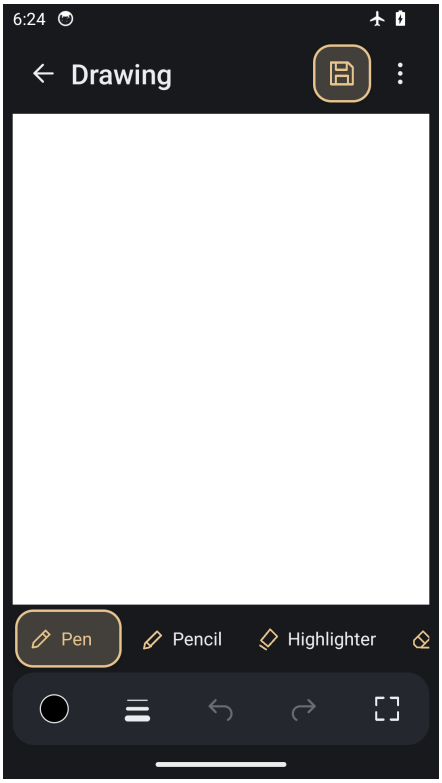

mynotes original screenshot

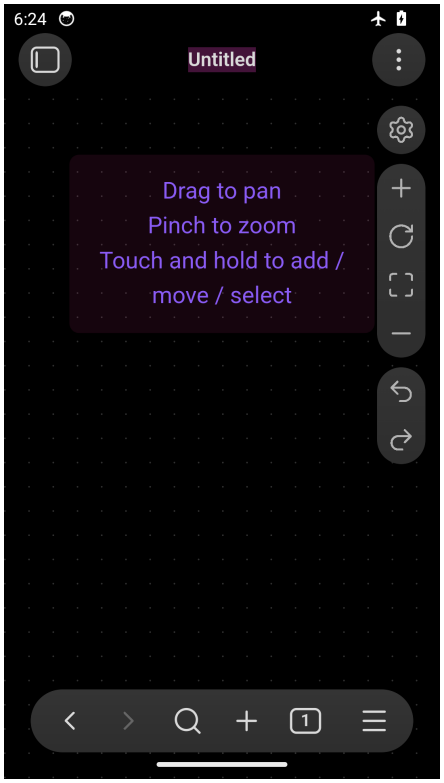

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Evaluate each tool against its own output goal. For common save/return work, preserve content and location; latency needs real stroke traces on matched hardware.

PLAN-X12 | Diagrams, shapes, arrows and grouping | planned dark-portrait

Original acceptance task (NOT automatically accepted): Add two shapes, connect them, group, resize, split the arrow, undo and reopen.

mynotes — interaction_observed. Actual bounded check: Rectangle tool activated; no comparator equivalence or persisted graph acceptance.

mynotes original exact result record

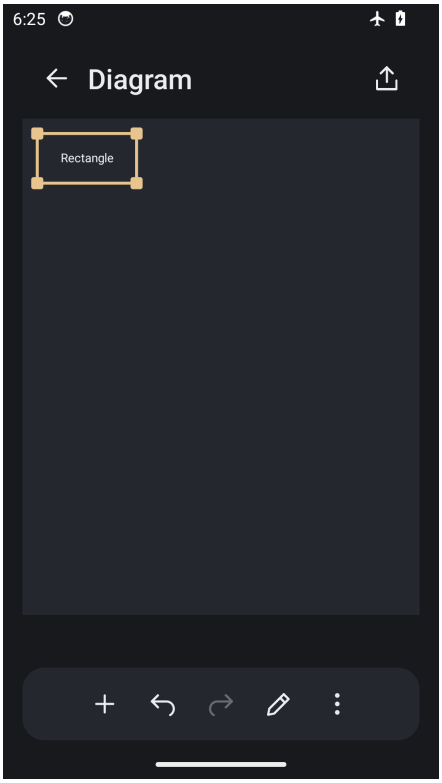

mynotes original screenshot

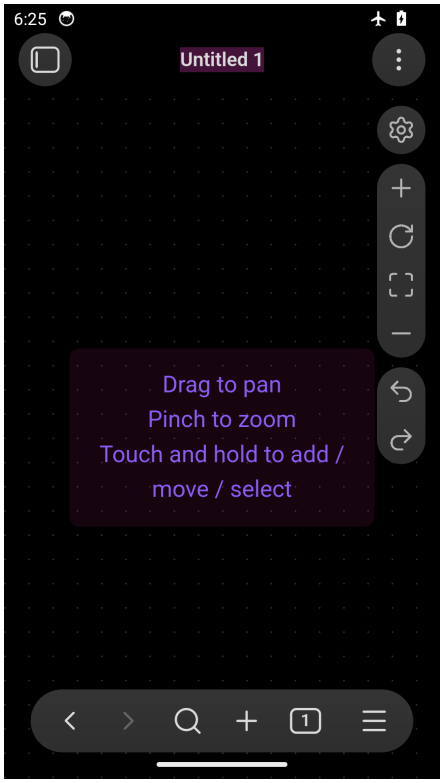

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Check actual anchor geometry, target selection, retained names and no accidental duplication. Run long-press/context-menu actions with large text and TalkBack.

PLAN-X13 | PDF reading, selection, search and markup | planned dark-portrait

Original acceptance task (NOT automatically accepted): Open a large scanned/mixed PDF, zoom a distant page, select offscreen text, find a hit with IME, mark a rotated page and export.

mynotes — blocked. Actual bounded check: Picker did not expose public fixture Comparison.pdf

mynotes original exact result record

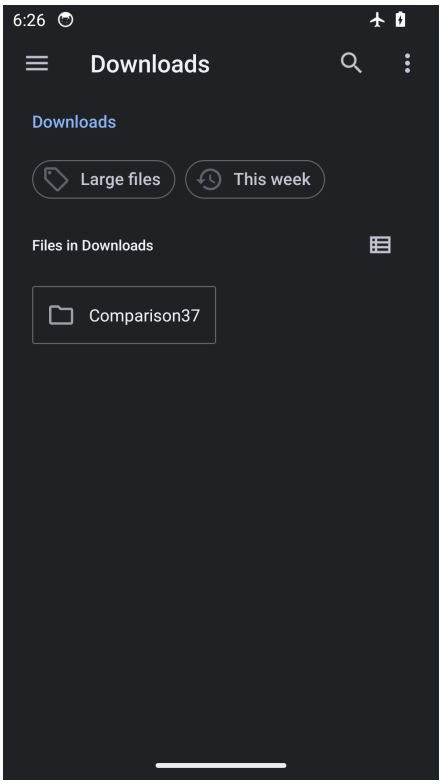

mynotes original screenshot

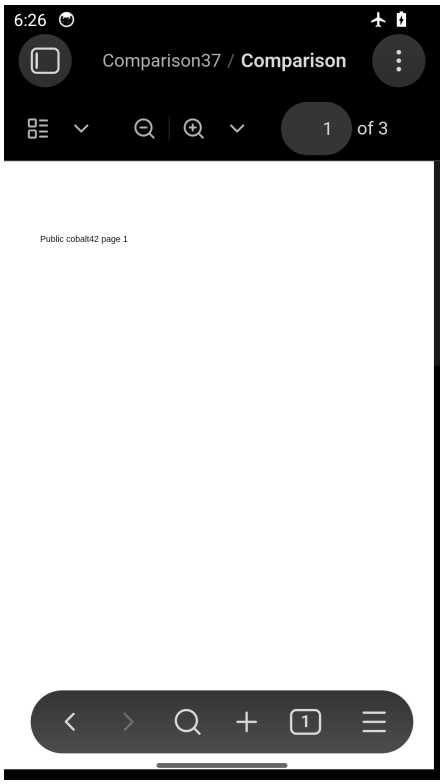

obsidian — interaction_observed. Actual bounded check: Public attachment opened through official vault/workspace API shortcut; actual view type captured, not full format fidelity or user import-route acceptance.

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Compare the original bytes; inspect hit position, highlight geometry and rendered export. Exercise cancellation and a partial destination; private markup drafts are outside Notes backups.

PLAN-X14 | Word files and original-layout expectations | planned dark-portrait

Original acceptance task (NOT automatically accepted): Open a DOCX with headers, inline images, wide tables and hard page breaks; select text, zoom and create an editable copy.

mynotes — interaction_observed. Actual bounded check: Actual system picker selected the specified original; viewer/reader state inspected, not complete fidelity/search acceptance.

mynotes original exact result record

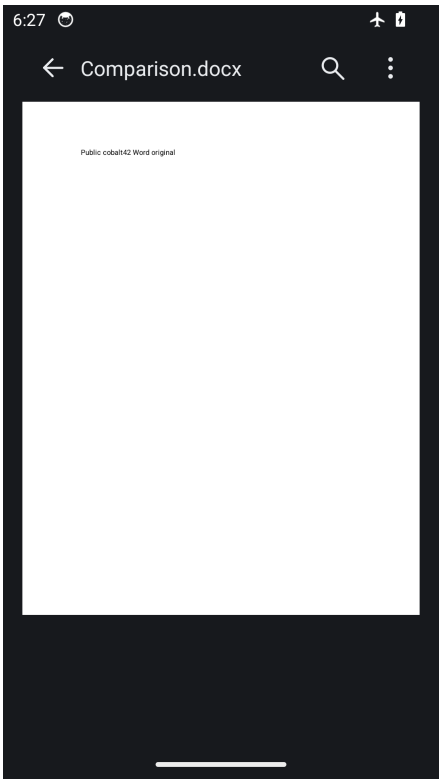

mynotes original screenshot

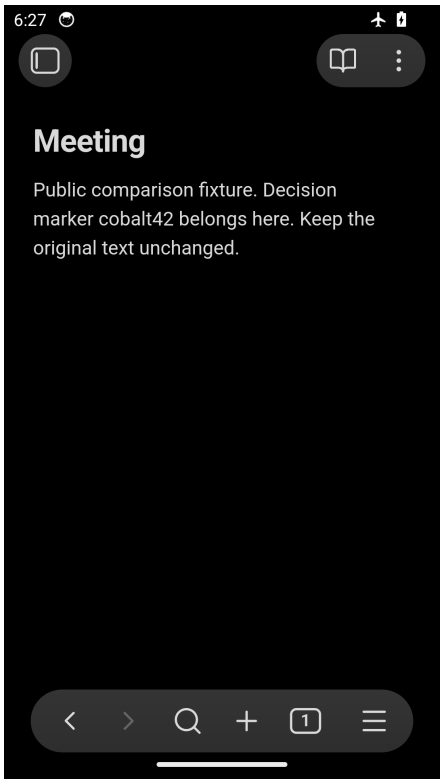

obsidian — blocked. Actual bounded check: ('Target file view not established', {'type': 'markdown', 'file': 'Comparison37/Meeting.md', 'body': 'Meeting\nPublic comparison fixture. Decision marker cobalt42 belongs here. Keep the original text unchanged.\n1'})

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Check original bytes and document return position, compare rendered pages with a suitable Word reference, and disclose any dropped layout/media. Do not invent fidelity from a synthetic one-page frame.

PLAN-X15 | Large TXT and read-only text viewing | planned dark-portrait

Original acceptance task (NOT automatically accepted): Open a large multilingual TXT, find a repeated phrase near the end, select across the viewport and return to the prior file list.

mynotes — blocked. Actual bounded check: Picker did not expose public fixture Comparison.txt

mynotes original exact result record

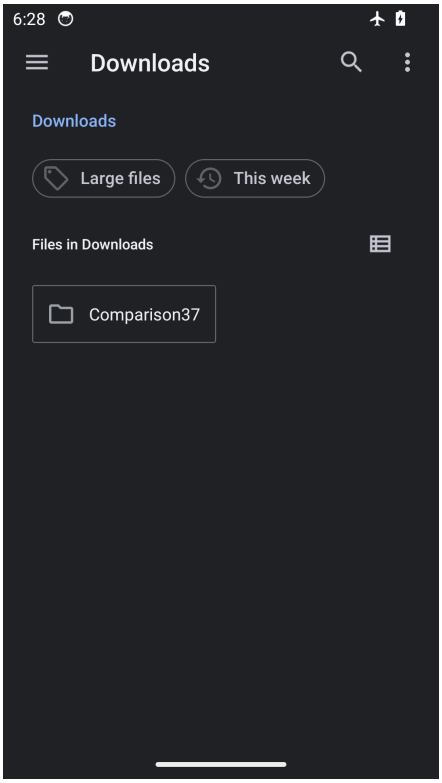

mynotes original screenshot

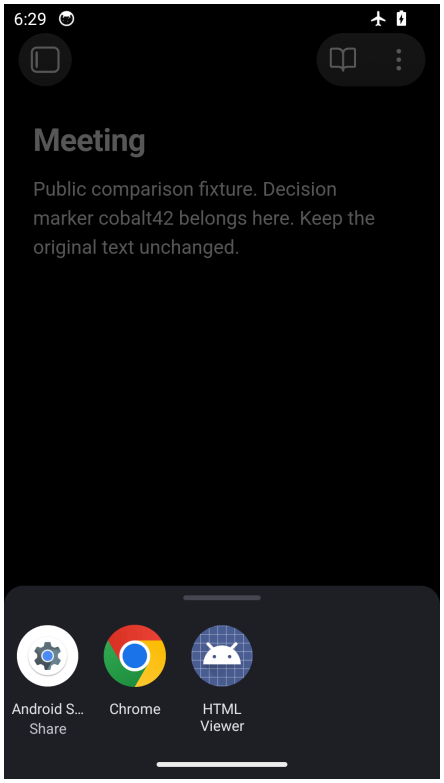

obsidian — blocked. Actual bounded check: ('Target file view not established', {'type': 'markdown', 'file': 'Comparison37/Meeting.md', 'body': 'Meeting\nPublic comparison fixture. Decision marker cobalt42 belongs here. Keep the original text unchanged.\n1'})

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Measure open/find latency separately from rendering; inspect Unicode integrity, clear selection on deliberate tap, retained page and unchanged original.

PLAN-X16 | Spreadsheet previews and cached values | planned dark-portrait

Original acceptance task (NOT automatically accepted): Open quoted CSV and a multi-sheet XLSX with formulas, missing cached results and wide cells; locate a value and copy it.

mynotes — interaction_observed. Actual bounded check: Actual system picker selected the specified original; viewer/reader state inspected, not complete fidelity/search acceptance.

mynotes original exact result record

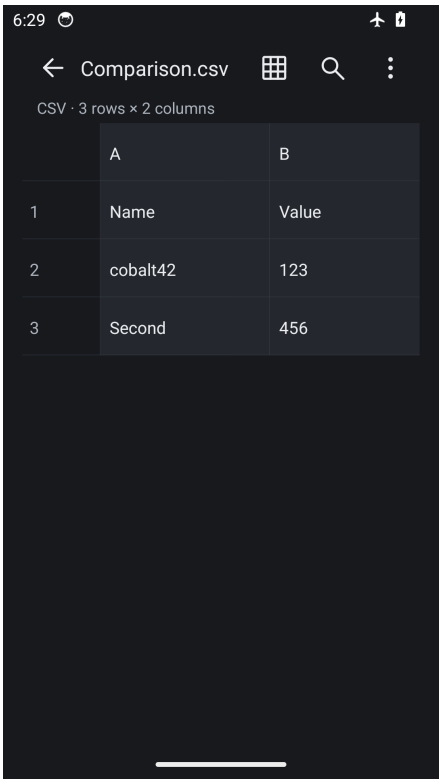

mynotes original screenshot

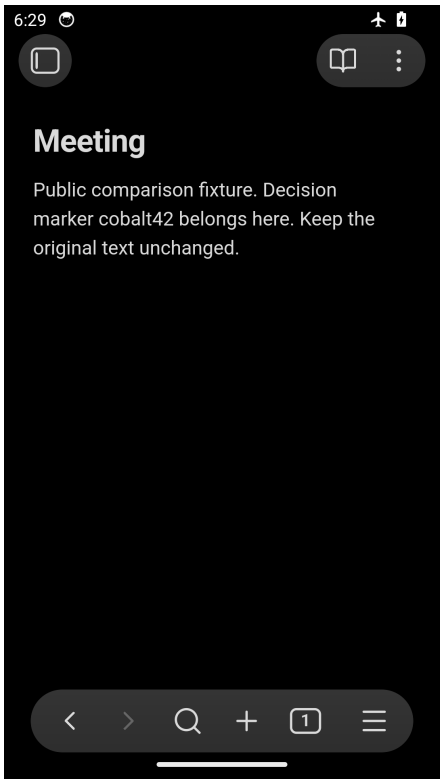

obsidian — blocked. Actual bounded check: ('Target file view not established', {'type': 'markdown', 'file': 'Comparison37/Meeting.md', 'body': 'Meeting\nPublic comparison fixture. Decision marker cobalt42 belongs here. Keep the original text unchanged.\n1'})

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Compare visible rows/columns and Unicode with source values, disclose cached-only results, retain sheet/scroll position and never execute macros or scripts.

PLAN-X17 | Markdown, HTML, RTF, ODT and slide imports | planned dark-portrait

Original acceptance task (NOT automatically accepted): Open one realistic file of each advertised type, inspect text order and unsupported elements, then cancel or create a copy.

mynotes — interaction_observed. Actual bounded check: Each named format attempted separately; blocked or text-only views are not full import fidelity passes.

mynotes original exact result record

mynotes original screenshot

Format subtasks: Comparison.md:interaction_observed; Comparison.html:interaction_observed; Comparison.rtf:interaction_observed; Comparison.odt:interaction_observed; Comparison.pptx:interaction_observed

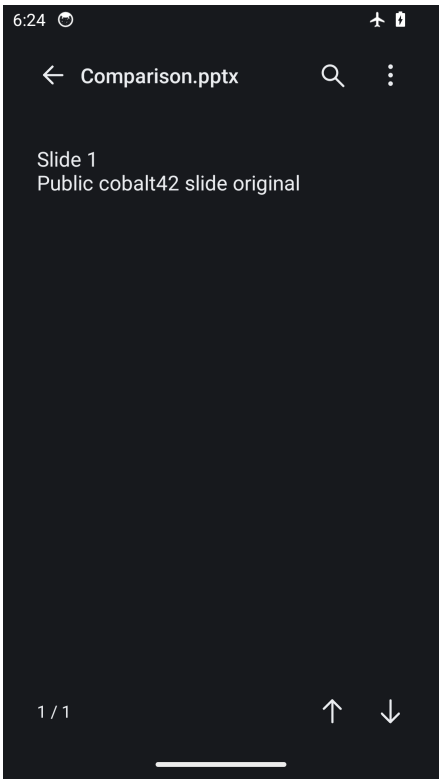

obsidian — interaction_observed. Actual bounded check: Each real attachment attempted independently; view type is not import fidelity.

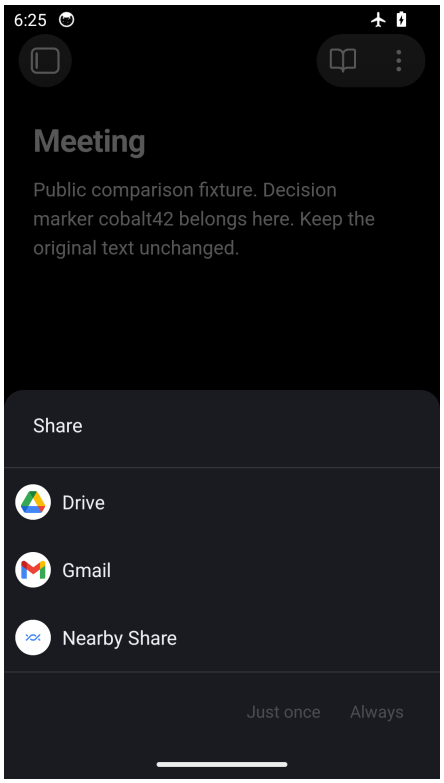

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

Format subtasks: Comparison.md:interaction_observed; Comparison.html:blocked; Comparison.rtf:blocked; Comparison.odt:blocked; Comparison.pptx:blocked

No whole-family acceptance. Remaining: Record per-format fidelity and actionable errors; preserve originals, reject malformed/oversized archives safely and distinguish external-reader delegation from in-app support.

PLAN-X18 | OCR, image-region text and scanned-page recognition | planned dark-portrait

Original acceptance task (NOT automatically accepted): Read tiny/oblique/multilingual public scenes, blank controls and selected image regions; compare exact expected text and corrected output.

mynotes — interaction_observed. Actual bounded check: OCR entry only. Actual varied-scene recognition/accuracy remains unverified in this paired task.

mynotes original exact result record

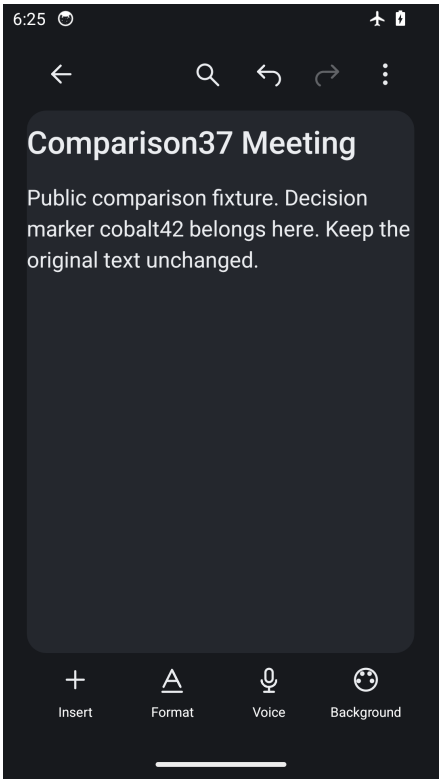

mynotes original screenshot

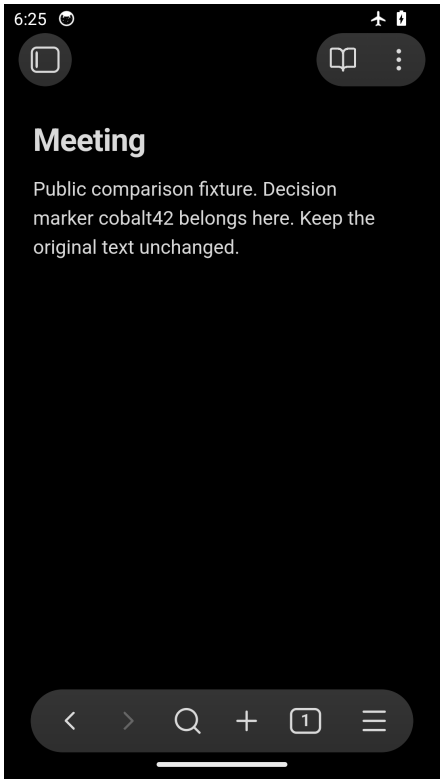

obsidian — blocked. Actual bounded check: No matching installed core command established for ocr|recogniz; not proof of feature absence

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Retain source hashes, full hypotheses, CER, omissions/false words, cold/warm latency and correction time. No new accuracy study or training occurred in this report.

PLAN-X19 | Voice recording, playback and transcription | planned dark-portrait

Original acceptance task (NOT automatically accepted): Record varied Indian speakers, pause/resume, deny/regrant permission, play through a headset and correct names/numbers while listening.

mynotes — interaction_observed. Actual bounded check: Named native controls opened; no implicit persistence, discoverability or module acceptance.

mynotes original exact result record

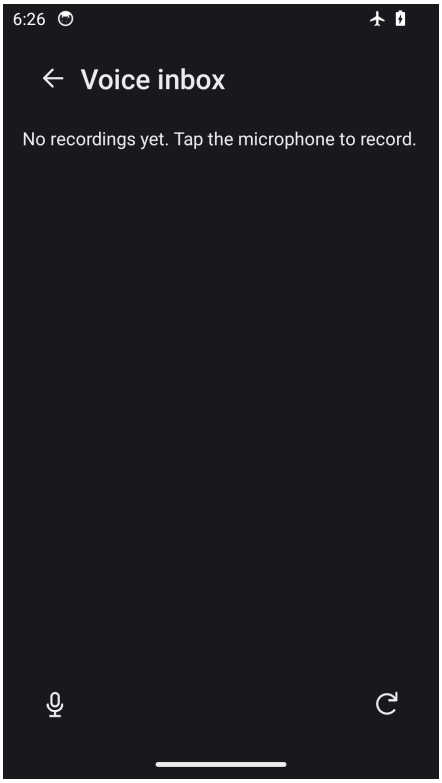

mynotes original screenshot

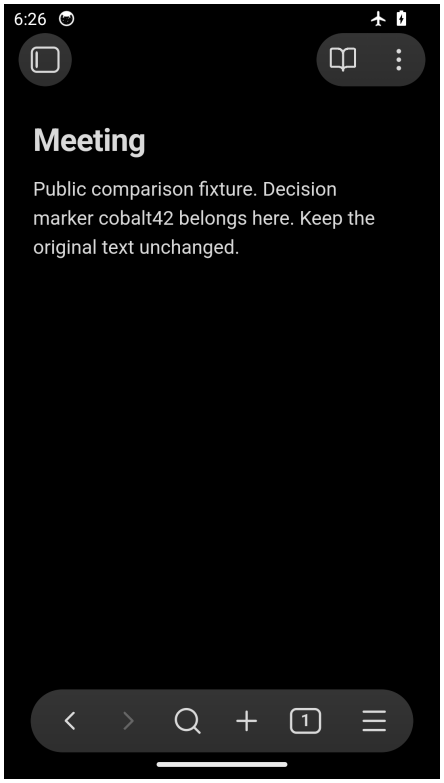

obsidian — blocked. Actual bounded check: No matching installed core command established for audio-recorder; not proof of feature absence

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Measure word errors, boundary losses, time-to-review, seek accuracy and actual audible playback on physical hardware. Verify originals export separately from note backups.

PLAN-X20 | Reminders and notifications | planned dark-portrait

Original acceptance task (NOT automatically accepted): Set, rename and reschedule a reminder, deny notifications, reboot and then tap the delivered notification.

mynotes — interaction_observed. Actual bounded check: Reminder dialog entry; notification delivery/time persistence not inferred.

mynotes original exact result record

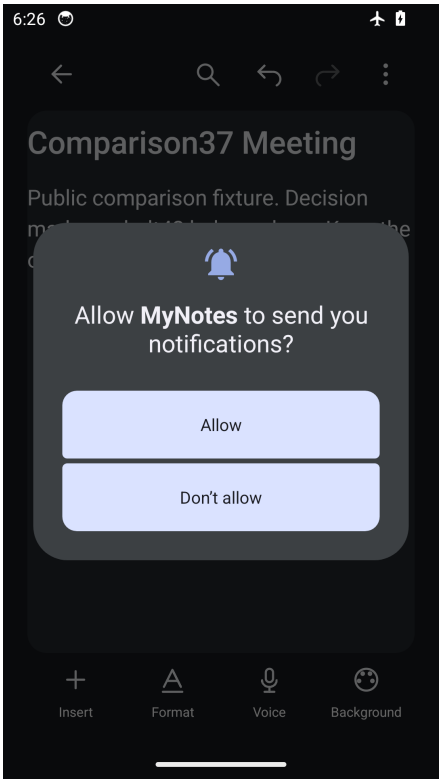

mynotes original screenshot

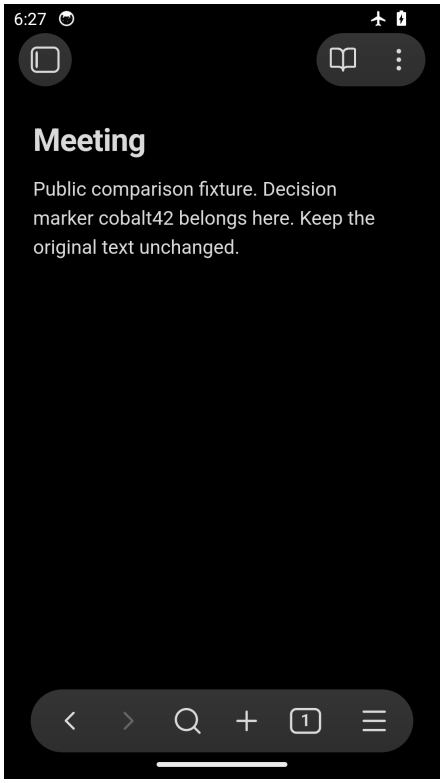

obsidian — blocked. Actual bounded check: No matching installed core command established for reminder; not proof of feature absence

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Use disposable notes; verify no stale/duplicate notification, correct note identity and sensible blocked-state feedback. Measure actual delivery under power restrictions separately.

PLAN-X21 | Home widget and Android entry points | planned dark-portrait

Original acceptance task (NOT automatically accepted): Place/resize the widget, pin and archive notes, share text from another app and open a reminder deep link.

mynotes — blocked. Actual bounded check: Home Library control not ready; app error is not suppressed

mynotes original exact result record

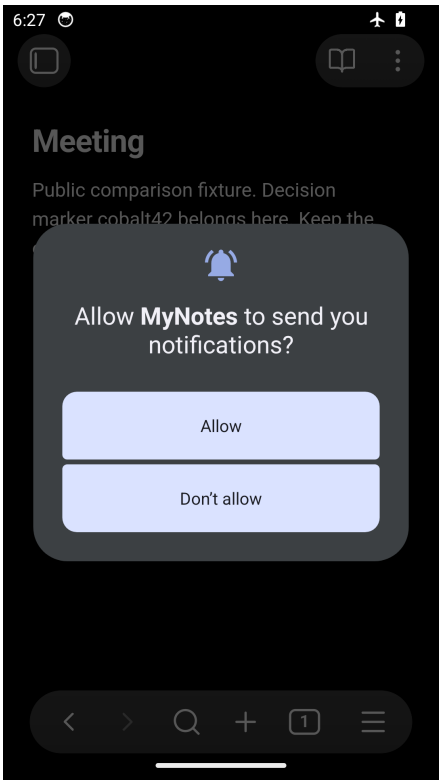

mynotes original screenshot

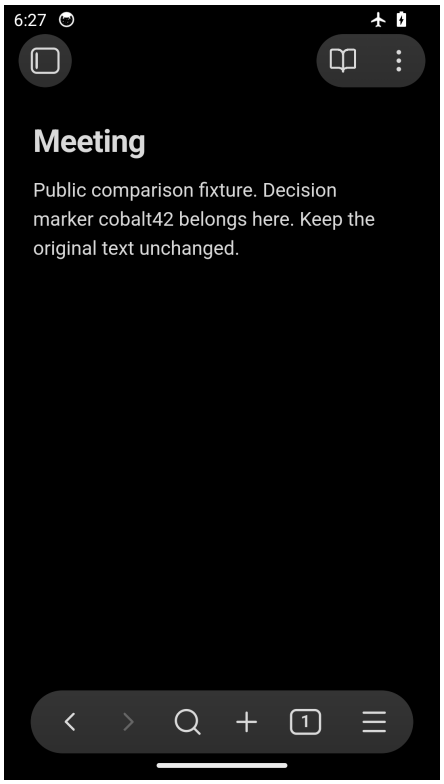

obsidian — inspection_only. Actual bounded check: Android provider diagnostic, not placement, usability or proof of all entry points.

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify labels, intended note, no duplicates and return context on real launchers, including large system text. Do not restore widget/notification consent silently during recovery.

PLAN-X22 | Appearance, backgrounds, fonts and accessibility | planned dark-portrait

Original acceptance task (NOT automatically accepted): Switch system theme, increase font scale, navigate with TalkBack and format selected text over a patterned background.

mynotes — blocked. Actual bounded check: Home Library control not ready; app error is not suppressed

mynotes original exact result record

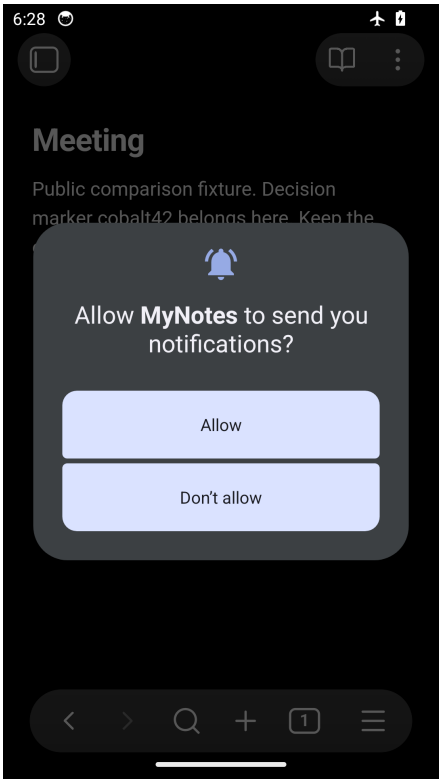

mynotes original screenshot

obsidian — interaction_observed. Actual bounded check: Official settings API navigation; actual visible surface retained. Requested tab is not presumed reached without subsequent evidence review.

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

Capture blocker: Command '['adb', 'shell', 'uiautomator', 'dump', '/sdcard/paired-window.xml']' timed out after 35 seconds

obsidian original exact result record

No original capture

No whole-family acceptance. Remaining: Check clipping, announced scope/selection, contrast and focus order across orientations; screenshots alone do not establish 48dp targets or a successful screen-reader task.

PLAN-X23 | First-use storage, private folders and optional App folder | planned dark-portrait

Original acceptance task (NOT automatically accepted): Create notes offline, choose an empty optional folder, revoke access, save again and reconnect without clearing app data.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Inspect exact copied categories and pending status; test reinstall/reselection only on disposable fixtures. Never tell the user to uninstall or clear their real library for this review.

PLAN-X24 | Portable backup, import merge and full recovery | planned dark-portrait

Original acceptance task (NOT automatically accepted): Export a near-limit rich library, exceed the limit safely, import identical and same-ID changed notes, then verify every supported content type.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: No silent partial success or overwrite; disclose omitted categories and readable/non-encrypted JSON. A complete App-folder checkpoint is a separate opt-in recovery mechanism, not this portable file.

PLAN-X25 | Trash, permanent deletion and recovery | planned dark-portrait

Original acceptance task (NOT automatically accepted): Delete/restore a rich note, inspect what happens to its audio and exports, then purge only a disposable selected note.

mynotes — interaction_observed. Actual bounded check: Named native controls opened; no implicit persistence, discoverability or module acceptance.

mynotes original exact result record

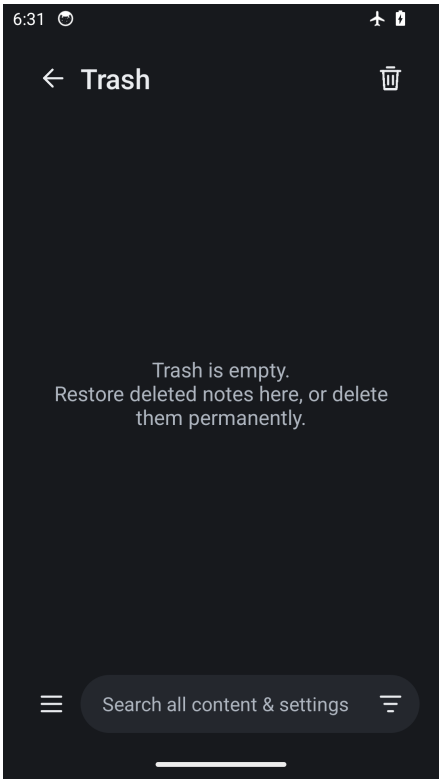

mynotes original screenshot

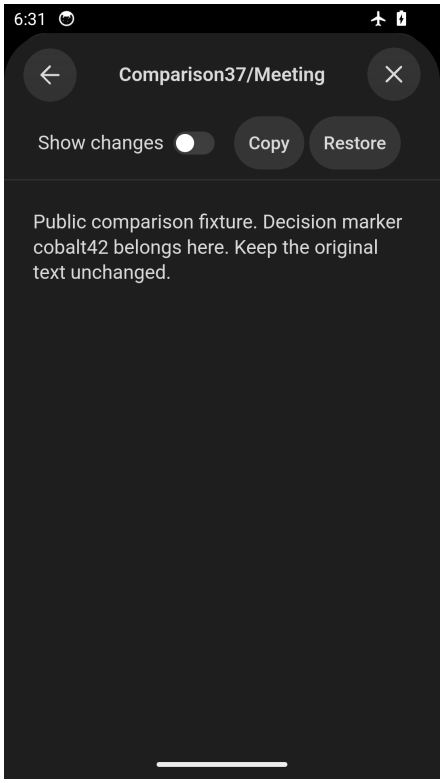

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify the exact affected IDs, Undo boundaries, expiry policy and retained separate data. Never infer crash or power-loss recovery from a confirmation screenshot.

PLAN-X26 | Archive, pinning and bookmarks | planned dark-portrait

Original acceptance task (NOT automatically accepted): Pin a note, archive it, find it globally, restore it and compare a saved Obsidian bookmark task.

mynotes — interaction_observed. Actual bounded check: Named native controls opened; no implicit persistence, discoverability or module acceptance.

mynotes original exact result record

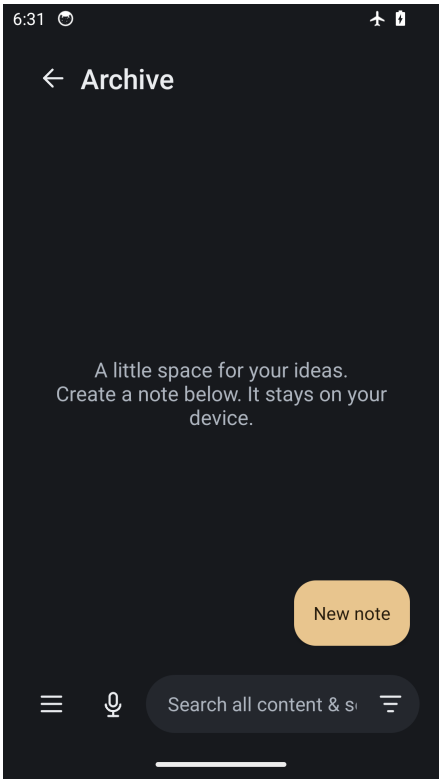

mynotes original screenshot

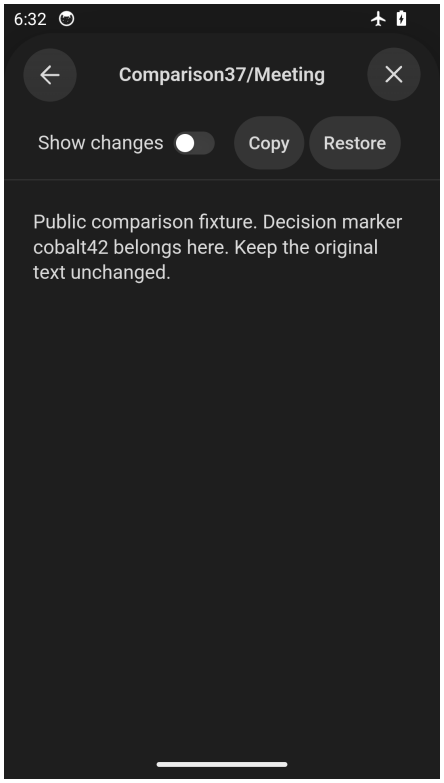

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Check persisted identity/order, scope labels and no accidental duplicate. Bookmark persistence must be newly verified rather than inferred from its empty pane.

PLAN-X27 | Undo, redo, editing history and save feedback | planned dark-portrait

Original acceptance task (NOT automatically accepted): Edit text/table/image, undo and redo, leave and reopen; repeat after controlled process restart on disposable data.

mynotes — interaction_observed. Actual bounded check: Editor action surface; actual Undo/Redo/history outcome not inferred.

mynotes original exact result record

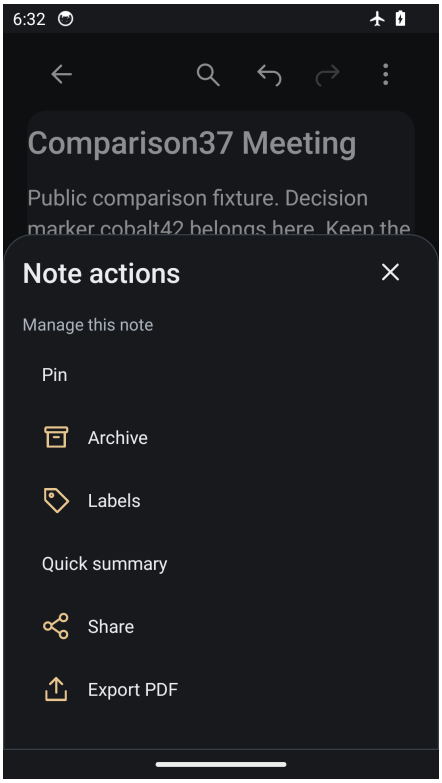

mynotes original screenshot

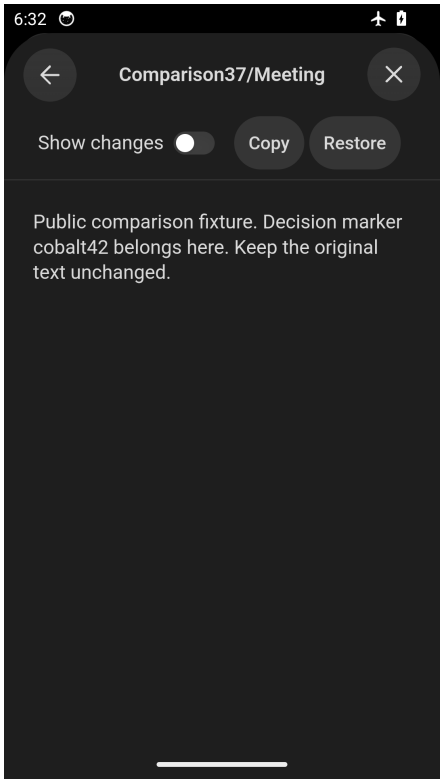

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify exact rich payload and history matching the saved revision; preserve current content when history is invalid or trimmed. Never run destructive migration on the user library.

PLAN-X28 | Workspaces, tabs and mobile navigation | planned dark-portrait

Original acceptance task (NOT automatically accepted): Switch between two notes, a PDF and Settings; reorder content near an edge, then return to the initial editing location.

mynotes — blocked. Actual bounded check:

mynotes original exact result record

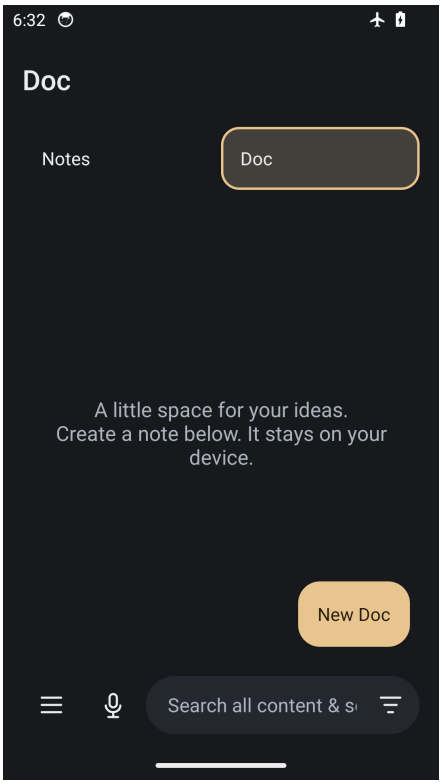

mynotes original screenshot

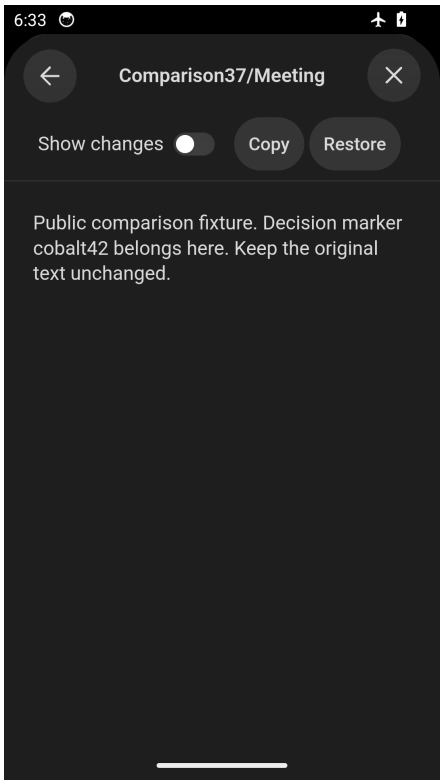

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Log wrong destinations, lost context, accidental switches and state after restart. Workspace restoration is outstanding until a matching live task succeeds.

PLAN-X29 | Settings, commands, quick actions and help discovery | planned dark-portrait

Original acceptance task (NOT automatically accepted): Without a walkthrough, find move, undo, export, a setting and one uncommon editor action using touch alone.

mynotes — interaction_observed. Actual bounded check: Named native controls opened; no implicit persistence, discoverability or module acceptance.

mynotes original exact result record

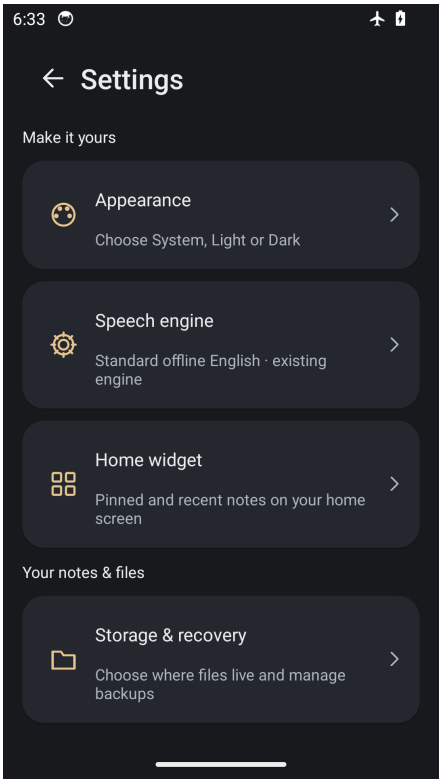

mynotes original screenshot

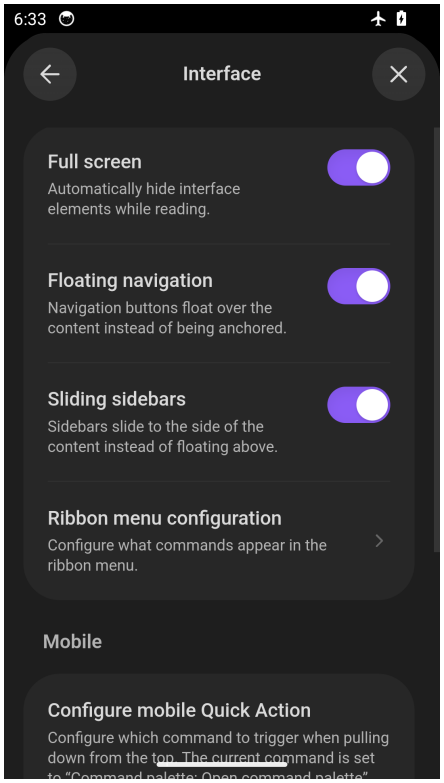

obsidian — interaction_observed. Actual bounded check: Official settings API navigation; actual visible surface retained. Requested tab is not presumed reached without subsequent evidence review.

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Observe search terms, wrong taps and help requests; distinguish disabled/contextual/unconfigured actions. Do not use all 205 inventoried commands as a usability success count.

PLAN-X30 | Export, sharing, duplication and note composition | planned dark-portrait

Original acceptance task (NOT automatically accepted): Share a mixed note, export PDF and JSON, duplicate it, merge selected notes and undo the merge.

mynotes — interaction_observed. Actual bounded check: Share entry/resolver only; no external app, message or network operation is performed.

mynotes original exact result record

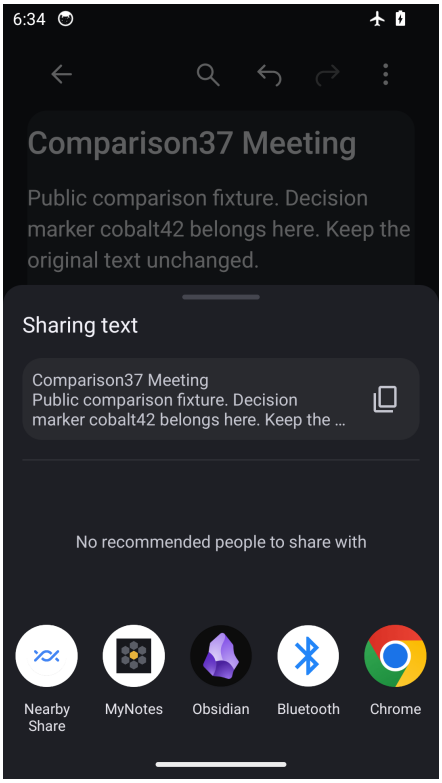

mynotes original screenshot

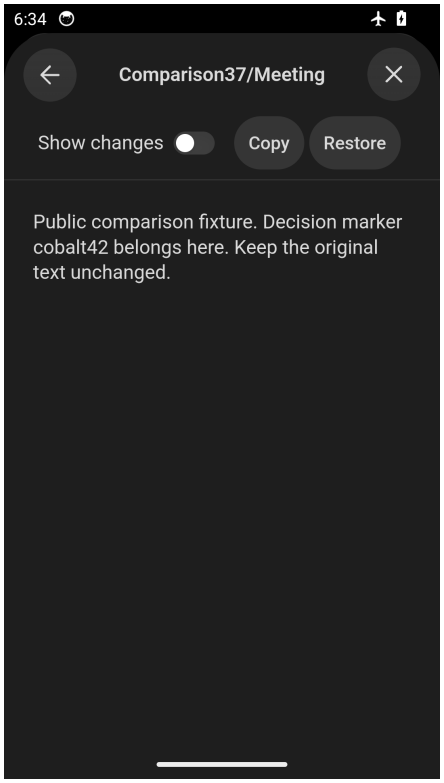

obsidian — blocked. Actual bounded check: No matching installed core command established for workspace:share; not proof of feature absence

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Check text/media/table fidelity for each promised format, exact source IDs and retained source copies; destination failure must not silently destroy content.

PLAN-X31 | Local summary and text assistance | planned dark-portrait

Original acceptance task (NOT automatically accepted): Summarize varied notes with negation, dates and multilingual sentences; check the retained source and decide whether the result is useful.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Verify each sentence comes from the source, essential cautions are not lost and limits are clear. No summary-quality test was executed in this report.

PLAN-X32 | Privacy, permission boundaries and diagnostic logs | planned dark-portrait

Original acceptance task (NOT automatically accepted): Deny microphone, use notes normally, enable logs for a dummy issue, filter/export/delete and inspect the resulting local file.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Verify opt-out, readable levels/time range, explicit delete confirmation and exported content minimisation. Security of all native dependencies was not certified here.

PLAN-X33 | Smoothness, speed, footprint and reliability | planned dark-portrait

Original acceptance task (NOT automatically accepted): On matched hardware, cold start, create/type, search a large library, drag a distant card, open a large PDF and recover from a controlled failure.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Collect touch-to-visible timings, frame trace, dropped frames, memory and exact failure logs. Distinguish timeouts/socket failures from app crashes and do not publish a fabricated global score.

PLAN-X34 | Core modules, community plugins and extensibility | planned dark-portrait

Original acceptance task (NOT automatically accepted): Find a core module, understand its description, enable/disable it and identify changed controls; inspect restricted/plugin trust text without installing unknown code.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Verify reversible configuration and a stable default note workflow. No community code was installed or executed; unknown plugins and future modules are outside this pinned-version inventory.

PLAN-X35 | Sync, Publish, account and service boundaries | planned dark-portrait

Original acceptance task (NOT automatically accepted): For a future explicitly authorised service study, evaluate offline edits, conflicts, account loss, export and deliberate public visibility with disposable data.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: No login, purchase, upload or publishing was performed. Conflict resolution, encryption, recovery and cost/value remain untested; an entry screen is not a passed sync task.

PLAN-X36 | Slides, presentation and reading projections | planned dark-portrait

Original acceptance task (NOT automatically accepted): Present a multi-slide disposable note, navigate, dismiss the keyboard, rotate and return to editing; compare PDF reading only as a separate output route.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Verify every slide, media, controls and return location. Obsidian landscape was not qualified by its retained audit; no physical presentation run occurred here.

PLAN-X37 | About, models, licences and honest help | planned dark-portrait

Original acceptance task (NOT automatically accepted): Ask a novice to identify where notes are saved, how to protect audio and how to export useful diagnostics without sending private notes.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Observe whether they can explain the result in their own words. Do not substitute long notices or a generated guide for successful comprehension.

PLAN-X01 | Find, organise, label and reorder | planned light-landscape

Original acceptance task (NOT automatically accepted): Find an archived body-only match while a folder filter is active; reorder a distant card, then return.

mynotes — blocked. Actual bounded check: Result title AND body passage must occur outside the query field

mynotes original exact result record

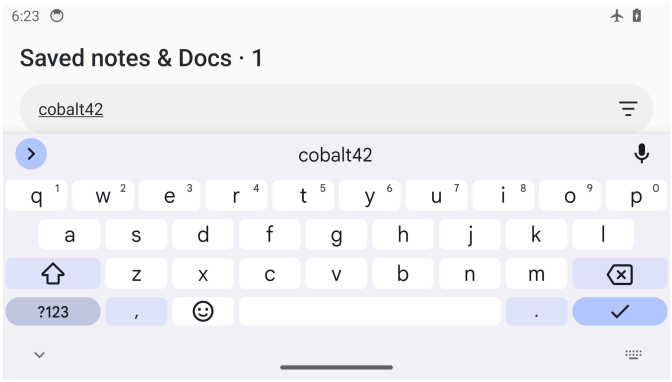

mynotes original screenshot

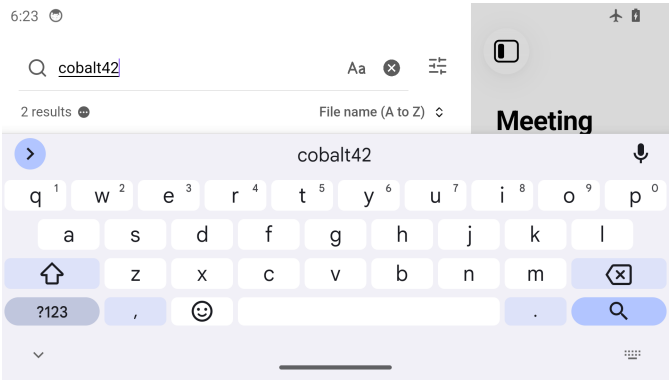

obsidian — bounded_outcome_verified. Actual bounded check: Actual query input yields marker passage and target file title in visible result containers; command API opened pane, not touch-route efficiency.

Actual WebView profile observation: {"dark": false, "landscape": true, "width": 640, "height": 360}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Record actual scope, result passage, selected filters and persisted order; repeat list/grid, keyboard and large text. Measure drag continuity only in a new live session.

PLAN-X02 | Writing, reading and formatting | planned light-landscape

Original acceptance task (NOT automatically accepted): Format the middle of a paragraph, type new text, undo, dismiss the keyboard and reopen the note.

mynotes — bounded_outcome_verified. Actual bounded check: Exact public body read back after force-stop/relaunch and opening the saved note; bounded plain-note persistence only.

mynotes original exact result record

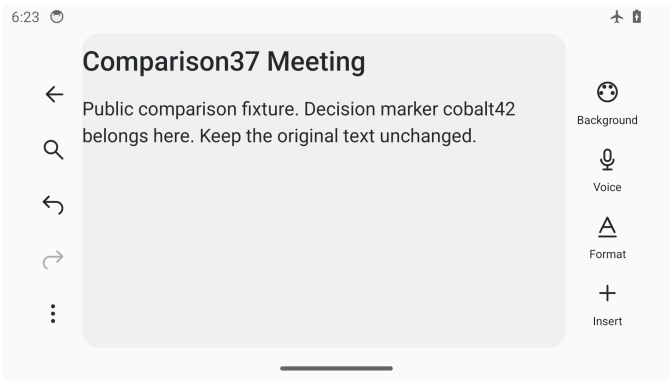

mynotes original screenshot

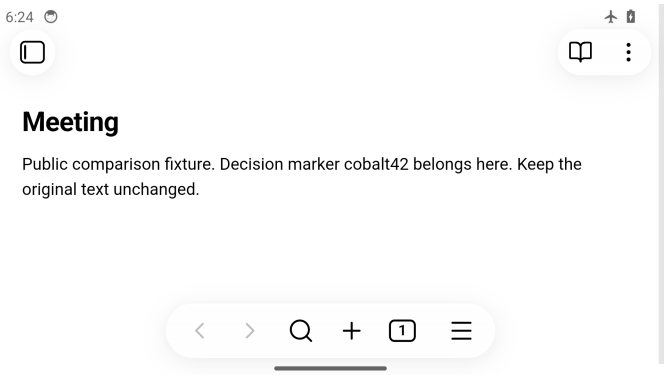

obsidian — bounded_outcome_verified. Actual bounded check: Official vault readback retains exact API-seeded public body. Fixture setup is not a UI creation or cross-app typing-efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": true, "width": 640, "height": 360}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Retain surrounding prose, correct style target, caret and saved result. Repeat with large text; compare actual task completion and mistakes, not assertion counts.

PLAN-X03 | Checklists, numbering and list editing | planned light-landscape

Original acceptance task (NOT automatically accepted): Insert an item in the middle, indent it, move it past the viewport, hide completed rows and undo.

mynotes — blocked. Actual bounded check: No visible enabled exact-label control: ('+ Checklist',); labels=['', '', '', '', '', 'Dismiss tools', '', '', 'Library', 'Close tools', '', 'Library', 'Archive', 'Trash', 'Voice inbox', '', 'Notes and Doc workspaces', 'Notes', 'Doc', '', '', 'Comparison37 Meeting. Public comparison fixture. Decision marker cobalt42 belongs here. Keep the original text unchanged.. Long press and drag to arrange, or long press to select when arrangement is unavailable.', 'Comparison37 Meeting', 'Public comparison fixture. Decision marker cobalt42 belongs here. Keep the original text unchanged.', '', '', 'New note', '', 'Library', 'Record voice', '', 'Search all content & settings', 'Filters', '', '']

mynotes original exact result record

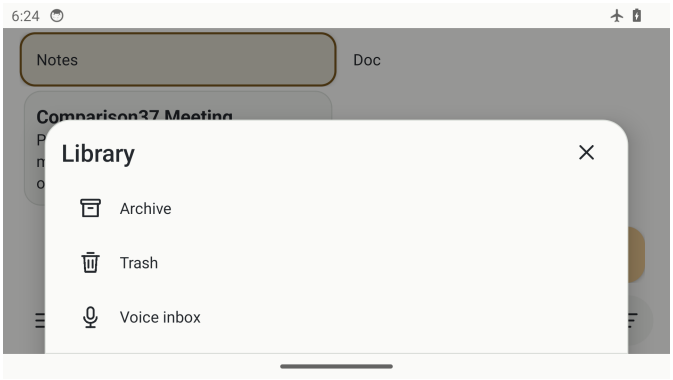

mynotes original screenshot

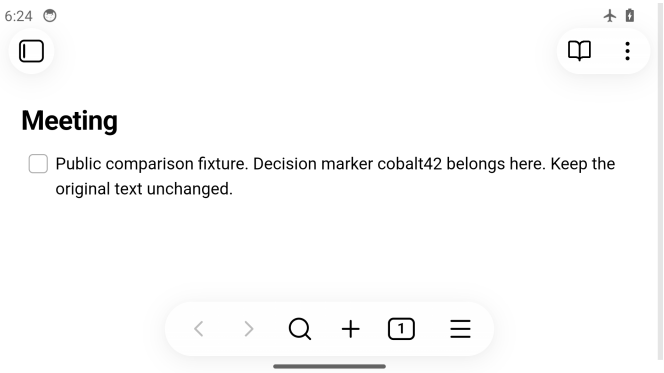

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": true, "width": 640, "height": 360}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: No lost items, wrong-list operations or accidental workspace swipes. Verify numbering after insertion and Backspace exit at an empty item.

PLAN-X04 | Tables and direct cell editing | planned light-landscape

Original acceptance task (NOT automatically accepted): Edit a long cell in a wide table; insert a column beside it, toggle header role, delete a row and undo.

mynotes — blocked. Actual bounded check: No visible enabled exact-label control: ('Insert',); labels=['', '', '', '', '', '', 'Saved · internal · Device storage', '', 'Left editor tools', '', 'Back', 'Undo', '', '', 'Title', '', 'Text section', 'Right editor tools', 'Editor tools', 'Background', 'List', '', '']

mynotes original exact result record

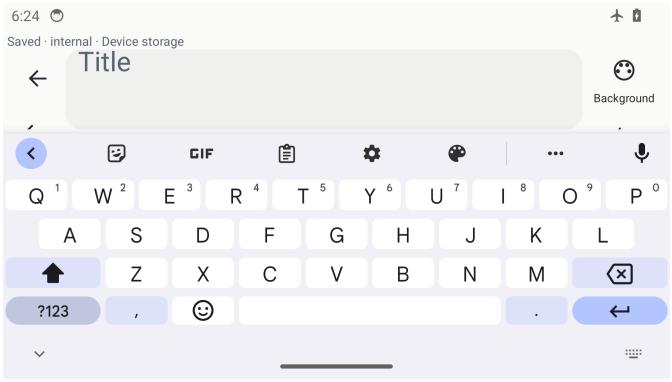

mynotes original screenshot

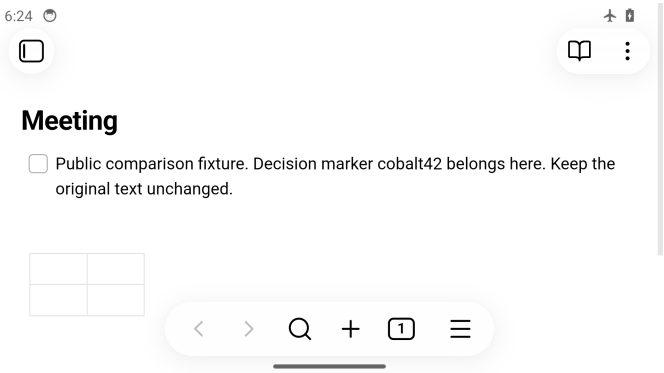

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": true, "width": 640, "height": 360}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Keep the active cell visible above the IME; no unexpected horizontal jump; restore content and header meaning after undo. Compare the same table, not these unequal fixtures.

PLAN-X05 | Images, attachments and inline media | planned light-landscape

Original acceptance task (NOT automatically accepted): Insert a photo, select two recognized words, keep the image, edit its crop, then remove only the intended attachment.

mynotes — interaction_observed. Actual bounded check: Image insertion/picker entry, not image-import success.

mynotes original exact result record

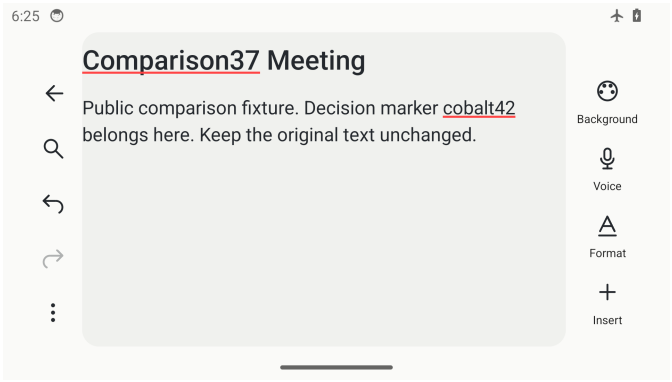

mynotes original screenshot

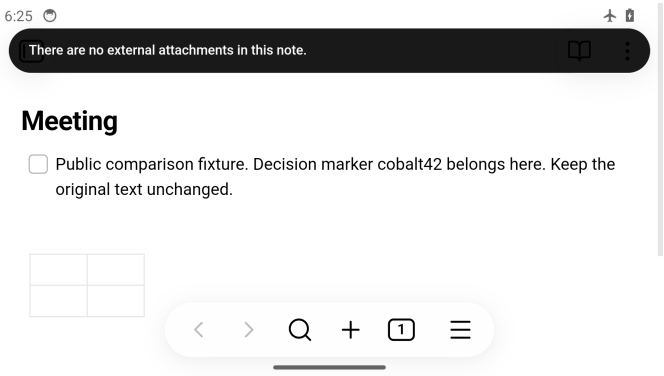

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": true, "width": 640, "height": 360}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Keep source bytes, unrelated blocks and names intact; make copy versus replacement clear. Verify offscreen word selection and explicit outside-tap dismissal.

PLAN-X06 | Web hyperlinks and external opening | planned light-landscape

Original acceptance task (NOT automatically accepted): Add a long URL to selected words, correct a malformed address, reopen, edit and remove the link.

mynotes — blocked. Actual bounded check: No visible enabled exact-label control: ('Hyperlink',); labels=['', '', '', '', '', 'Dismiss tools', '', '', 'Add to note', 'Close tools', '', 'Add to note', 'Visual content', '', 'Diagram', 'Image', 'Drawing', 'Capture text', '', 'Read image', 'Record voice', '', '', 'Left editor tools', '', 'Back', 'Find in note', 'Undo', 'Redo text', 'More actions', '', '', 'Comparison37 Meeting', 'Public comparison fixture. Decision marker cobalt42 belongs here. Keep the original text unchanged.', 'Right editor tools', 'Editor tools', 'Background', 'Voice', 'Format', 'Insert', '', '']

mynotes original exact result record

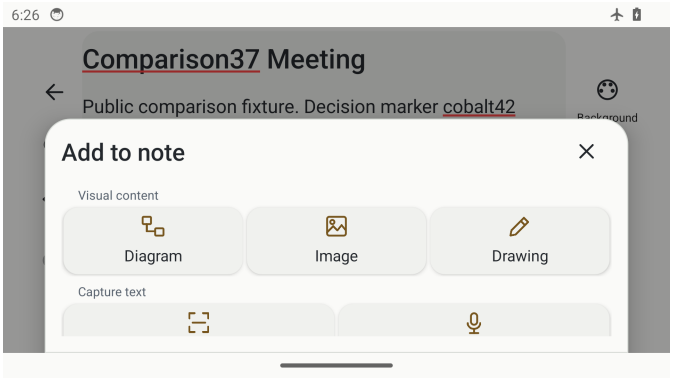

mynotes original screenshot

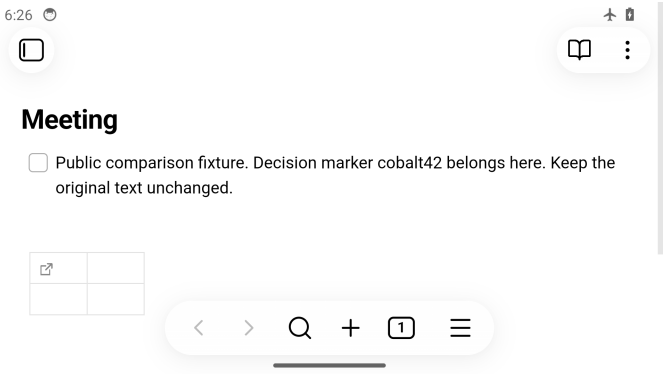

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": true, "width": 640, "height": 360}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: No duplicate URL per line, changed neighboring prose or unnoticed external launch. Check keyboard visibility, wrapped fields and TalkBack error announcement.

PLAN-X07 | Internal links, backlinks, graph and previews | planned light-landscape

Original acceptance task (NOT automatically accepted): Link A to a heading in B, rename B, return through backlinks and preview the target without losing A.

mynotes — blocked. Actual bounded check: No visible enabled exact-label control: ('Settings',); labels=['', '', '', '', '', 'Dismiss tools', '', '', 'Library', 'Close tools', '', 'Library', 'Archive', 'Trash', 'Voice inbox', '', 'Notes and Doc workspaces', 'Notes', 'Doc', '', '', 'Comparison37 Meeting. Public comparison fixture. Decision marker cobalt42 belongs here. Keep the original text unchanged.. Long press and drag to arrange, or long press to select when arrangement is unavailable.', 'Comparison37 Meeting', 'Public comparison fixture. Decision marker cobalt42 belongs here. Keep the original text unchanged.', '', '', 'New note', '', 'Library', 'Record voice', '', 'Search all content & settings', 'Filters', '', '']

mynotes original exact result record

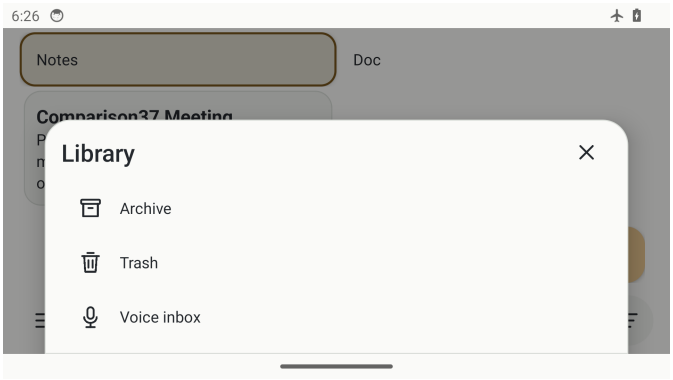

mynotes original screenshot

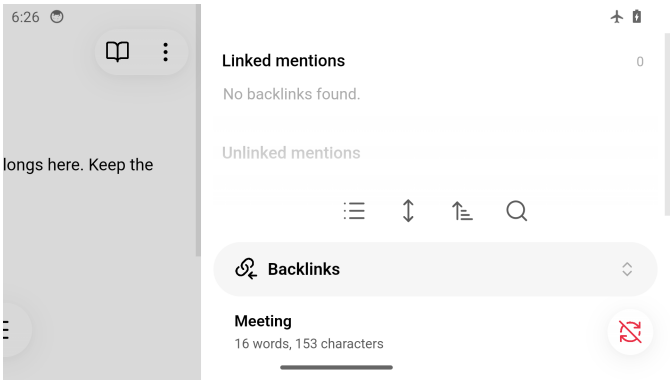

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": true, "width": 640, "height": 360}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Target identity and rename behavior must be verified live; count wrong destinations and recovery steps. No graph speed or link-integrity winner has been measured.

PLAN-X08 | Long-note orientation, tags, footnotes and word count | planned light-landscape

Original acceptance task (NOT automatically accepted): Locate a middle heading, find a repeated phrase, follow a footnote and return to the exact reading location.

mynotes — blocked. Actual bounded check: In-note result passage not verified

mynotes original exact result record

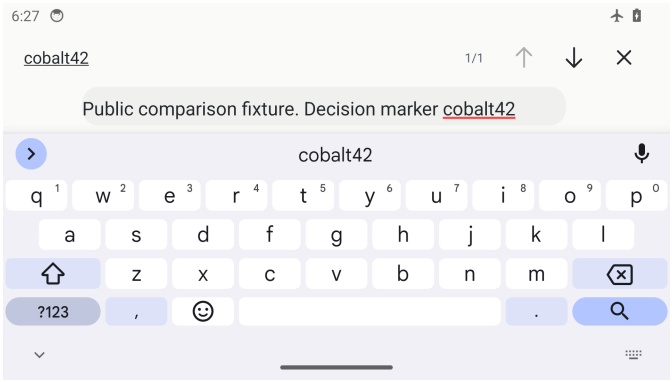

mynotes original screenshot

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

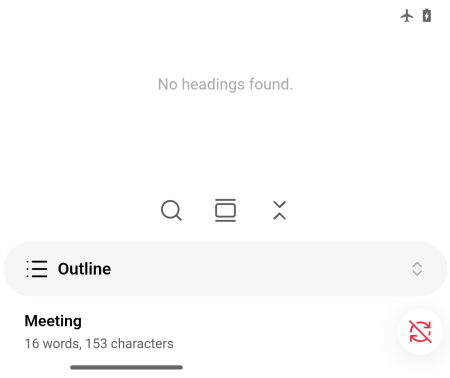

Actual WebView profile observation: {"dark": false, "landscape": true, "width": 640, "height": 360}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify target and return anchors, heading levels, counts and generated text treatment; do not infer footnote success from a registered command.

PLAN-X09 | Properties and Bases | planned light-landscape

Original acceptance task (NOT automatically accepted): For users who need records, edit one typed field, filter a view, rename a file and reopen the view.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Validate data types, retained filters, note identity and error recovery. No Bases performance, formulas or equivalent MyNotes capability is certified here.

PLAN-X10 | Quick capture, daily notes, templates and unique notes | planned light-landscape

Original acceptance task (NOT automatically accepted): From a cold start, capture a short thought; then create a repeated meeting structure and return tomorrow.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Observe time to first saved words, setup mistakes, duplicate daily notes and return continuity. Do not populate fake user content to make the app feel busy.

PLAN-X11 | Freehand drawing and Canvas | planned light-landscape

Original acceptance task (NOT automatically accepted): Draw a diagram annotation, leave and reopen it; in Canvas connect two cards, pan/zoom and reopen the board.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Evaluate each tool against its own output goal. For common save/return work, preserve content and location; latency needs real stroke traces on matched hardware.

PLAN-X12 | Diagrams, shapes, arrows and grouping | planned light-landscape

Original acceptance task (NOT automatically accepted): Add two shapes, connect them, group, resize, split the arrow, undo and reopen.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Check actual anchor geometry, target selection, retained names and no accidental duplication. Run long-press/context-menu actions with large text and TalkBack.

PLAN-X13 | PDF reading, selection, search and markup | planned light-landscape

Original acceptance task (NOT automatically accepted): Open a large scanned/mixed PDF, zoom a distant page, select offscreen text, find a hit with IME, mark a rotated page and export.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Compare the original bytes; inspect hit position, highlight geometry and rendered export. Exercise cancellation and a partial destination; private markup drafts are outside Notes backups.

PLAN-X14 | Word files and original-layout expectations | planned light-landscape

Original acceptance task (NOT automatically accepted): Open a DOCX with headers, inline images, wide tables and hard page breaks; select text, zoom and create an editable copy.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Check original bytes and document return position, compare rendered pages with a suitable Word reference, and disclose any dropped layout/media. Do not invent fidelity from a synthetic one-page frame.

PLAN-X15 | Large TXT and read-only text viewing | planned light-landscape

Original acceptance task (NOT automatically accepted): Open a large multilingual TXT, find a repeated phrase near the end, select across the viewport and return to the prior file list.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Measure open/find latency separately from rendering; inspect Unicode integrity, clear selection on deliberate tap, retained page and unchanged original.

PLAN-X16 | Spreadsheet previews and cached values | planned light-landscape

Original acceptance task (NOT automatically accepted): Open quoted CSV and a multi-sheet XLSX with formulas, missing cached results and wide cells; locate a value and copy it.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Compare visible rows/columns and Unicode with source values, disclose cached-only results, retain sheet/scroll position and never execute macros or scripts.

PLAN-X17 | Markdown, HTML, RTF, ODT and slide imports | planned light-landscape

Original acceptance task (NOT automatically accepted): Open one realistic file of each advertised type, inspect text order and unsupported elements, then cancel or create a copy.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Record per-format fidelity and actionable errors; preserve originals, reject malformed/oversized archives safely and distinguish external-reader delegation from in-app support.

PLAN-X18 | OCR, image-region text and scanned-page recognition | planned light-landscape

Original acceptance task (NOT automatically accepted): Read tiny/oblique/multilingual public scenes, blank controls and selected image regions; compare exact expected text and corrected output.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Retain source hashes, full hypotheses, CER, omissions/false words, cold/warm latency and correction time. No new accuracy study or training occurred in this report.

PLAN-X19 | Voice recording, playback and transcription | planned light-landscape

Original acceptance task (NOT automatically accepted): Record varied Indian speakers, pause/resume, deny/regrant permission, play through a headset and correct names/numbers while listening.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Measure word errors, boundary losses, time-to-review, seek accuracy and actual audible playback on physical hardware. Verify originals export separately from note backups.

PLAN-X20 | Reminders and notifications | planned light-landscape

Original acceptance task (NOT automatically accepted): Set, rename and reschedule a reminder, deny notifications, reboot and then tap the delivered notification.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Use disposable notes; verify no stale/duplicate notification, correct note identity and sensible blocked-state feedback. Measure actual delivery under power restrictions separately.

PLAN-X21 | Home widget and Android entry points | planned light-landscape

Original acceptance task (NOT automatically accepted): Place/resize the widget, pin and archive notes, share text from another app and open a reminder deep link.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Verify labels, intended note, no duplicates and return context on real launchers, including large system text. Do not restore widget/notification consent silently during recovery.

PLAN-X22 | Appearance, backgrounds, fonts and accessibility | planned light-landscape

Original acceptance task (NOT automatically accepted): Switch system theme, increase font scale, navigate with TalkBack and format selected text over a patterned background.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Check clipping, announced scope/selection, contrast and focus order across orientations; screenshots alone do not establish 48dp targets or a successful screen-reader task.

PLAN-X23 | First-use storage, private folders and optional App folder | planned light-landscape

Original acceptance task (NOT automatically accepted): Create notes offline, choose an empty optional folder, revoke access, save again and reconnect without clearing app data.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: Inspect exact copied categories and pending status; test reinstall/reselection only on disposable fixtures. Never tell the user to uninstall or clear their real library for this review.

PLAN-X24 | Portable backup, import merge and full recovery | planned light-landscape

Original acceptance task (NOT automatically accepted): Export a near-limit rich library, exceed the limit safely, import identical and same-ID changed notes, then verify every supported content type.

mynotes: NOT EXECUTED — no original record.

obsidian: NOT EXECUTED — no original record.

No original capture

No original capture

No whole-family acceptance. Remaining: No silent partial success or overwrite; disclose omitted categories and readable/non-encrypted JSON. A complete App-folder checkpoint is a separate opt-in recovery mechanism, not this portable file.

PLAN-X25 | Trash, permanent deletion and recovery | planned light-landscape

Original acceptance task (NOT automatically accepted): Delete/restore a rich note, inspect what happens to its audio and exports, then purge only a disposable selected note.

mynotes — interaction_observed. Actual bounded check: Named native controls opened; no implicit persistence, discoverability or module acceptance.

mynotes original exact result record

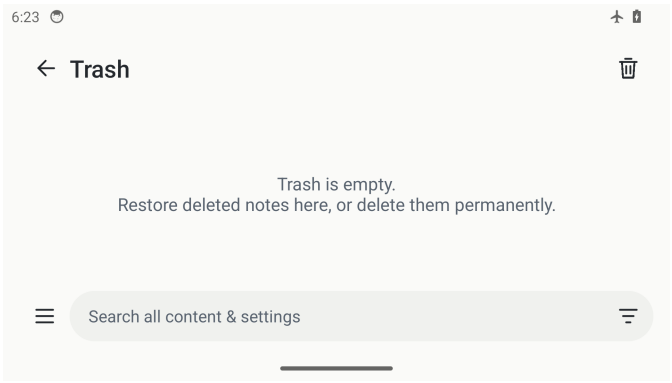

mynotes original screenshot

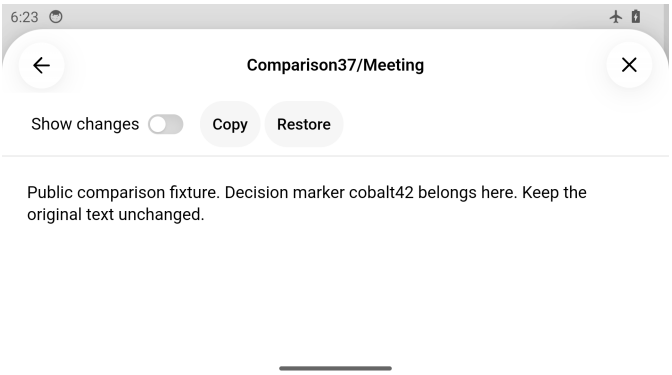

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": true, "width": 640, "height": 360}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify the exact affected IDs, Undo boundaries, expiry policy and retained separate data. Never infer crash or power-loss recovery from a confirmation screenshot.

PLAN-X26 | Archive, pinning and bookmarks | planned light-landscape

Original acceptance task (NOT automatically accepted): Pin a note, archive it, find it globally, restore it and compare a saved Obsidian bookmark task.

mynotes — interaction_observed. Actual bounded check: Named native controls opened; no implicit persistence, discoverability or module acceptance.

mynotes original exact result record

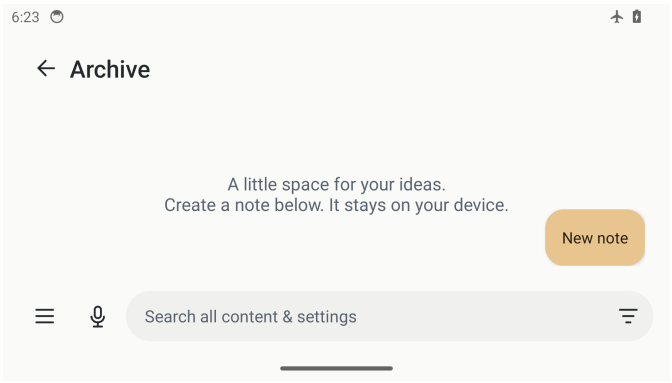

mynotes original screenshot

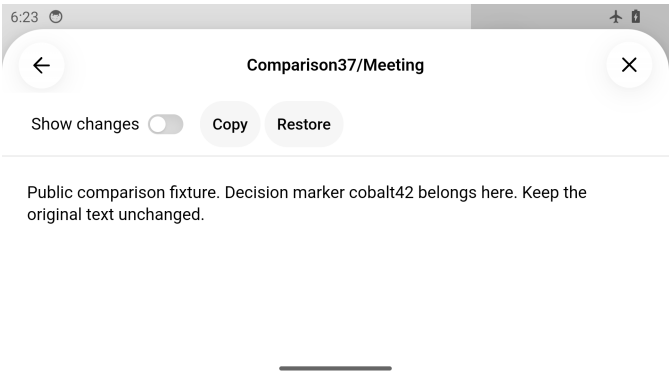

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": true, "width": 640, "height": 360}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Check persisted identity/order, scope labels and no accidental duplicate. Bookmark persistence must be newly verified rather than inferred from its empty pane.

PLAN-X27 | Undo, redo, editing history and save feedback | planned light-landscape

Original acceptance task (NOT automatically accepted): Edit text/table/image, undo and redo, leave and reopen; repeat after controlled process restart on disposable data.

mynotes — interaction_observed. Actual bounded check: Editor action surface; actual Undo/Redo/history outcome not inferred.

mynotes original exact result record

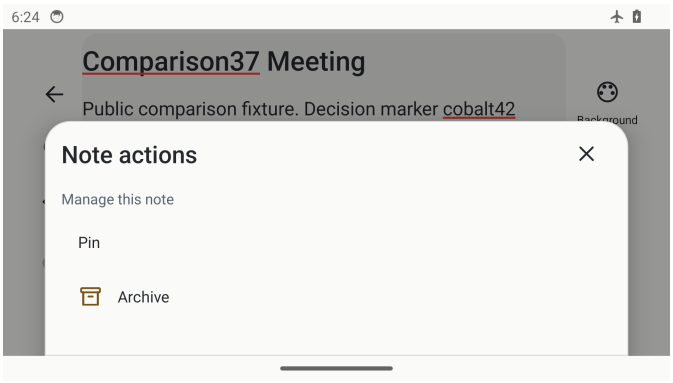

mynotes original screenshot

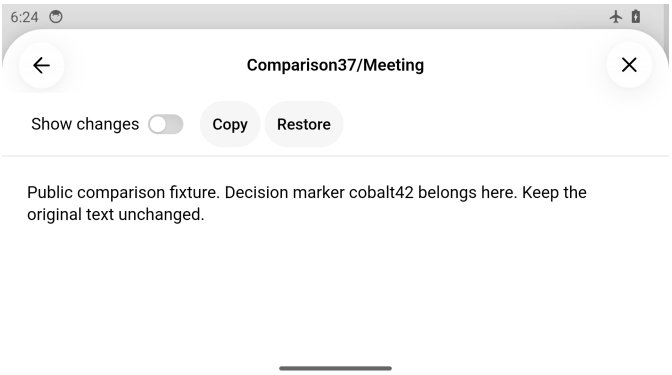

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": true, "width": 640, "height": 360}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify exact rich payload and history matching the saved revision; preserve current content when history is invalid or trimmed. Never run destructive migration on the user library.

PLAN-X28 | Workspaces, tabs and mobile navigation | planned light-landscape

Original acceptance task (NOT automatically accepted): Switch between two notes, a PDF and Settings; reorder content near an edge, then return to the initial editing location.

mynotes — blocked. Actual bounded check:

mynotes original exact result record

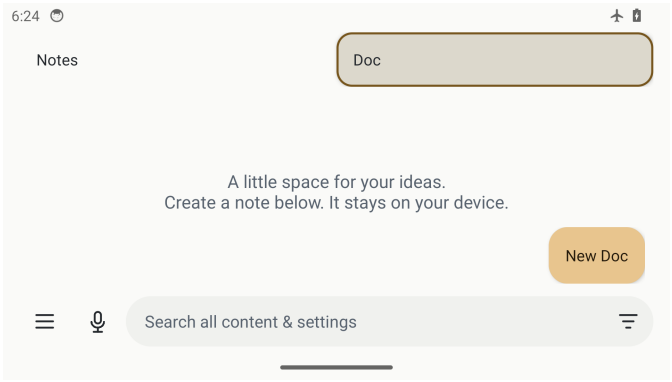

mynotes original screenshot

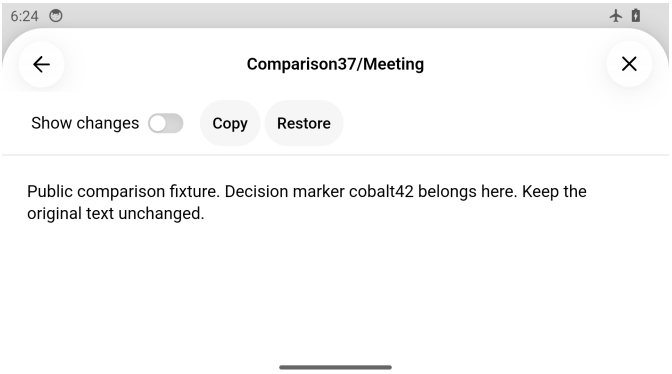

obsidian — interaction_observed. Actual bounded check: Official command API navigation shortcut; resulting real UI captured, not a functional or touch-route efficiency pass.

Actual WebView profile observation: {"dark": false, "landscape": true, "width": 640, "height": 360}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Log wrong destinations, lost context, accidental switches and state after restart. Workspace restoration is outstanding until a matching live task succeeds.

PLAN-X29 | Settings, commands, quick actions and help discovery | planned light-landscape

Original acceptance task (NOT automatically accepted): Without a walkthrough, find move, undo, export, a setting and one uncommon editor action using touch alone.

mynotes — blocked. Actual bounded check: No visible enabled exact-label control: ('Settings',); labels=['', '', '', '', '', 'Dismiss tools', '', '', 'Library', 'Close tools', '', 'Library', 'Archive', 'Trash', 'Voice inbox', '', 'Notes and Doc workspaces', 'Notes', 'Doc', '', '', 'Comparison37 Meeting. Public comparison fixture. Decision marker cobalt42 belongs here. Keep the original text unchanged.. Long press and drag to arrange, or long press to select when arrangement is unavailable.', 'Comparison37 Meeting', 'Public comparison fixture. Decision marker cobalt42 belongs here. Keep the original text unchanged.', '', '', 'New note', '', 'Library', 'Record voice', '', 'Search all content & settings', 'Filters', '', '']

mynotes original exact result record

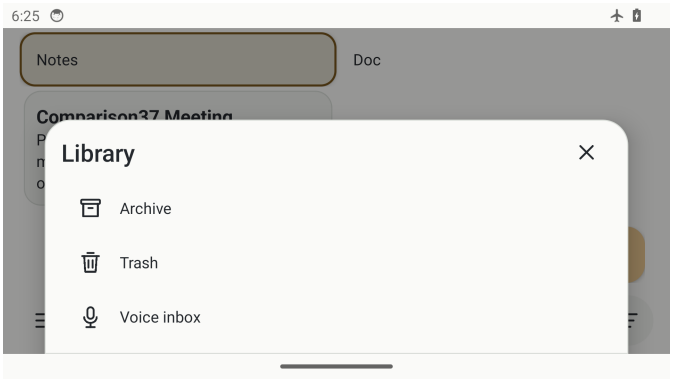

mynotes original screenshot

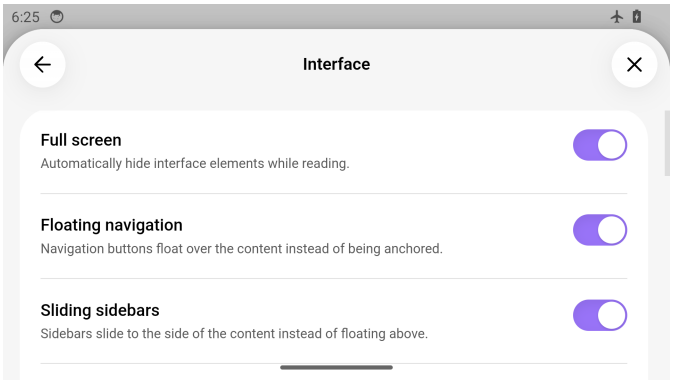

obsidian — interaction_observed. Actual bounded check: Official settings API navigation; actual visible surface retained. Requested tab is not presumed reached without subsequent evidence review.

Actual WebView profile observation: {"dark": false, "landscape": true, "width": 640, "height": 360}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Observe search terms, wrong taps and help requests; distinguish disabled/contextual/unconfigured actions. Do not use all 205 inventoried commands as a usability success count.

PLAN-X30 | Export, sharing, duplication and note composition | planned light-landscape

Original acceptance task (NOT automatically accepted): Share a mixed note, export PDF and JSON, duplicate it, merge selected notes and undo the merge.

mynotes — blocked. Actual bounded check: No visible enabled exact-label control: ('Share',); labels=['', '', '', '', '', 'Dismiss tools', '', '', 'Note actions', 'Close tools', '', 'Note actions', 'Manage this note', 'Pin', 'Archive', 'Labels', '', '', 'Left editor tools', '', 'Back', 'Find in note', 'Undo', 'Redo text', 'More actions', '', '', 'Comparison37 Meeting', 'Public comparison fixture. Decision marker cobalt42 belongs here. Keep the original text unchanged.', 'Right editor tools', 'Editor tools', 'Background', 'Voice', 'Format', 'Insert', '', '']

mynotes original exact result record

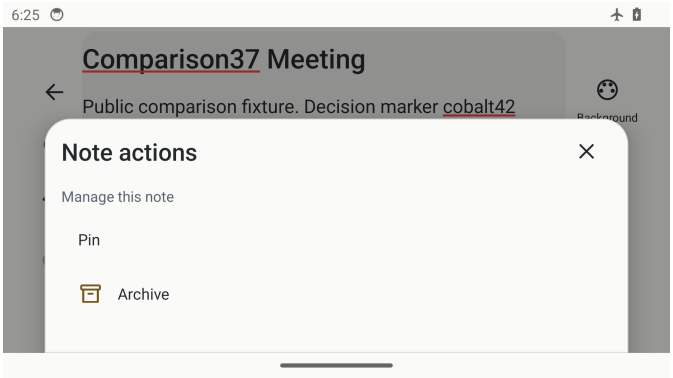

mynotes original screenshot

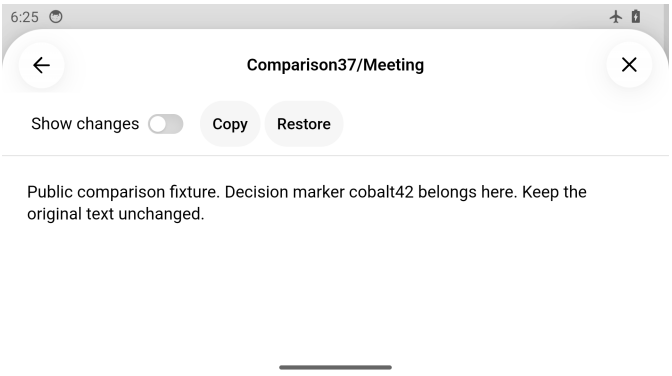

obsidian — blocked. Actual bounded check: No matching installed core command established for workspace:share; not proof of feature absence

Actual WebView profile observation: {"dark": false, "landscape": true, "width": 640, "height": 360}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Check text/media/table fidelity for each promised format, exact source IDs and retained source copies; destination failure must not silently destroy content.

PLAN-X31 | Local summary and text assistance | planned light-landscape

Original acceptance task (NOT automatically accepted): Summarize varied notes with negation, dates and multilingual sentences; check the retained source and decide whether the result is useful.

mynotes — interaction_observed. Actual bounded check: Local summary surface only; no saving or summary accuracy acceptance.

mynotes original exact result record

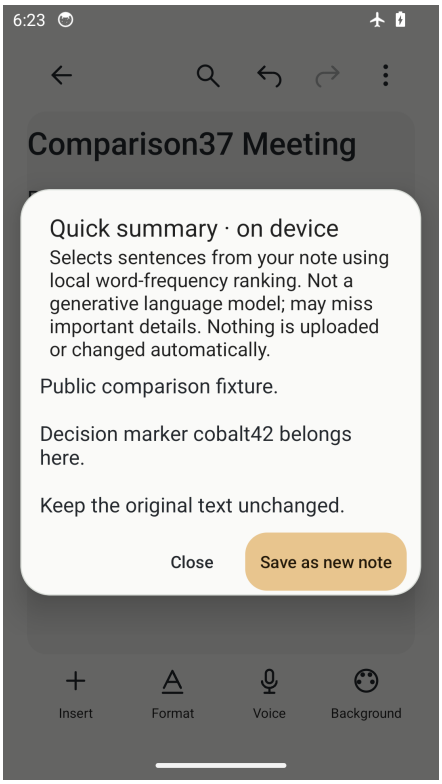

mynotes original screenshot

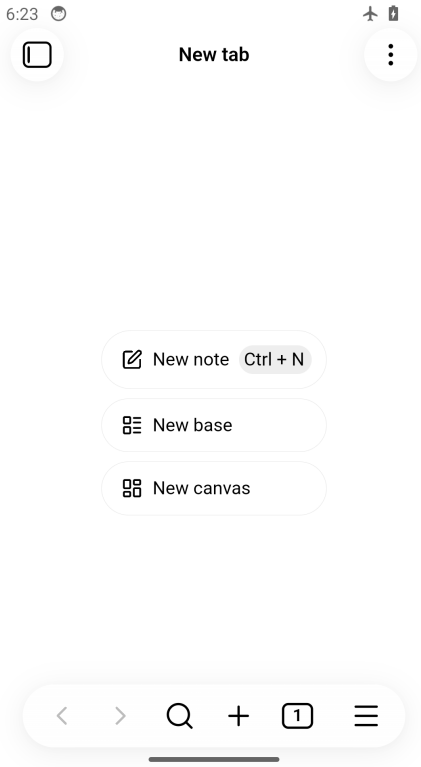

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify each sentence comes from the source, essential cautions are not lost and limits are clear. No summary-quality test was executed in this report.

PLAN-X32 | Privacy, permission boundaries and diagnostic logs | planned light-landscape

Original acceptance task (NOT automatically accepted): Deny microphone, use notes normally, enable logs for a dummy issue, filter/export/delete and inspect the resulting local file.

mynotes — blocked. Actual bounded check: No visible enabled exact-label control: ('Diagnostics',); labels=['', '', '', '', '', 'Back', 'Settings', '', '', 'Make it yours', '', '', '', 'Appearance', 'Choose System, Light or Dark', '', '', '', '', 'Speech engine', 'Standard offline English · existing engine', '', '', '', '', 'Home widget', 'Pinned and recent notes on your home screen', '', 'Your notes & files', '', '', '', 'Storage & recovery', 'Choose where files live and manage backups', '', 'Help & privacy', '', '']

mynotes original exact result record

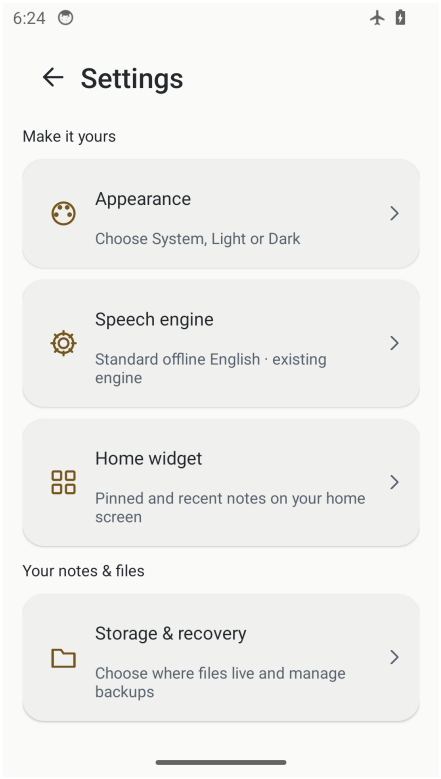

mynotes original screenshot

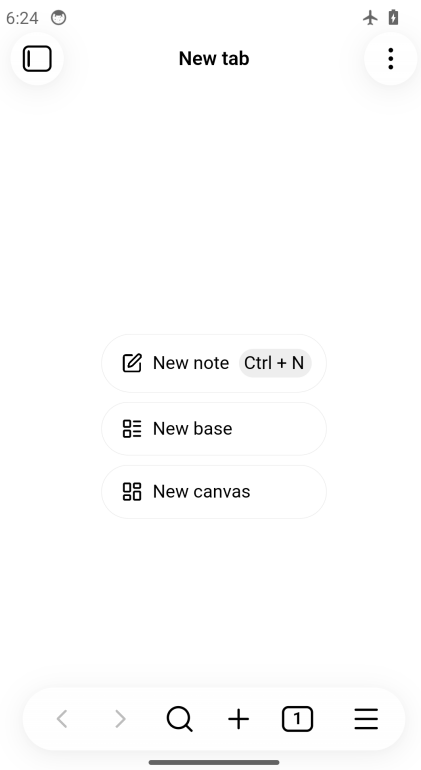

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify opt-out, readable levels/time range, explicit delete confirmation and exported content minimisation. Security of all native dependencies was not certified here.

PLAN-X33 | Smoothness, speed, footprint and reliability | planned light-landscape

Original acceptance task (NOT automatically accepted): On matched hardware, cold start, create/type, search a large library, drag a distant card, open a large PDF and recover from a controlled failure.

mynotes — diagnostic_only. Actual bounded check: No verified outcome

mynotes original exact result record

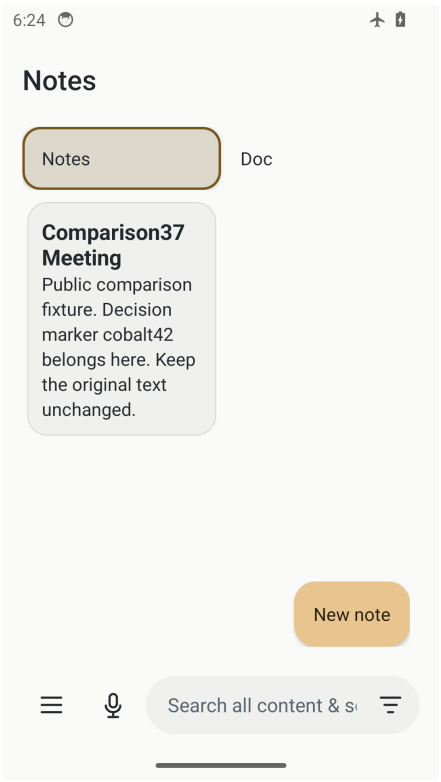

mynotes original screenshot

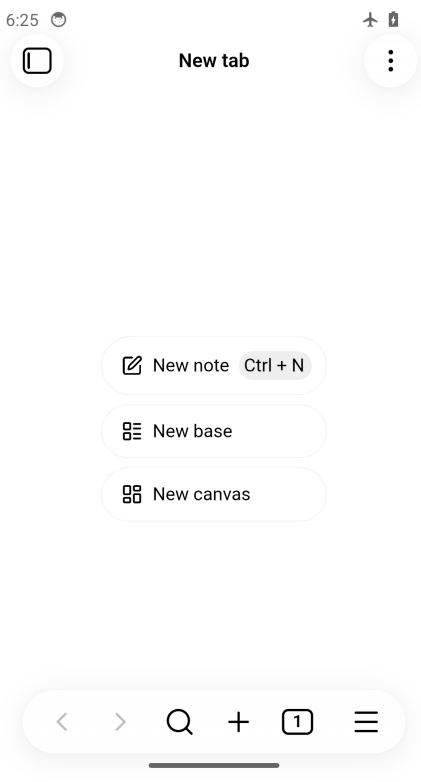

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Collect touch-to-visible timings, frame trace, dropped frames, memory and exact failure logs. Distinguish timeouts/socket failures from app crashes and do not publish a fabricated global score.

PLAN-X34 | Core modules, community plugins and extensibility | planned light-landscape

Original acceptance task (NOT automatically accepted): Find a core module, understand its description, enable/disable it and identify changed controls; inspect restricted/plugin trust text without installing unknown code.

mynotes — counterpart_not_established. Actual bounded check: Requested counterpart not established in the visited first-party settings surface. This is NOT proof of app-wide absence or a comparative score.

mynotes original exact result record

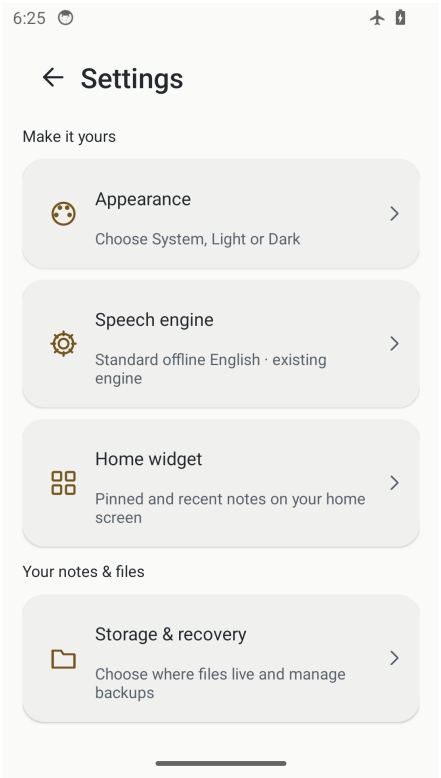

mynotes original screenshot

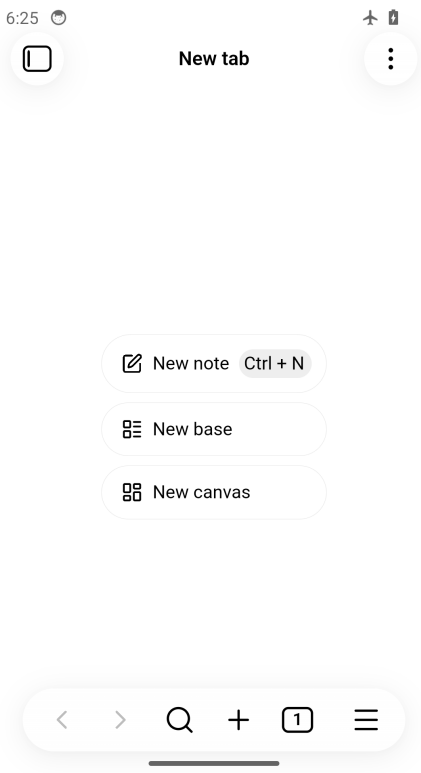

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify reversible configuration and a stable default note workflow. No community code was installed or executed; unknown plugins and future modules are outside this pinned-version inventory.

PLAN-X35 | Sync, Publish, account and service boundaries | planned light-landscape

Original acceptance task (NOT automatically accepted): For a future explicitly authorised service study, evaluate offline edits, conflicts, account loss, export and deliberate public visibility with disposable data.

mynotes — counterpart_not_established. Actual bounded check: Requested counterpart not established in the visited first-party settings surface. This is NOT proof of app-wide absence or a comparative score.

mynotes original exact result record

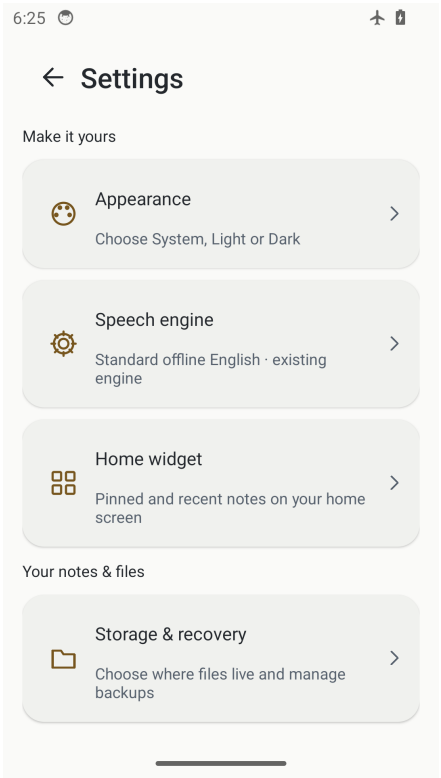

mynotes original screenshot

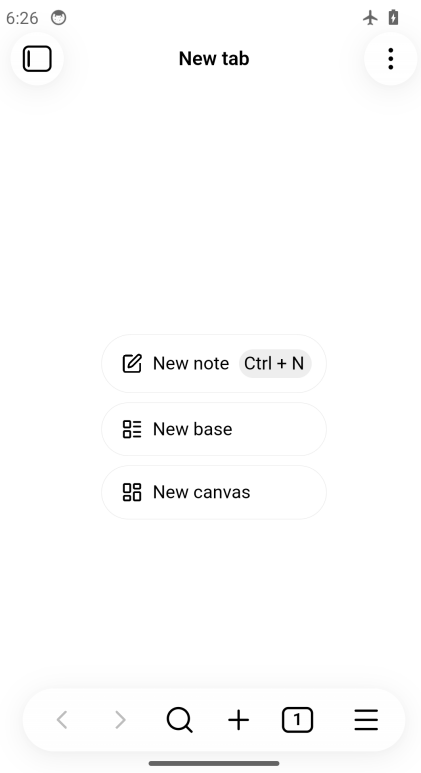

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: No login, purchase, upload or publishing was performed. Conflict resolution, encryption, recovery and cost/value remain untested; an entry screen is not a passed sync task.

PLAN-X36 | Slides, presentation and reading projections | planned light-landscape

Original acceptance task (NOT automatically accepted): Present a multi-slide disposable note, navigate, dismiss the keyboard, rotate and return to editing; compare PDF reading only as a separate output route.

mynotes — counterpart_not_established. Actual bounded check: Requested counterpart not established in the visited first-party settings surface. This is NOT proof of app-wide absence or a comparative score.

mynotes original exact result record

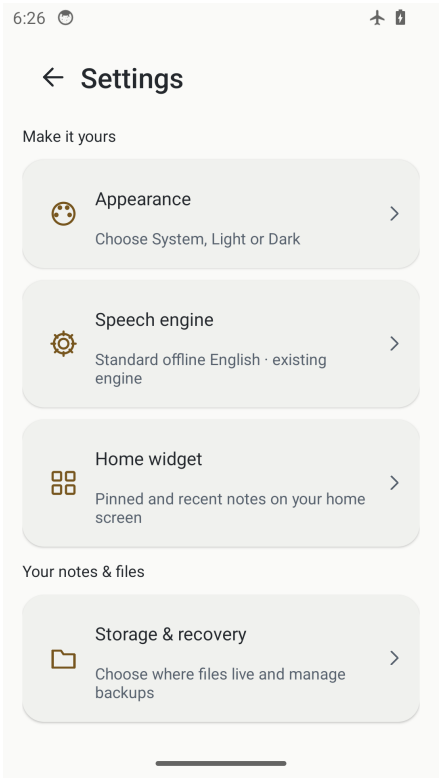

mynotes original screenshot

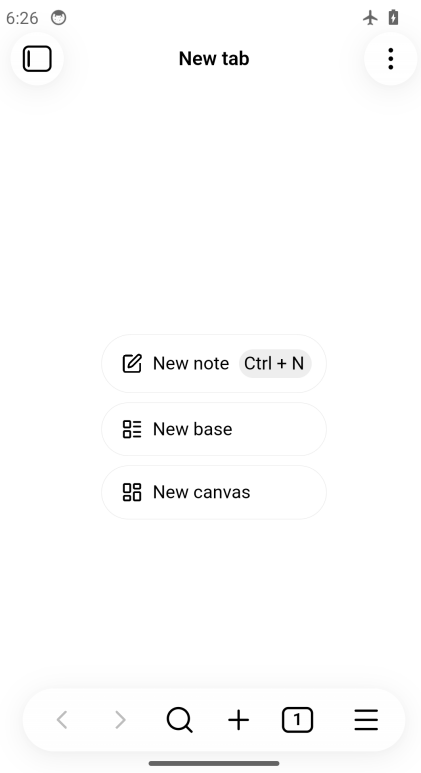

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify every slide, media, controls and return location. Obsidian landscape was not qualified by its retained audit; no physical presentation run occurred here.

PLAN-X37 | About, models, licences and honest help | planned light-landscape

Original acceptance task (NOT automatically accepted): Ask a novice to identify where notes are saved, how to protect audio and how to export useful diagnostics without sending private notes.

mynotes — blocked. Actual bounded check: No visible enabled exact-label control: ('About & offline models',); labels=['', '', '', '', '', '', 'Back', 'Settings', '', '', 'Make it yours', '', '', '', 'Appearance', 'Choose System, Light or Dark', '', '', '', '', 'Speech engine', 'Standard offline English · existing engine', '', '', '', '', 'Home widget', 'Pinned and recent notes on your home screen', '', 'Your notes & files', '', '', '', 'Storage & recovery', 'Choose where files live and manage backups', '', 'Help & privacy', '', '']

mynotes original exact result record

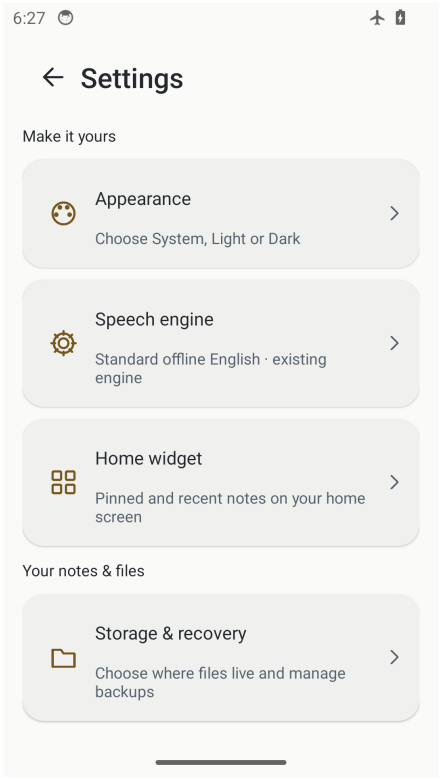

mynotes original screenshot

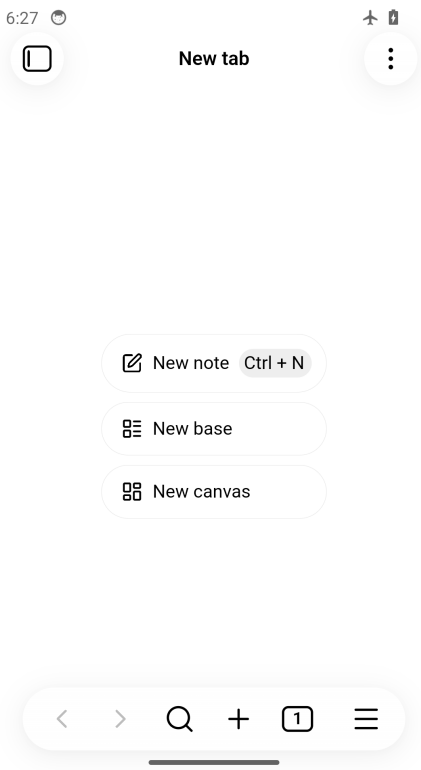

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": false, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Observe whether they can explain the result in their own words. Do not substitute long notices or a generated guide for successful comprehension.

PLAN-X01 | Find, organise, label and reorder | planned dark-landscape

Original acceptance task (NOT automatically accepted): Find an archived body-only match while a folder filter is active; reorder a distant card, then return.

mynotes — bounded_outcome_verified. Actual bounded check: Body-only search returns the known title and marker passage outside the search input; not latency or broad search acceptance.

mynotes original exact result record

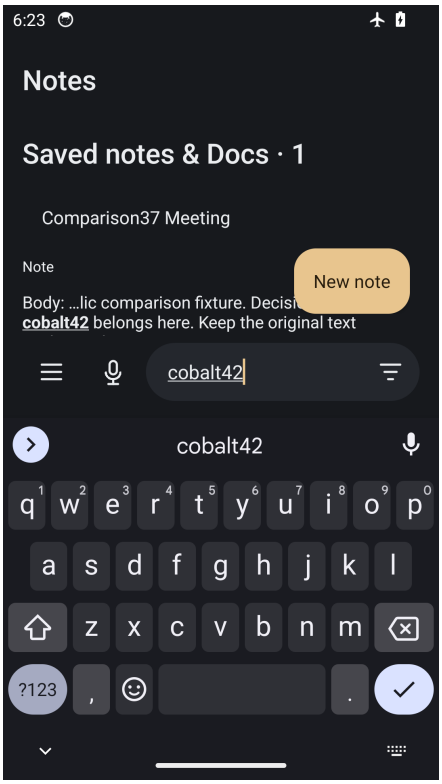

mynotes original screenshot

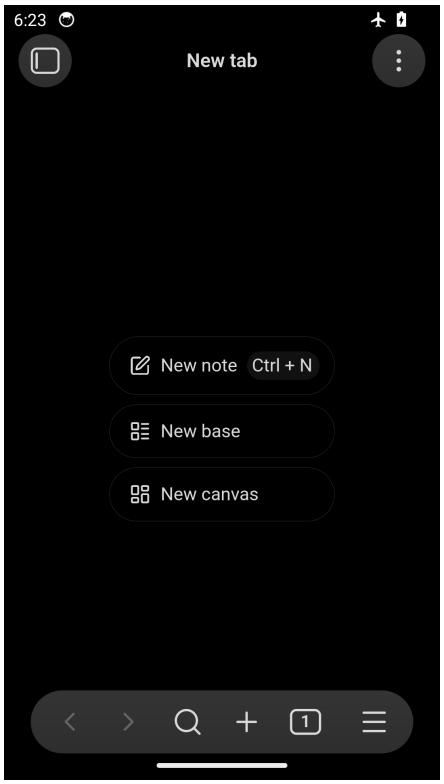

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Record actual scope, result passage, selected filters and persisted order; repeat list/grid, keyboard and large text. Measure drag continuity only in a new live session.

PLAN-X02 | Writing, reading and formatting | planned dark-landscape

Original acceptance task (NOT automatically accepted): Format the middle of a paragraph, type new text, undo, dismiss the keyboard and reopen the note.

mynotes — bounded_outcome_verified. Actual bounded check: Exact public body read back after force-stop/relaunch and opening the saved note; bounded plain-note persistence only.

mynotes original exact result record

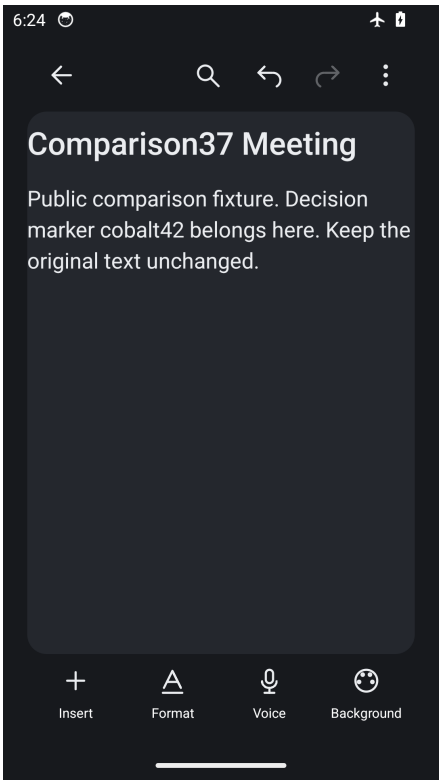

mynotes original screenshot

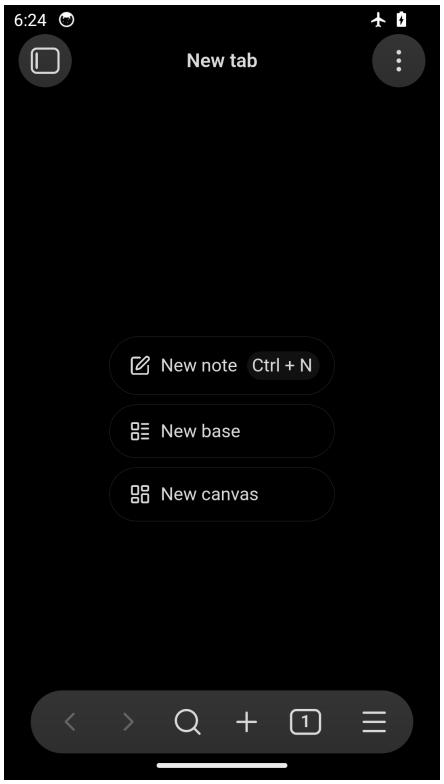

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Retain surrounding prose, correct style target, caret and saved result. Repeat with large text; compare actual task completion and mistakes, not assertion counts.

PLAN-X03 | Checklists, numbering and list editing | planned dark-landscape

Original acceptance task (NOT automatically accepted): Insert an item in the middle, indent it, move it past the viewport, hide completed rows and undo.

mynotes — interaction_observed. Actual bounded check: Named native controls opened; no implicit persistence, discoverability or module acceptance.

mynotes original exact result record

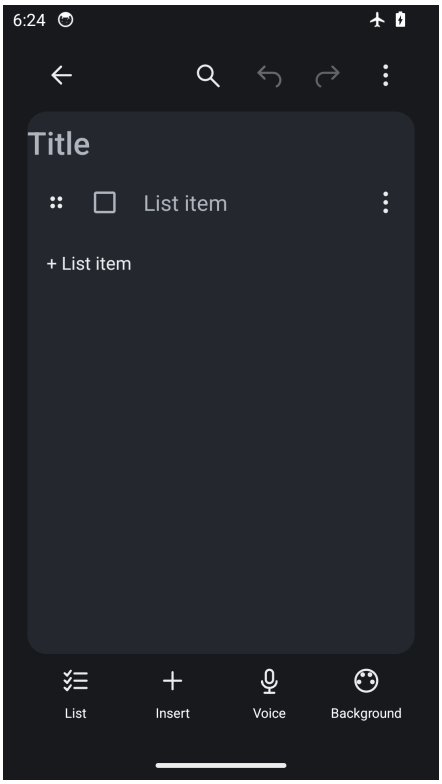

mynotes original screenshot

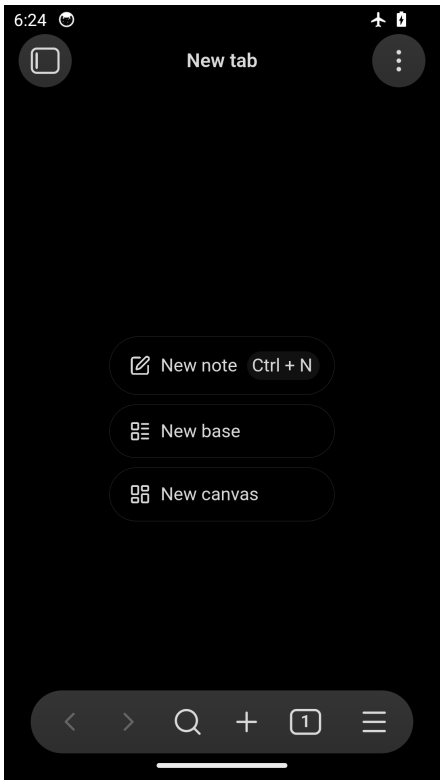

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: No lost items, wrong-list operations or accidental workspace swipes. Verify numbering after insertion and Backspace exit at an empty item.

PLAN-X04 | Tables and direct cell editing | planned dark-landscape

Original acceptance task (NOT automatically accepted): Edit a long cell in a wide table; insert a column beside it, toggle header role, delete a row and undo.

mynotes — interaction_observed. Actual bounded check: Named native controls opened; no implicit persistence, discoverability or module acceptance.

mynotes original exact result record

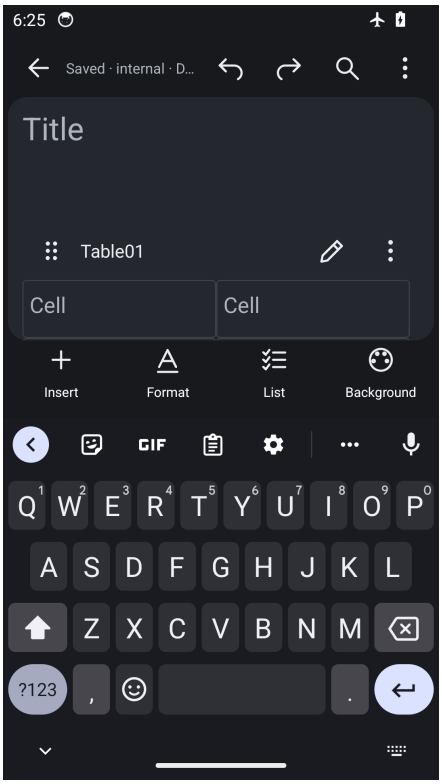

mynotes original screenshot

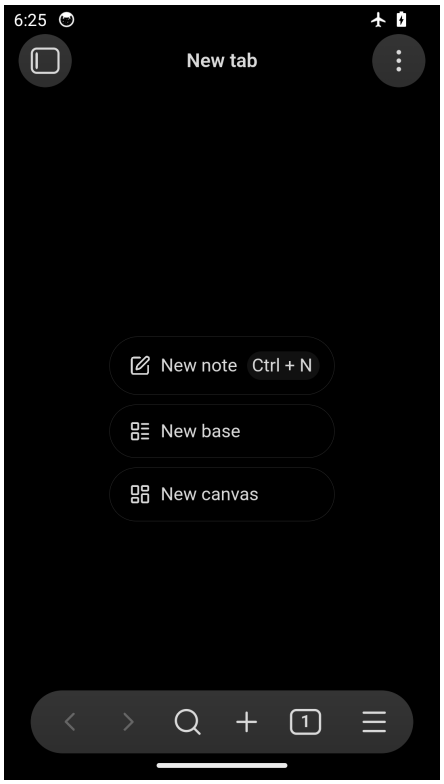

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Keep the active cell visible above the IME; no unexpected horizontal jump; restore content and header meaning after undo. Compare the same table, not these unequal fixtures.

PLAN-X05 | Images, attachments and inline media | planned dark-landscape

Original acceptance task (NOT automatically accepted): Insert a photo, select two recognized words, keep the image, edit its crop, then remove only the intended attachment.

mynotes — interaction_observed. Actual bounded check: Image insertion/picker entry, not image-import success.

mynotes original exact result record

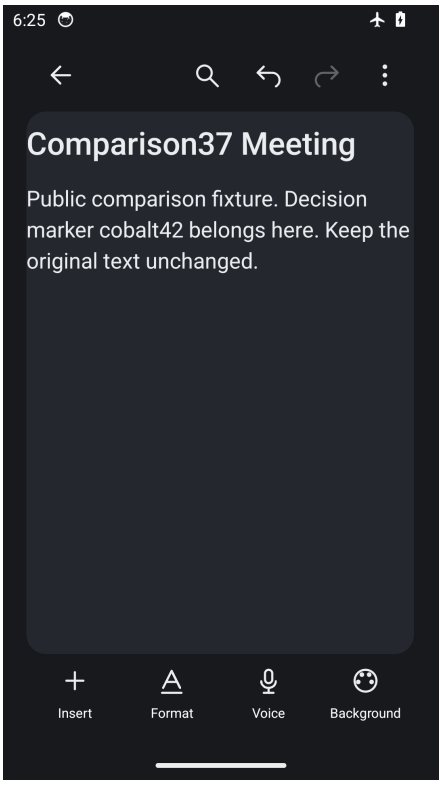

mynotes original screenshot

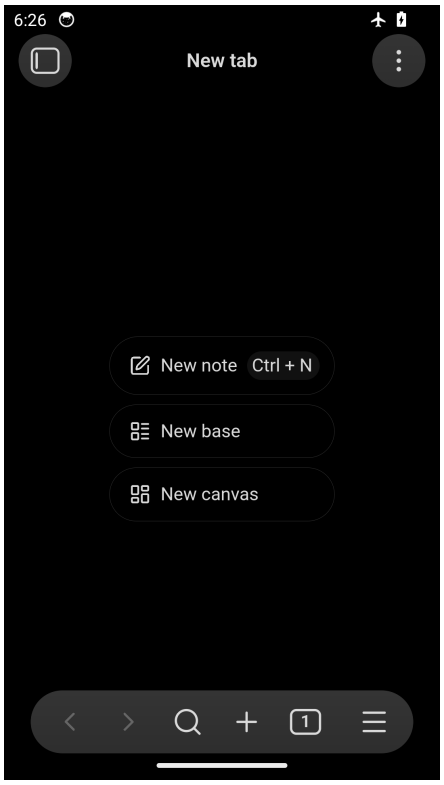

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Keep source bytes, unrelated blocks and names intact; make copy versus replacement clear. Verify offscreen word selection and explicit outside-tap dismissal.

PLAN-X06 | Web hyperlinks and external opening | planned dark-landscape

Original acceptance task (NOT automatically accepted): Add a long URL to selected words, correct a malformed address, reopen, edit and remove the link.

mynotes — interaction_observed. Actual bounded check: Link editor entry only; external destination is not opened offline.

mynotes original exact result record

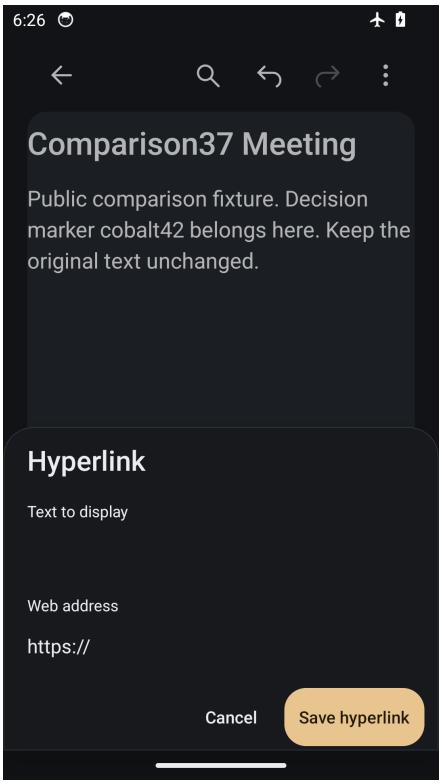

mynotes original screenshot

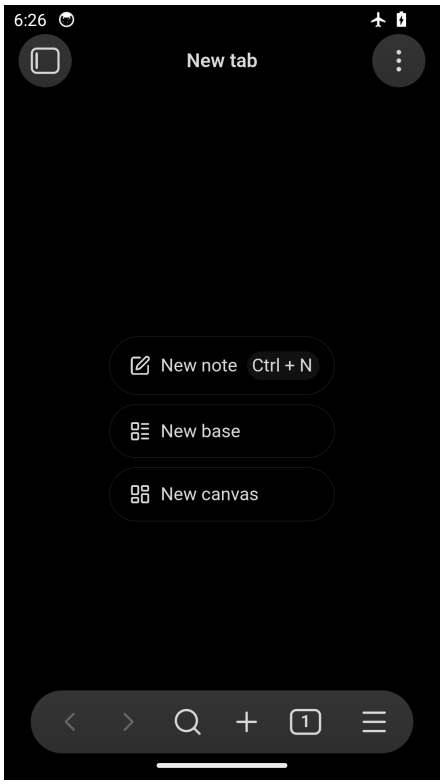

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: No duplicate URL per line, changed neighboring prose or unnoticed external launch. Check keyboard visibility, wrapped fields and TalkBack error announcement.

PLAN-X07 | Internal links, backlinks, graph and previews | planned dark-landscape

Original acceptance task (NOT automatically accepted): Link A to a heading in B, rename B, return through backlinks and preview the target without losing A.

mynotes — counterpart_not_established. Actual bounded check: Requested counterpart not established in the visited first-party settings surface. This is NOT proof of app-wide absence or a comparative score.

mynotes original exact result record

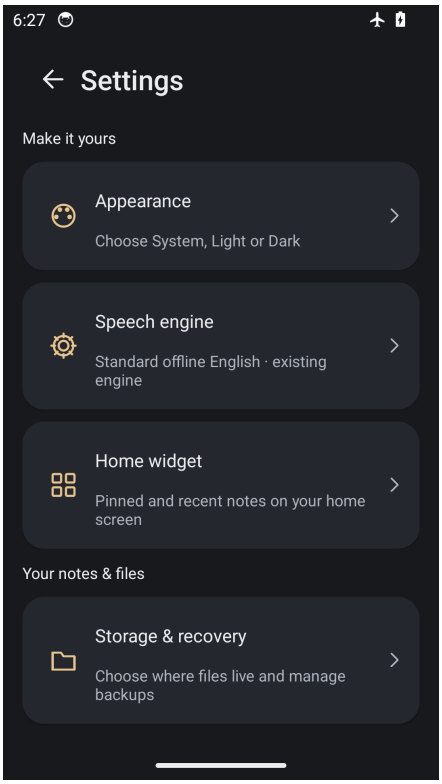

mynotes original screenshot

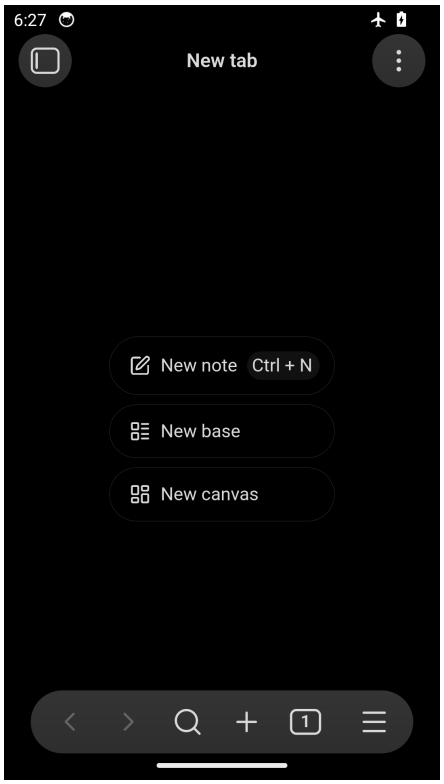

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Target identity and rename behavior must be verified live; count wrong destinations and recovery steps. No graph speed or link-integrity winner has been measured.

PLAN-X08 | Long-note orientation, tags, footnotes and word count | planned dark-landscape

Original acceptance task (NOT automatically accepted): Locate a middle heading, find a repeated phrase, follow a footnote and return to the exact reading location.

mynotes — bounded_outcome_verified. Actual bounded check: Actual in-note query produces the marker result passage; not a long-note heading/footnote or reading-location acceptance.

mynotes original exact result record

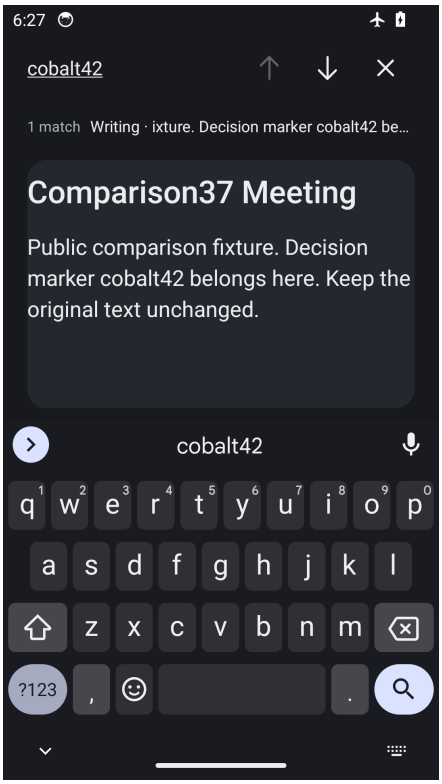

mynotes original screenshot

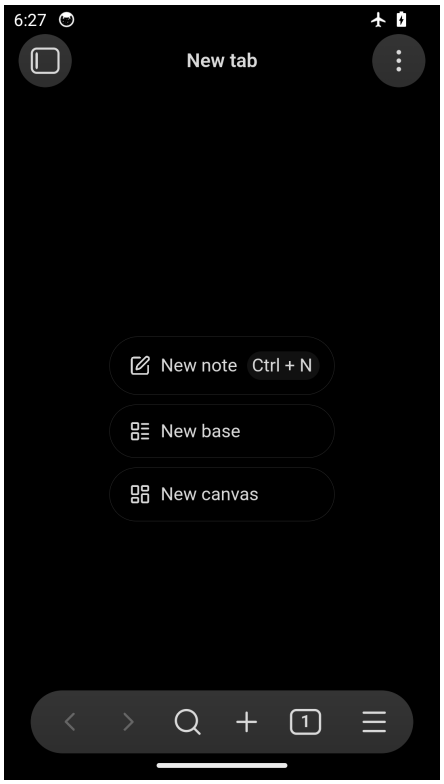

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify target and return anchors, heading levels, counts and generated text treatment; do not infer footnote success from a registered command.

PLAN-X09 | Properties and Bases | planned dark-landscape

Original acceptance task (NOT automatically accepted): For users who need records, edit one typed field, filter a view, rename a file and reopen the view.

mynotes — counterpart_not_established. Actual bounded check: Requested counterpart not established in the visited first-party settings surface. This is NOT proof of app-wide absence or a comparative score.

mynotes original exact result record

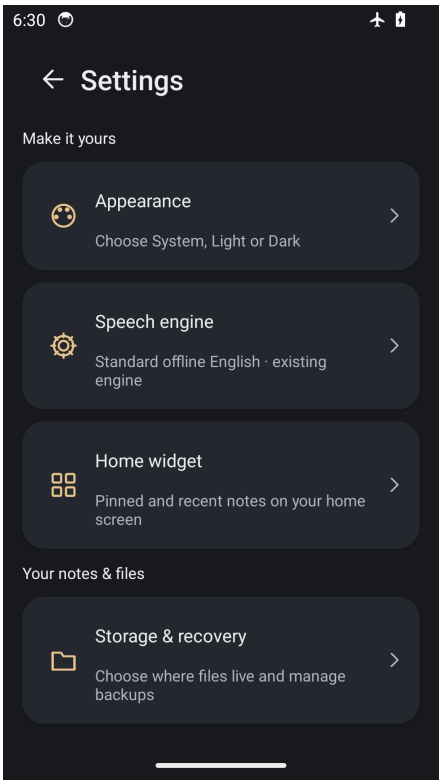

mynotes original screenshot

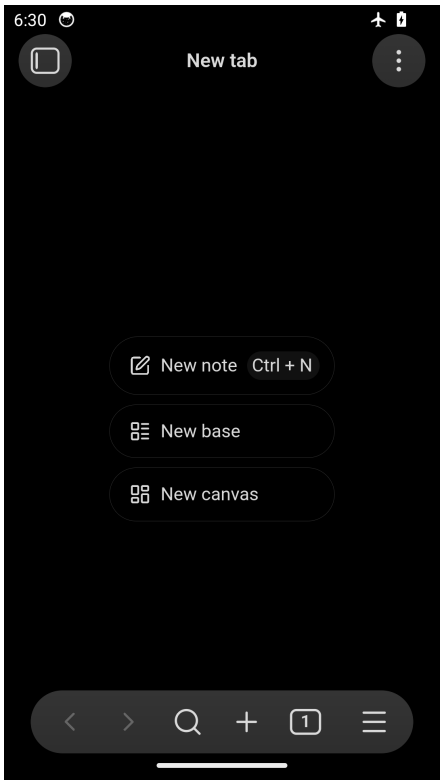

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Validate data types, retained filters, note identity and error recovery. No Bases performance, formulas or equivalent MyNotes capability is certified here.

PLAN-X10 | Quick capture, daily notes, templates and unique notes | planned dark-landscape

Original acceptance task (NOT automatically accepted): From a cold start, capture a short thought; then create a repeated meeting structure and return tomorrow.

mynotes — interaction_observed. Actual bounded check: Named native controls opened; no implicit persistence, discoverability or module acceptance.

mynotes original exact result record

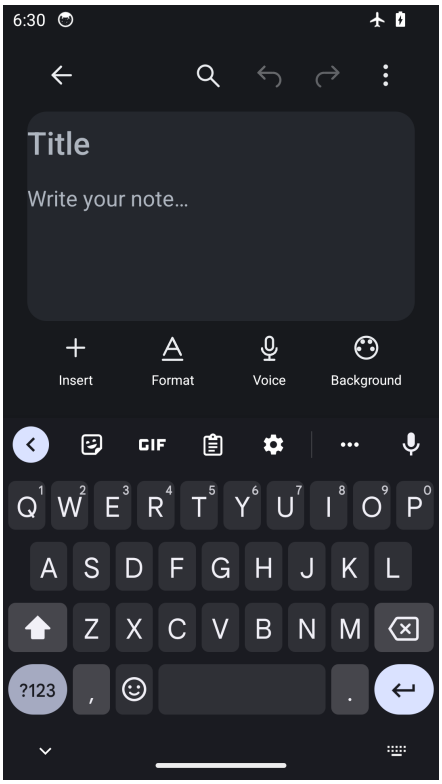

mynotes original screenshot

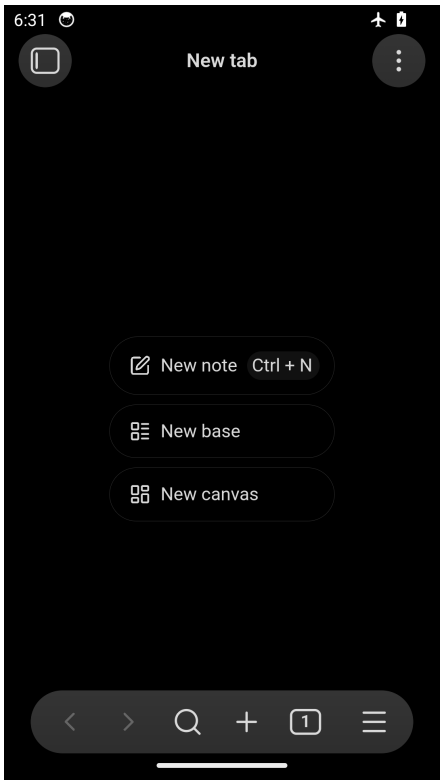

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Observe time to first saved words, setup mistakes, duplicate daily notes and return continuity. Do not populate fake user content to make the app feel busy.

PLAN-X11 | Freehand drawing and Canvas | planned dark-landscape

Original acceptance task (NOT automatically accepted): Draw a diagram annotation, leave and reopen it; in Canvas connect two cards, pan/zoom and reopen the board.

mynotes — interaction_observed. Actual bounded check: Actual drawing entry, not a shared Canvas capability or saved drawing pass.

mynotes original exact result record

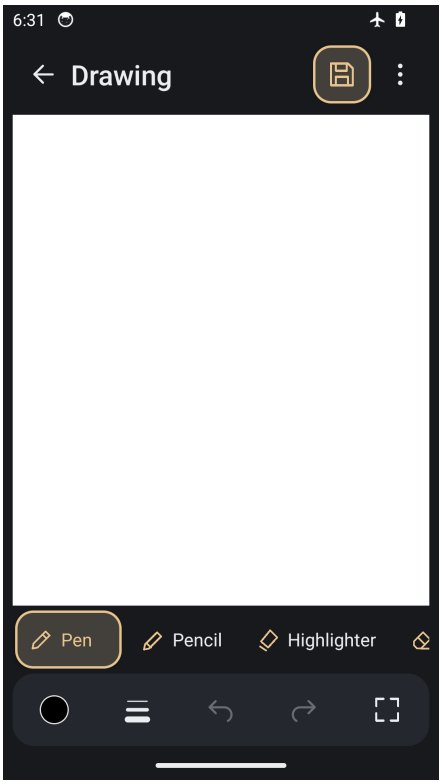

mynotes original screenshot

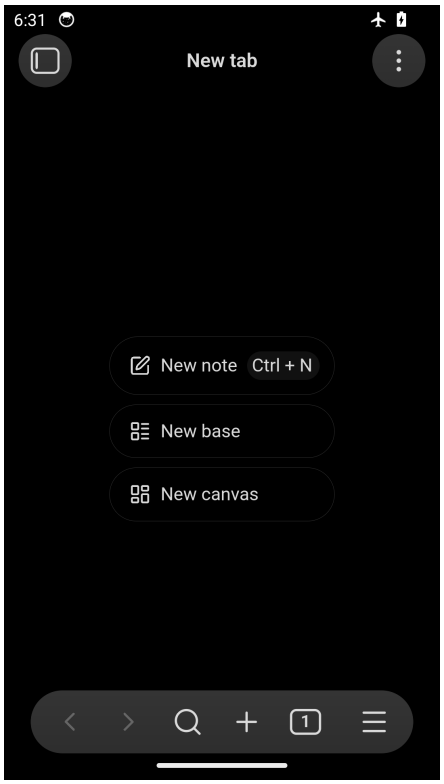

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Evaluate each tool against its own output goal. For common save/return work, preserve content and location; latency needs real stroke traces on matched hardware.

PLAN-X12 | Diagrams, shapes, arrows and grouping | planned dark-landscape

Original acceptance task (NOT automatically accepted): Add two shapes, connect them, group, resize, split the arrow, undo and reopen.

mynotes — interaction_observed. Actual bounded check: Rectangle tool activated; no comparator equivalence or persisted graph acceptance.

mynotes original exact result record

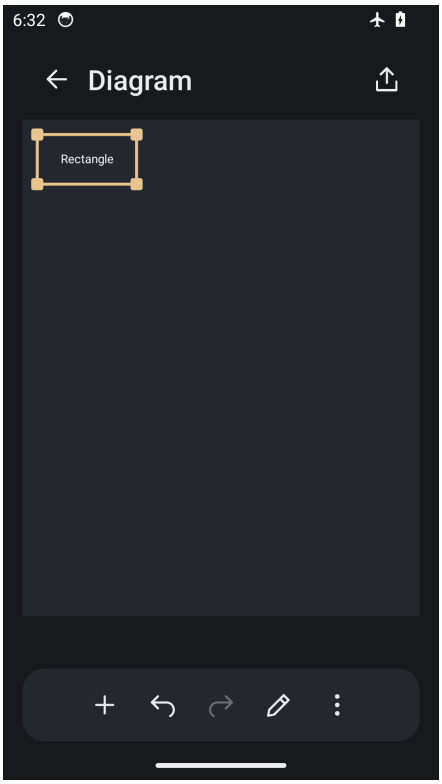

mynotes original screenshot

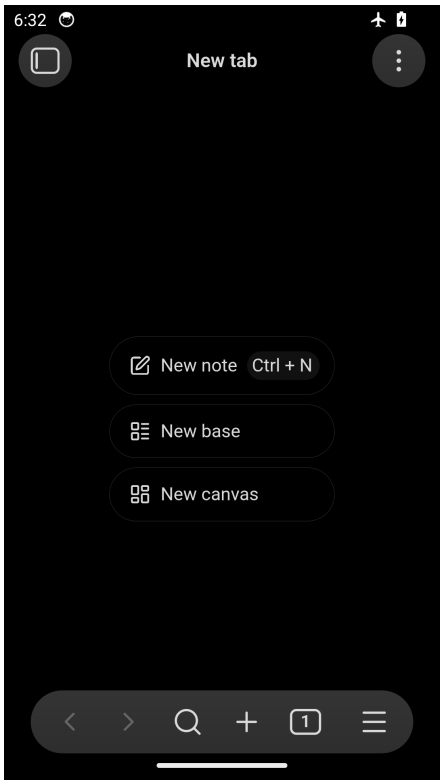

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Check actual anchor geometry, target selection, retained names and no accidental duplication. Run long-press/context-menu actions with large text and TalkBack.

PLAN-X13 | PDF reading, selection, search and markup | planned dark-landscape

Original acceptance task (NOT automatically accepted): Open a large scanned/mixed PDF, zoom a distant page, select offscreen text, find a hit with IME, mark a rotated page and export.

mynotes — blocked. Actual bounded check: Picker did not expose public fixture Comparison.pdf

mynotes original exact result record

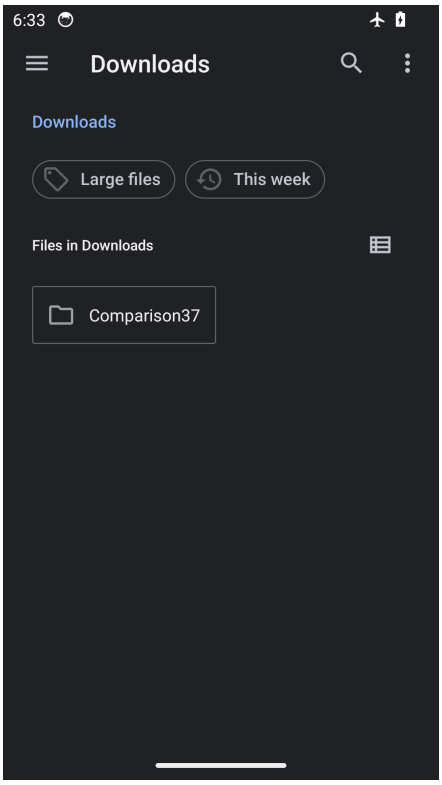

mynotes original screenshot

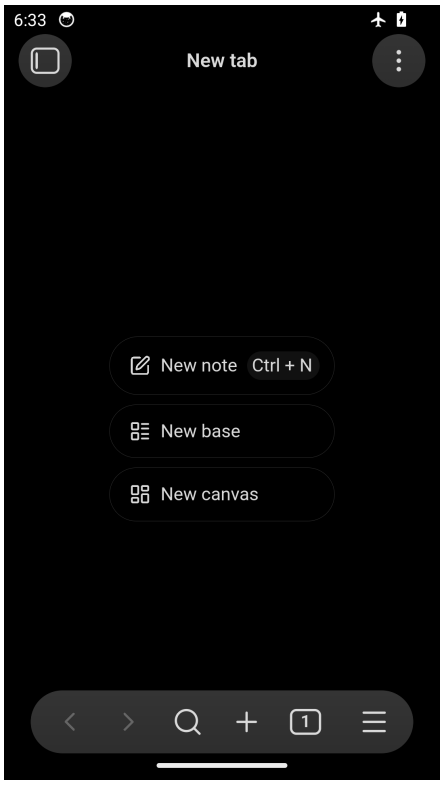

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Compare the original bytes; inspect hit position, highlight geometry and rendered export. Exercise cancellation and a partial destination; private markup drafts are outside Notes backups.

PLAN-X14 | Word files and original-layout expectations | planned dark-landscape

Original acceptance task (NOT automatically accepted): Open a DOCX with headers, inline images, wide tables and hard page breaks; select text, zoom and create an editable copy.

mynotes — interaction_observed. Actual bounded check: Actual system picker selected the specified original; viewer/reader state inspected, not complete fidelity/search acceptance.

mynotes original exact result record

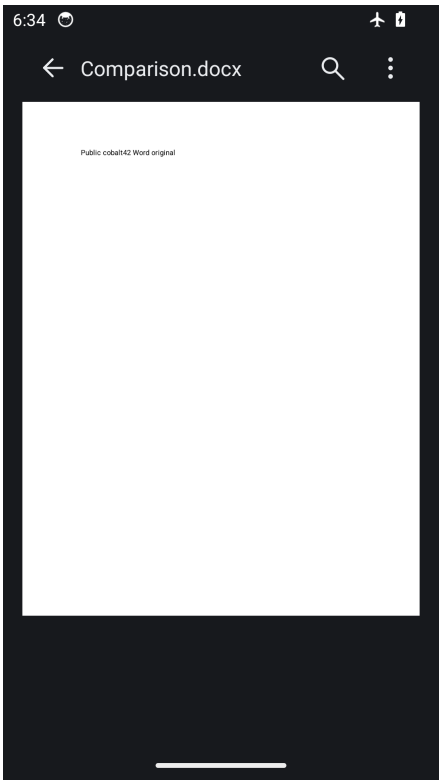

mynotes original screenshot

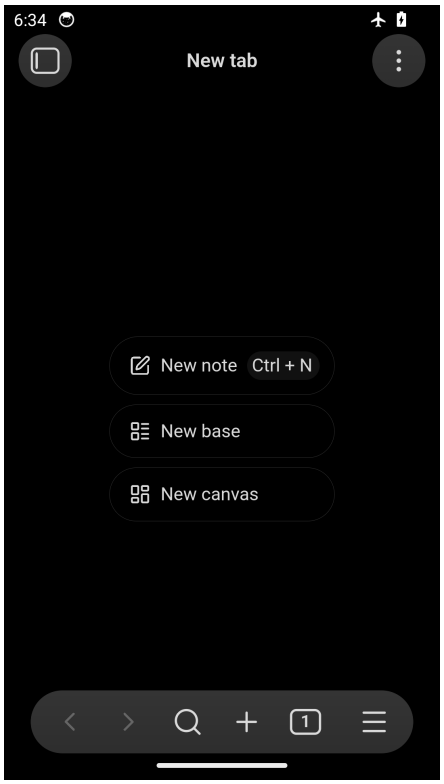

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Check original bytes and document return position, compare rendered pages with a suitable Word reference, and disclose any dropped layout/media. Do not invent fidelity from a synthetic one-page frame.

PLAN-X15 | Large TXT and read-only text viewing | planned dark-landscape

Original acceptance task (NOT automatically accepted): Open a large multilingual TXT, find a repeated phrase near the end, select across the viewport and return to the prior file list.

mynotes — blocked. Actual bounded check: Picker did not expose public fixture Comparison.txt

mynotes original exact result record

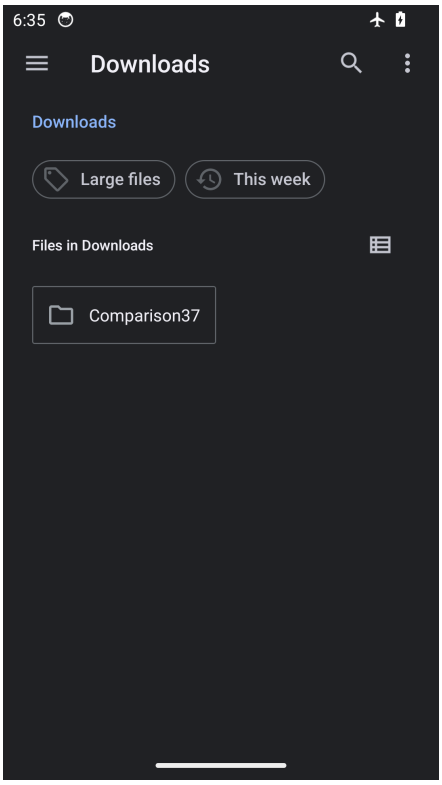

mynotes original screenshot

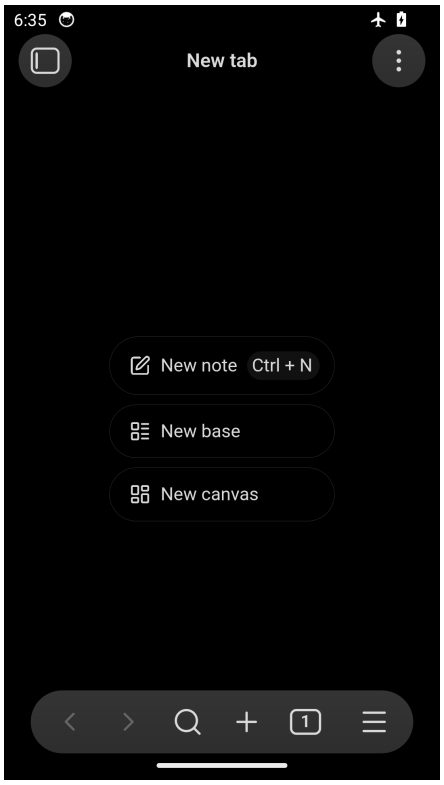

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Measure open/find latency separately from rendering; inspect Unicode integrity, clear selection on deliberate tap, retained page and unchanged original.

PLAN-X16 | Spreadsheet previews and cached values | planned dark-landscape

Original acceptance task (NOT automatically accepted): Open quoted CSV and a multi-sheet XLSX with formulas, missing cached results and wide cells; locate a value and copy it.

mynotes — interaction_observed. Actual bounded check: Actual system picker selected the specified original; viewer/reader state inspected, not complete fidelity/search acceptance.

mynotes original exact result record

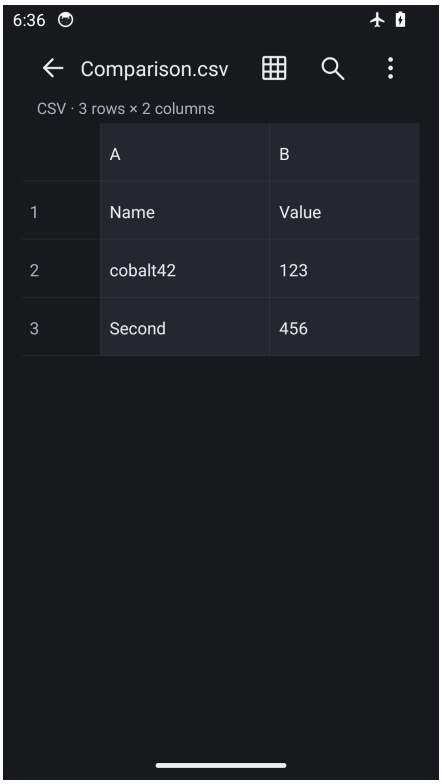

mynotes original screenshot

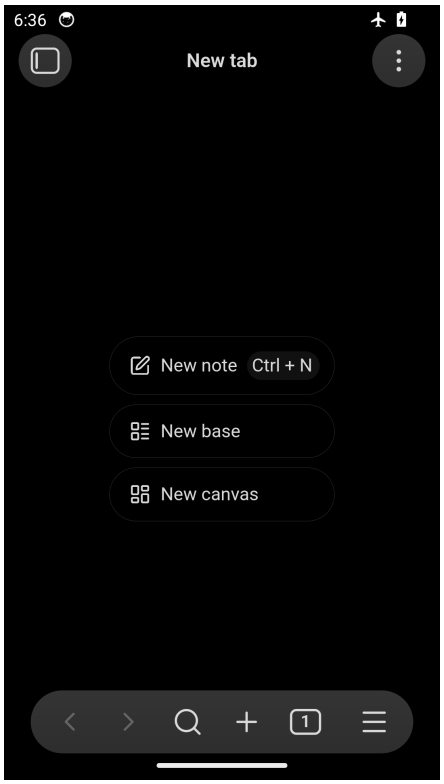

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Compare visible rows/columns and Unicode with source values, disclose cached-only results, retain sheet/scroll position and never execute macros or scripts.

PLAN-X17 | Markdown, HTML, RTF, ODT and slide imports | planned dark-landscape

Original acceptance task (NOT automatically accepted): Open one realistic file of each advertised type, inspect text order and unsupported elements, then cancel or create a copy.

mynotes — interaction_observed. Actual bounded check: Each named format attempted separately; blocked or text-only views are not full import fidelity passes.

mynotes original exact result record

mynotes original screenshot

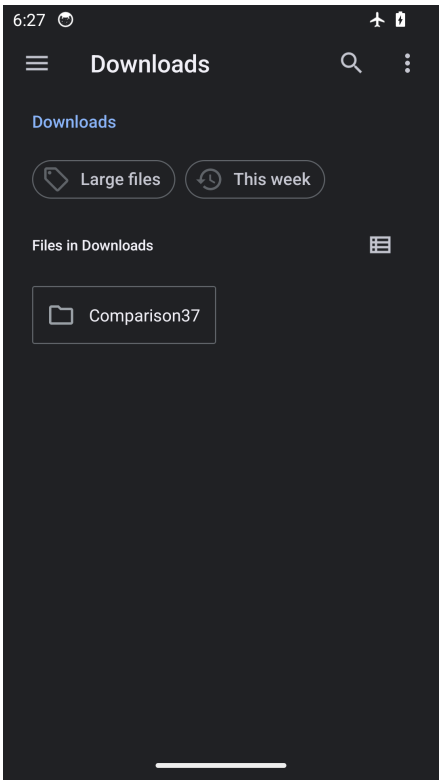

Format subtasks: Comparison.md:blocked; Comparison.html:blocked; Comparison.rtf:blocked; Comparison.odt:blocked; Comparison.pptx:blocked

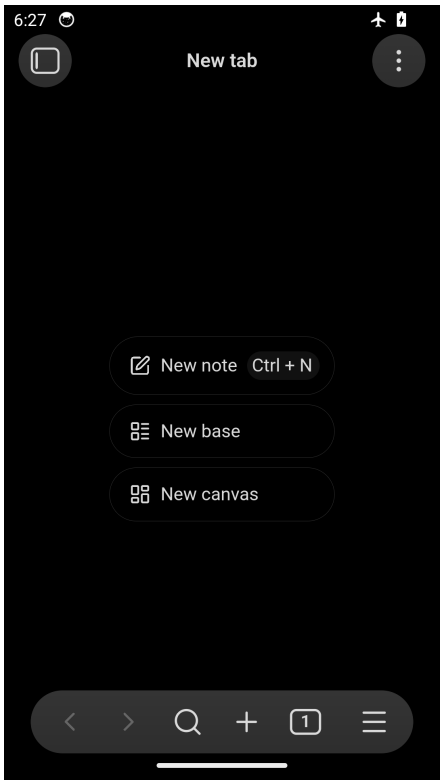

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Record per-format fidelity and actionable errors; preserve originals, reject malformed/oversized archives safely and distinguish external-reader delegation from in-app support.

PLAN-X18 | OCR, image-region text and scanned-page recognition | planned dark-landscape

Original acceptance task (NOT automatically accepted): Read tiny/oblique/multilingual public scenes, blank controls and selected image regions; compare exact expected text and corrected output.

mynotes — interaction_observed. Actual bounded check: OCR entry only. Actual varied-scene recognition/accuracy remains unverified in this paired task.

mynotes original exact result record

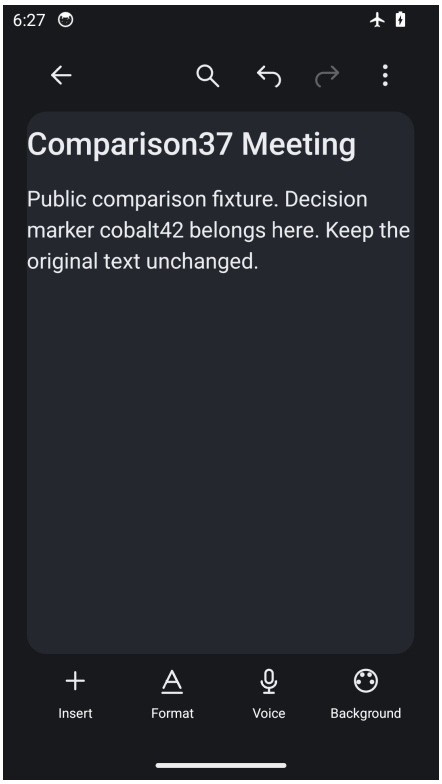

mynotes original screenshot

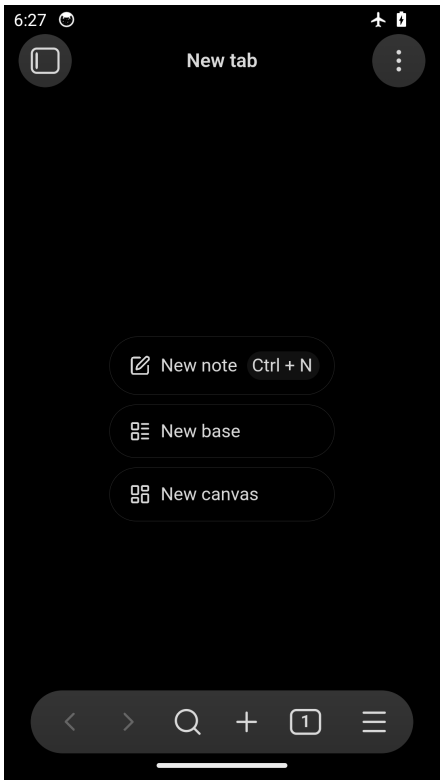

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Retain source hashes, full hypotheses, CER, omissions/false words, cold/warm latency and correction time. No new accuracy study or training occurred in this report.

PLAN-X19 | Voice recording, playback and transcription | planned dark-landscape

Original acceptance task (NOT automatically accepted): Record varied Indian speakers, pause/resume, deny/regrant permission, play through a headset and correct names/numbers while listening.

mynotes — interaction_observed. Actual bounded check: Named native controls opened; no implicit persistence, discoverability or module acceptance.

mynotes original exact result record

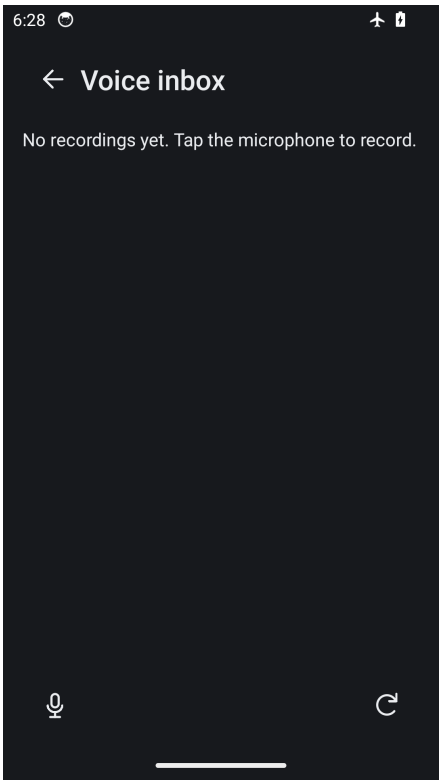

mynotes original screenshot

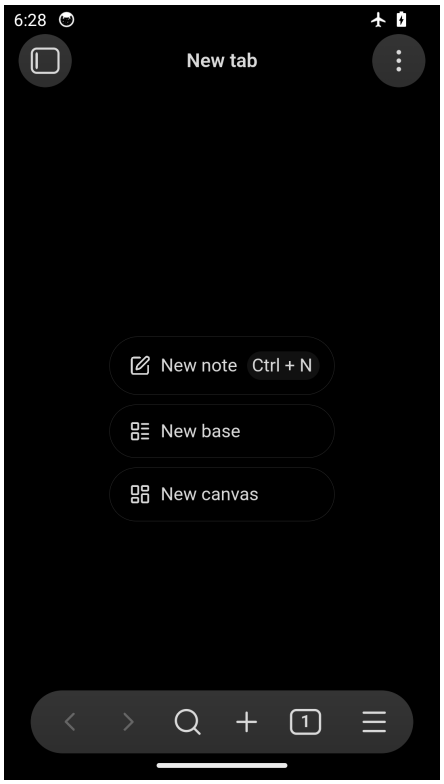

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Measure word errors, boundary losses, time-to-review, seek accuracy and actual audible playback on physical hardware. Verify originals export separately from note backups.

PLAN-X20 | Reminders and notifications | planned dark-landscape

Original acceptance task (NOT automatically accepted): Set, rename and reschedule a reminder, deny notifications, reboot and then tap the delivered notification.

mynotes — interaction_observed. Actual bounded check: Reminder dialog entry; notification delivery/time persistence not inferred.

mynotes original exact result record

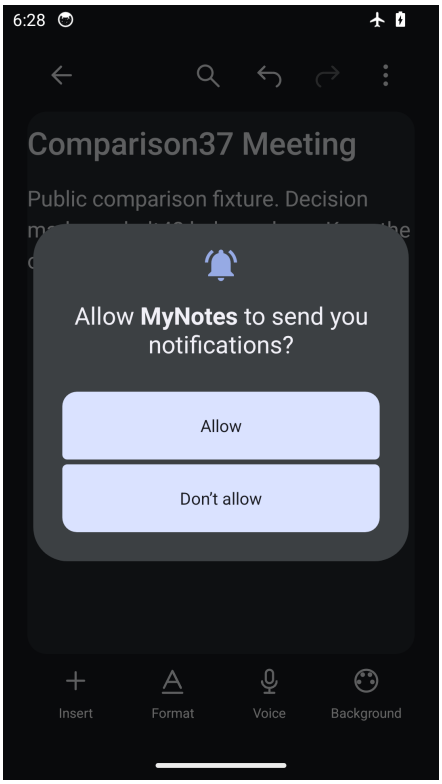

mynotes original screenshot

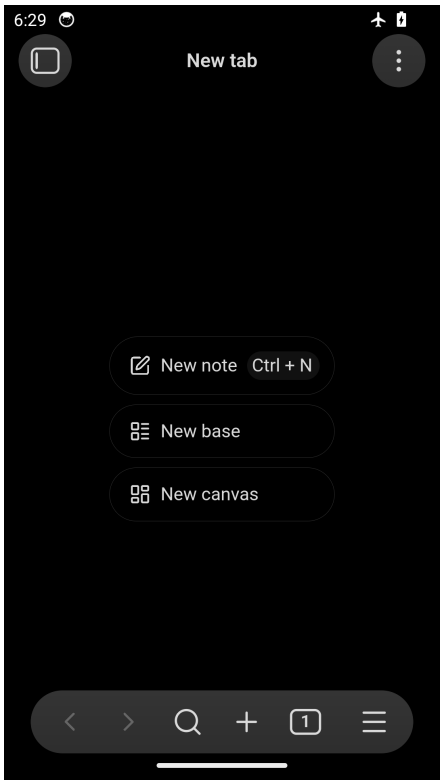

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Use disposable notes; verify no stale/duplicate notification, correct note identity and sensible blocked-state feedback. Measure actual delivery under power restrictions separately.

PLAN-X21 | Home widget and Android entry points | planned dark-landscape

Original acceptance task (NOT automatically accepted): Place/resize the widget, pin and archive notes, share text from another app and open a reminder deep link.

mynotes — blocked. Actual bounded check: Home Library control not ready; app error is not suppressed

mynotes original exact result record

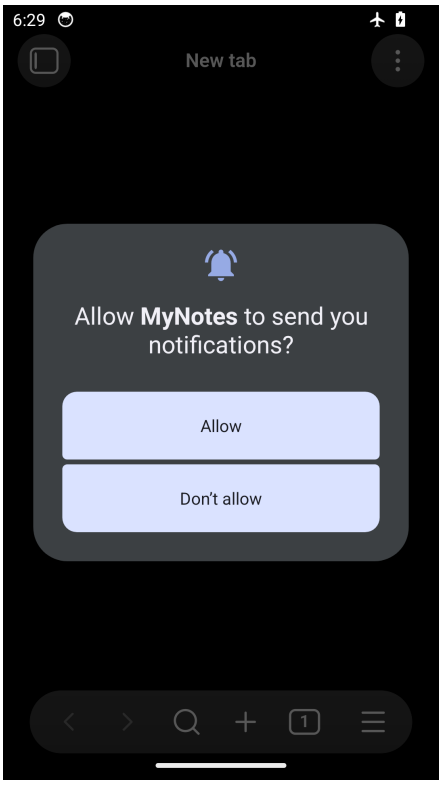

mynotes original screenshot

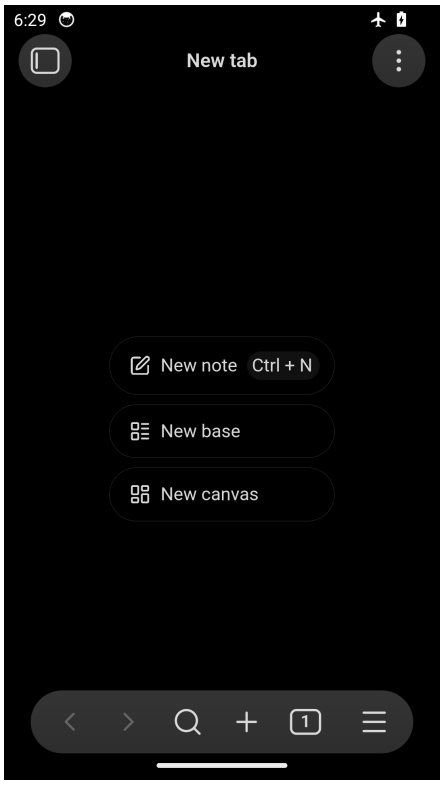

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify labels, intended note, no duplicates and return context on real launchers, including large system text. Do not restore widget/notification consent silently during recovery.

PLAN-X22 | Appearance, backgrounds, fonts and accessibility | planned dark-landscape

Original acceptance task (NOT automatically accepted): Switch system theme, increase font scale, navigate with TalkBack and format selected text over a patterned background.

mynotes — blocked. Actual bounded check: Home Library control not ready; app error is not suppressed

mynotes original exact result record

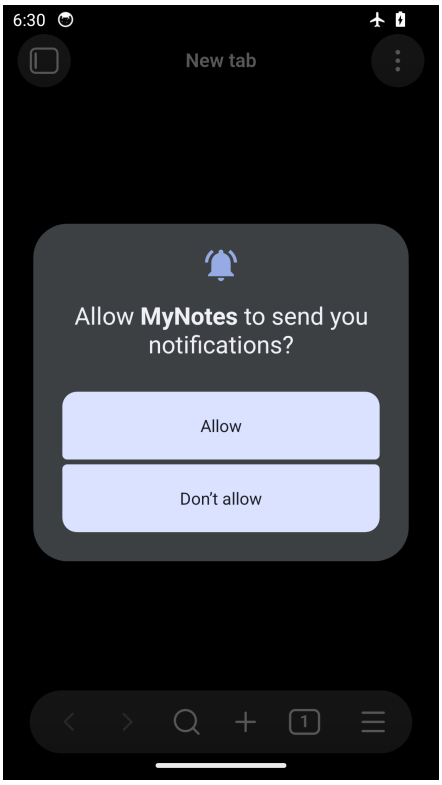

mynotes original screenshot

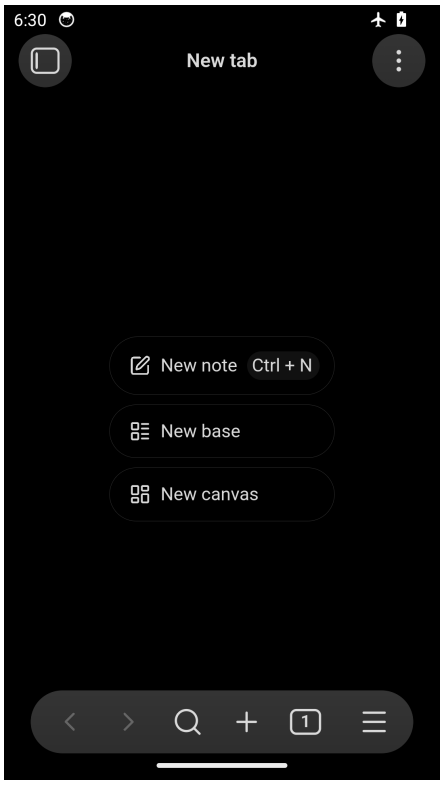

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Check clipping, announced scope/selection, contrast and focus order across orientations; screenshots alone do not establish 48dp targets or a successful screen-reader task.

PLAN-X23 | First-use storage, private folders and optional App folder | planned dark-landscape

Original acceptance task (NOT automatically accepted): Create notes offline, choose an empty optional folder, revoke access, save again and reconnect without clearing app data.

mynotes — blocked. Actual bounded check: Home Library control not ready; app error is not suppressed

mynotes original exact result record

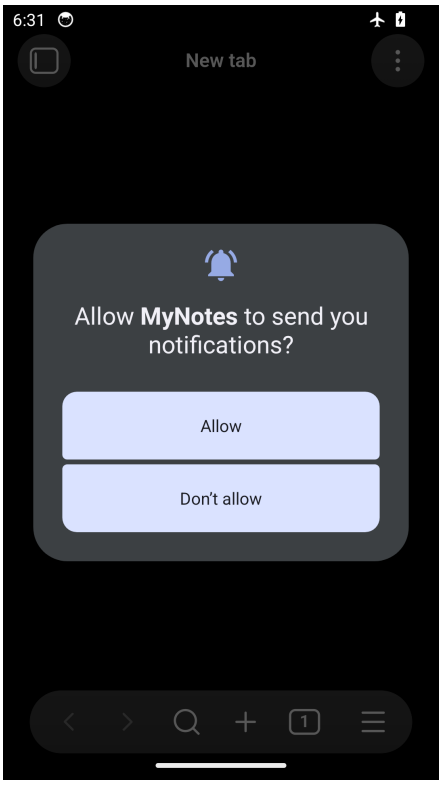

mynotes original screenshot

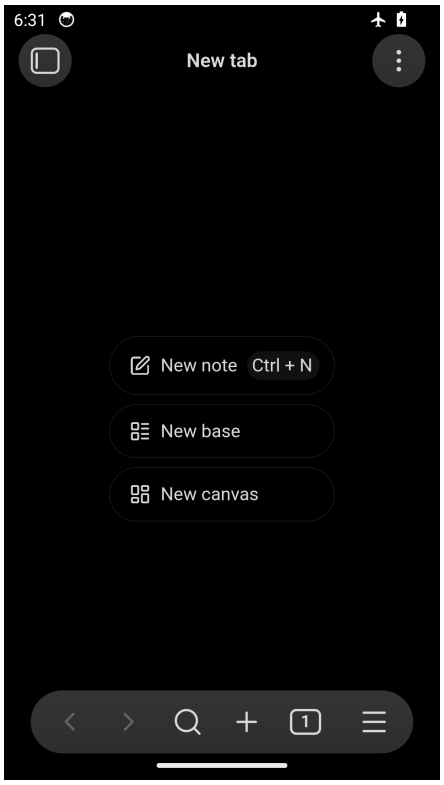

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Inspect exact copied categories and pending status; test reinstall/reselection only on disposable fixtures. Never tell the user to uninstall or clear their real library for this review.

PLAN-X24 | Portable backup, import merge and full recovery | planned dark-landscape

Original acceptance task (NOT automatically accepted): Export a near-limit rich library, exceed the limit safely, import identical and same-ID changed notes, then verify every supported content type.

mynotes — blocked. Actual bounded check: Home Library control not ready; app error is not suppressed

mynotes original exact result record

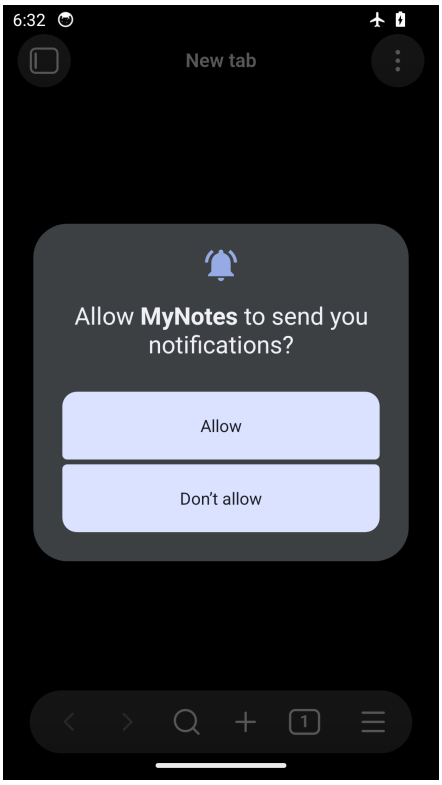

mynotes original screenshot

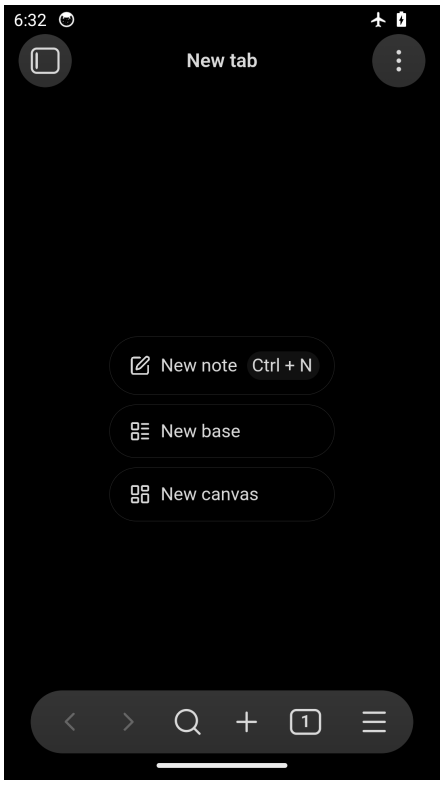

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: No silent partial success or overwrite; disclose omitted categories and readable/non-encrypted JSON. A complete App-folder checkpoint is a separate opt-in recovery mechanism, not this portable file.

PLAN-X25 | Trash, permanent deletion and recovery | planned dark-landscape

Original acceptance task (NOT automatically accepted): Delete/restore a rich note, inspect what happens to its audio and exports, then purge only a disposable selected note.

mynotes — interaction_observed. Actual bounded check: Named native controls opened; no implicit persistence, discoverability or module acceptance.

mynotes original exact result record

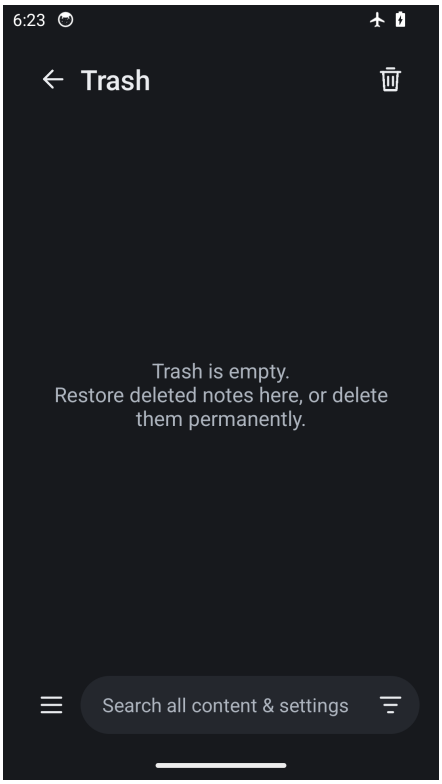

mynotes original screenshot

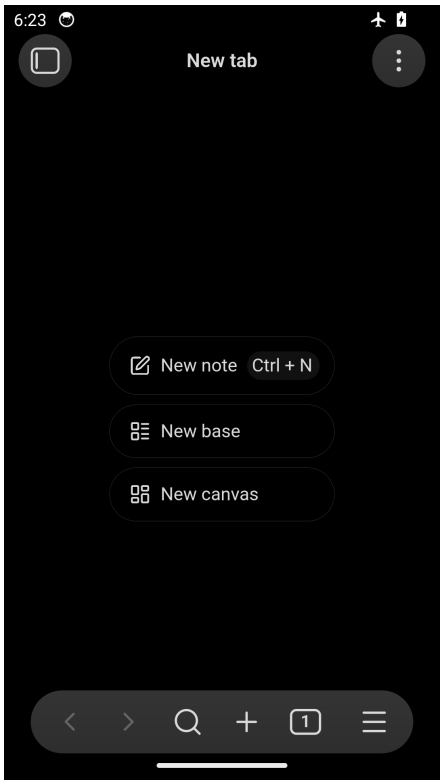

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify the exact affected IDs, Undo boundaries, expiry policy and retained separate data. Never infer crash or power-loss recovery from a confirmation screenshot.

PLAN-X26 | Archive, pinning and bookmarks | planned dark-landscape

Original acceptance task (NOT automatically accepted): Pin a note, archive it, find it globally, restore it and compare a saved Obsidian bookmark task.

mynotes — interaction_observed. Actual bounded check: Named native controls opened; no implicit persistence, discoverability or module acceptance.

mynotes original exact result record

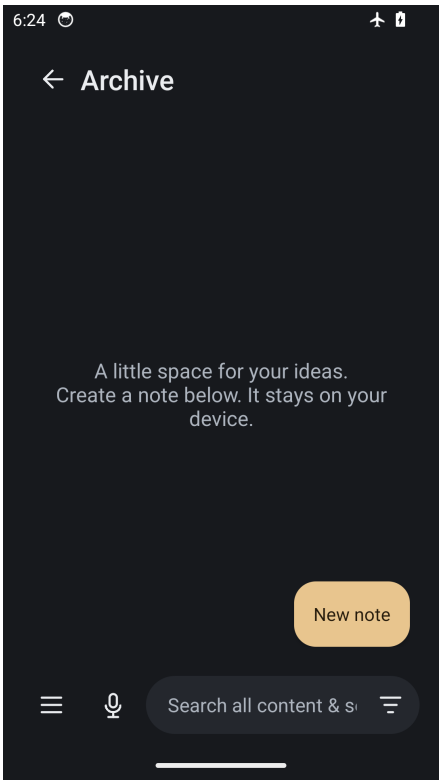

mynotes original screenshot

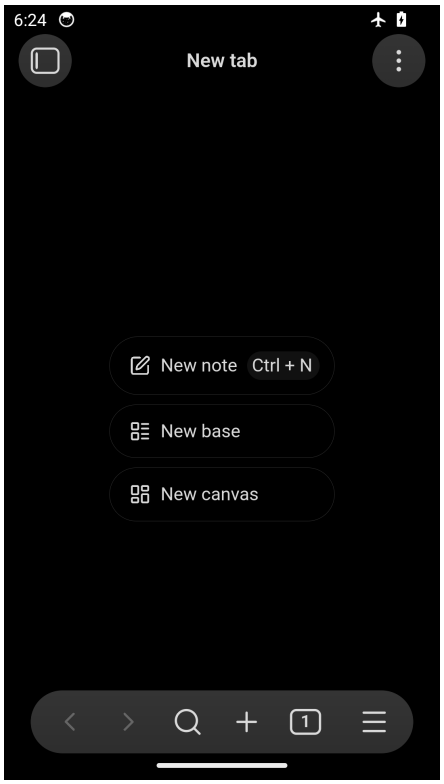

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Check persisted identity/order, scope labels and no accidental duplicate. Bookmark persistence must be newly verified rather than inferred from its empty pane.

PLAN-X27 | Undo, redo, editing history and save feedback | planned dark-landscape

Original acceptance task (NOT automatically accepted): Edit text/table/image, undo and redo, leave and reopen; repeat after controlled process restart on disposable data.

mynotes — interaction_observed. Actual bounded check: Editor action surface; actual Undo/Redo/history outcome not inferred.

mynotes original exact result record

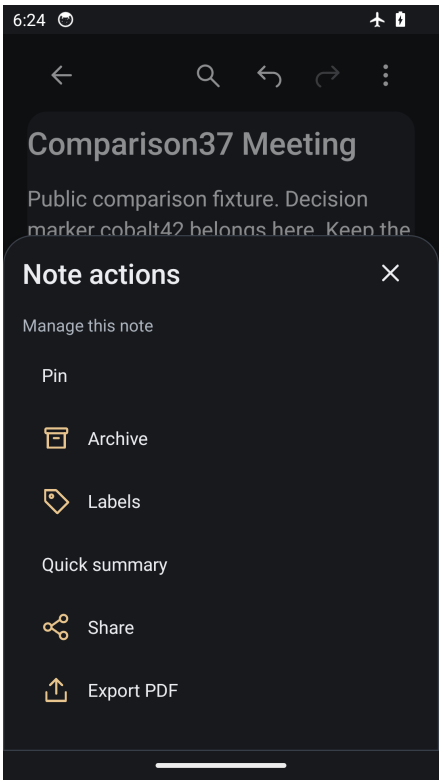

mynotes original screenshot

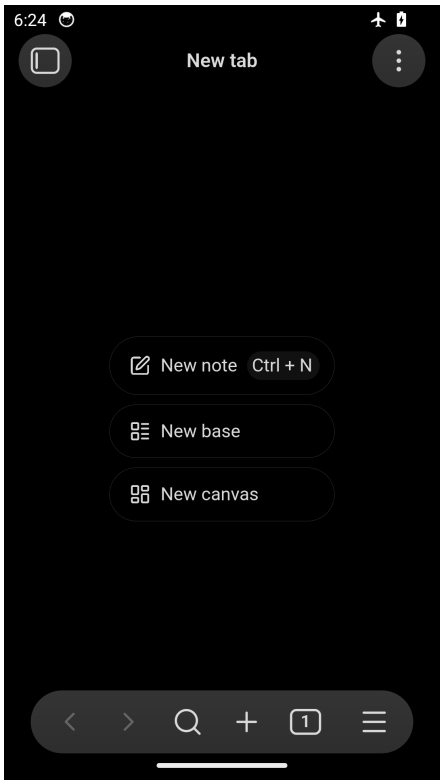

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify exact rich payload and history matching the saved revision; preserve current content when history is invalid or trimmed. Never run destructive migration on the user library.

PLAN-X28 | Workspaces, tabs and mobile navigation | planned dark-landscape

Original acceptance task (NOT automatically accepted): Switch between two notes, a PDF and Settings; reorder content near an edge, then return to the initial editing location.

mynotes — blocked. Actual bounded check:

mynotes original exact result record

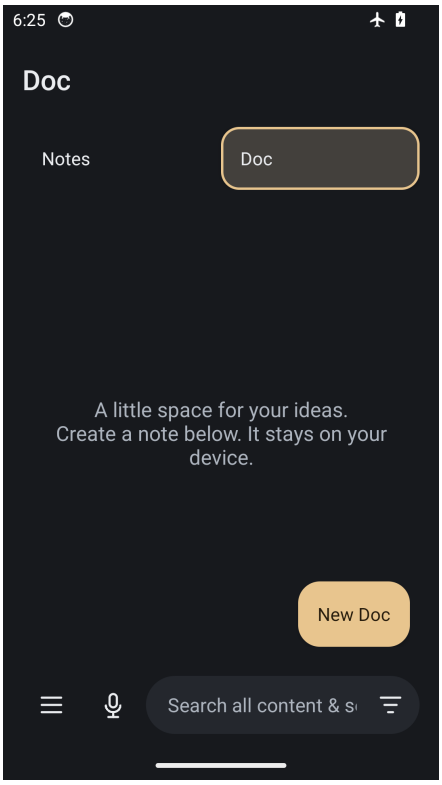

mynotes original screenshot

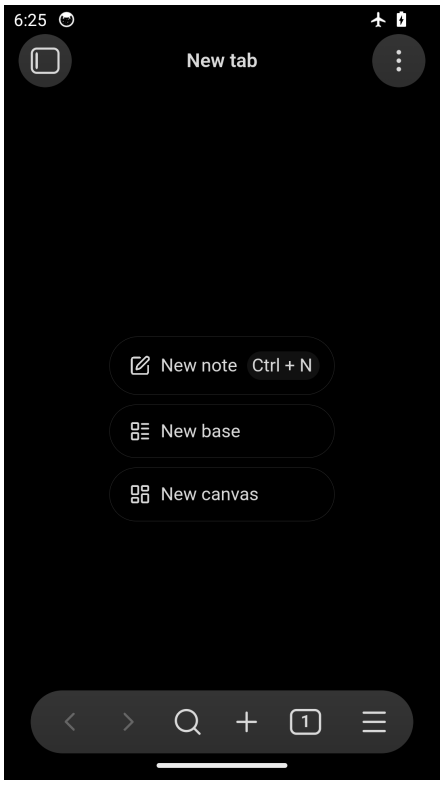

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Log wrong destinations, lost context, accidental switches and state after restart. Workspace restoration is outstanding until a matching live task succeeds.

PLAN-X29 | Settings, commands, quick actions and help discovery | planned dark-landscape

Original acceptance task (NOT automatically accepted): Without a walkthrough, find move, undo, export, a setting and one uncommon editor action using touch alone.

mynotes — interaction_observed. Actual bounded check: Named native controls opened; no implicit persistence, discoverability or module acceptance.

mynotes original exact result record

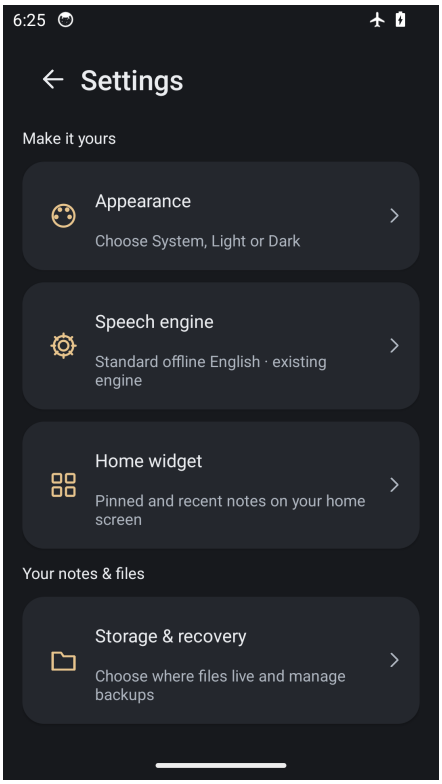

mynotes original screenshot

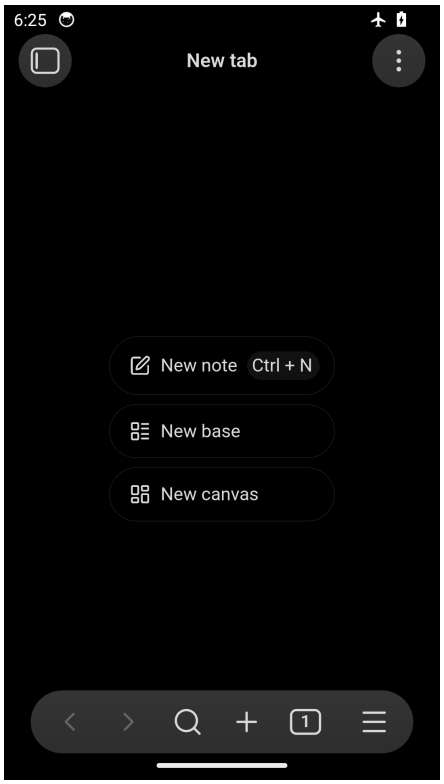

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Observe search terms, wrong taps and help requests; distinguish disabled/contextual/unconfigured actions. Do not use all 205 inventoried commands as a usability success count.

PLAN-X30 | Export, sharing, duplication and note composition | planned dark-landscape

Original acceptance task (NOT automatically accepted): Share a mixed note, export PDF and JSON, duplicate it, merge selected notes and undo the merge.

mynotes — interaction_observed. Actual bounded check: Share entry/resolver only; no external app, message or network operation is performed.

mynotes original exact result record

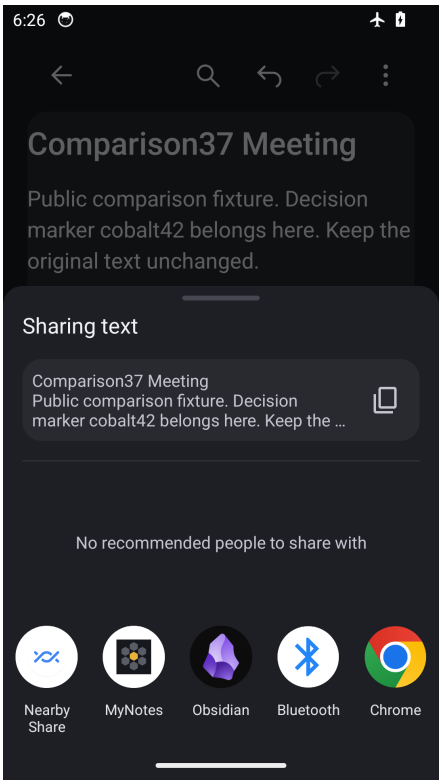

mynotes original screenshot

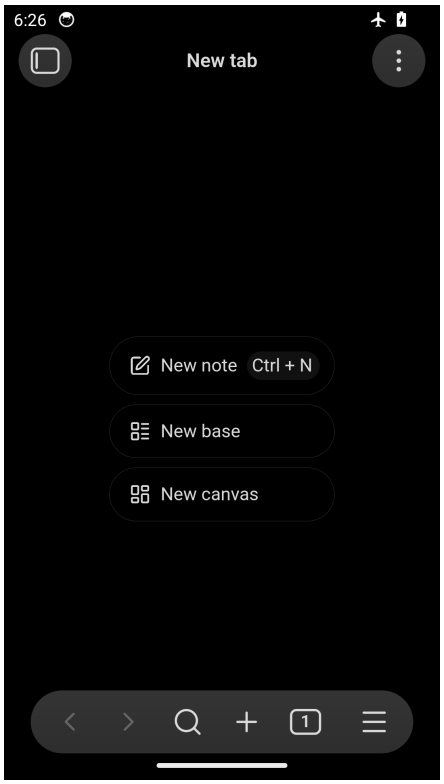

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Check text/media/table fidelity for each promised format, exact source IDs and retained source copies; destination failure must not silently destroy content.

PLAN-X31 | Local summary and text assistance | planned dark-landscape

Original acceptance task (NOT automatically accepted): Summarize varied notes with negation, dates and multilingual sentences; check the retained source and decide whether the result is useful.

mynotes — interaction_observed. Actual bounded check: Local summary surface only; no saving or summary accuracy acceptance.

mynotes original exact result record

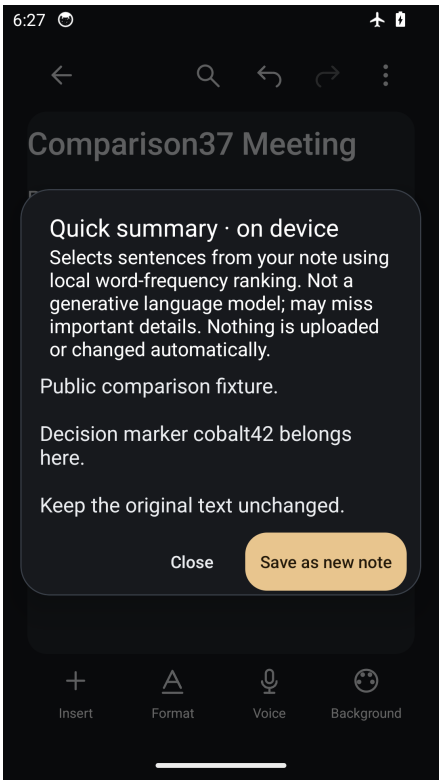

mynotes original screenshot

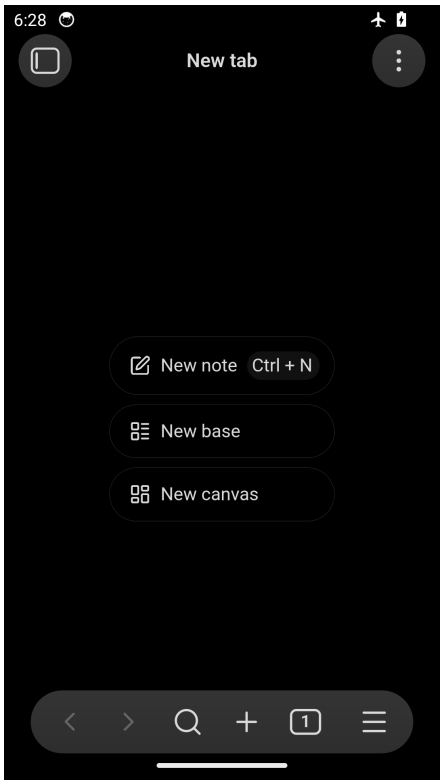

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify each sentence comes from the source, essential cautions are not lost and limits are clear. No summary-quality test was executed in this report.

PLAN-X32 | Privacy, permission boundaries and diagnostic logs | planned dark-landscape

Original acceptance task (NOT automatically accepted): Deny microphone, use notes normally, enable logs for a dummy issue, filter/export/delete and inspect the resulting local file.

mynotes — blocked. Actual bounded check: No visible enabled exact-label control: ('Diagnostics',); labels=['', '', '', '', '', 'Back', 'Settings', '', '', 'Make it yours', '', '', '', 'Appearance', 'Choose System, Light or Dark', '', '', '', '', 'Speech engine', 'Standard offline English · existing engine', '', '', '', '', 'Home widget', 'Pinned and recent notes on your home screen', '', 'Your notes & files', '', '', '', 'Storage & recovery', 'Choose where files live and manage backups', '', 'Help & privacy', '', '']

mynotes original exact result record

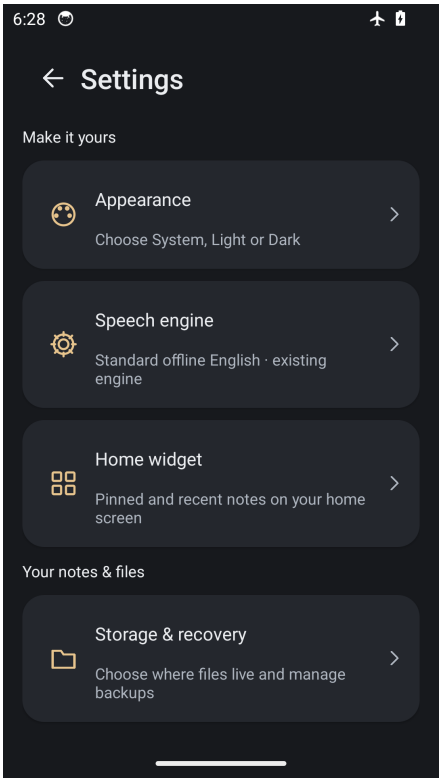

mynotes original screenshot

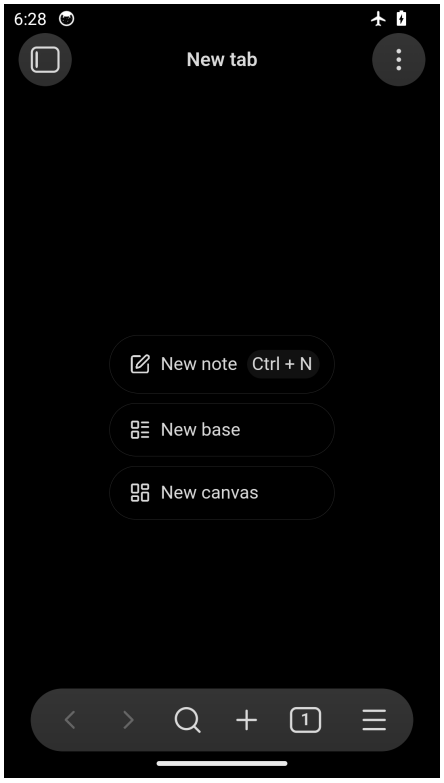

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify opt-out, readable levels/time range, explicit delete confirmation and exported content minimisation. Security of all native dependencies was not certified here.

PLAN-X33 | Smoothness, speed, footprint and reliability | planned dark-landscape

Original acceptance task (NOT automatically accepted): On matched hardware, cold start, create/type, search a large library, drag a distant card, open a large PDF and recover from a controlled failure.

mynotes — diagnostic_only. Actual bounded check: No verified outcome

mynotes original exact result record

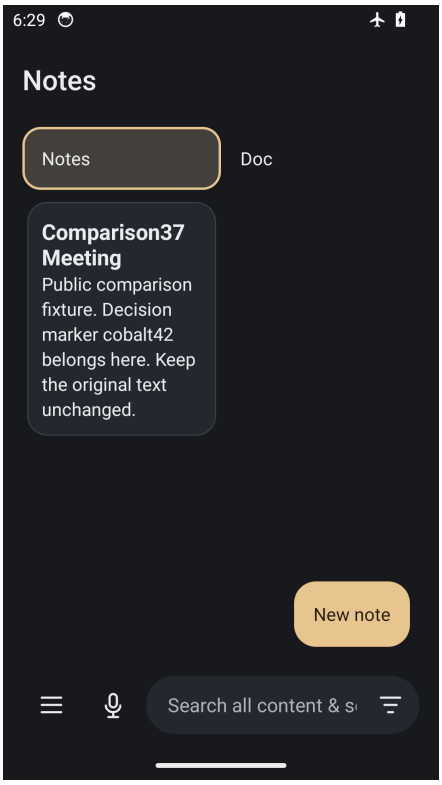

mynotes original screenshot

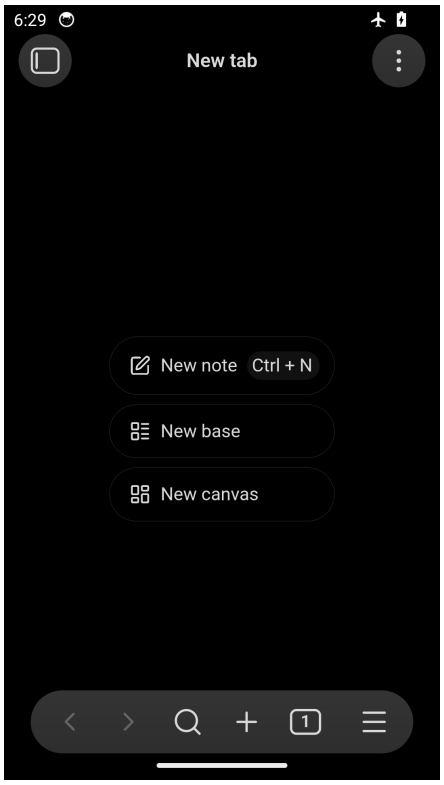

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Collect touch-to-visible timings, frame trace, dropped frames, memory and exact failure logs. Distinguish timeouts/socket failures from app crashes and do not publish a fabricated global score.

PLAN-X34 | Core modules, community plugins and extensibility | planned dark-landscape

Original acceptance task (NOT automatically accepted): Find a core module, understand its description, enable/disable it and identify changed controls; inspect restricted/plugin trust text without installing unknown code.

mynotes — counterpart_not_established. Actual bounded check: Requested counterpart not established in the visited first-party settings surface. This is NOT proof of app-wide absence or a comparative score.

mynotes original exact result record

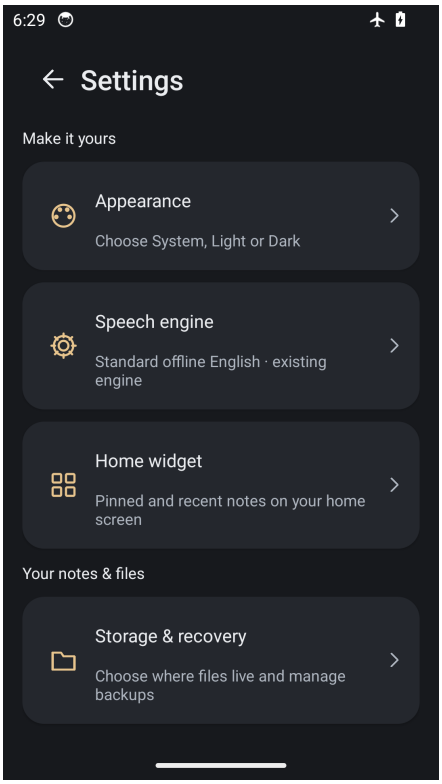

mynotes original screenshot

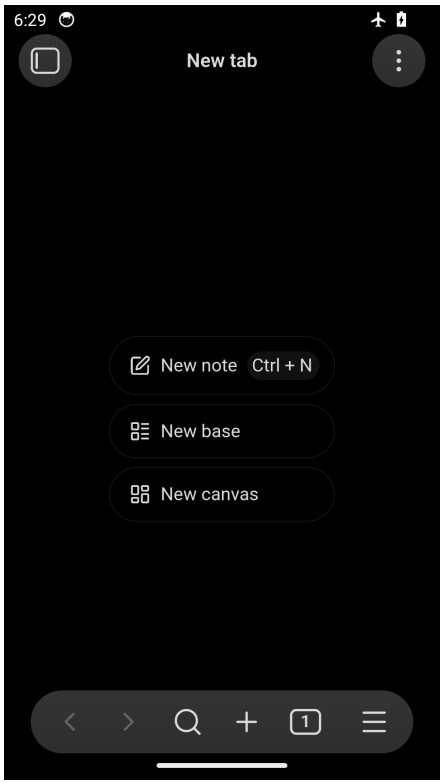

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify reversible configuration and a stable default note workflow. No community code was installed or executed; unknown plugins and future modules are outside this pinned-version inventory.

PLAN-X35 | Sync, Publish, account and service boundaries | planned dark-landscape

Original acceptance task (NOT automatically accepted): For a future explicitly authorised service study, evaluate offline edits, conflicts, account loss, export and deliberate public visibility with disposable data.

mynotes — counterpart_not_established. Actual bounded check: Requested counterpart not established in the visited first-party settings surface. This is NOT proof of app-wide absence or a comparative score.

mynotes original exact result record

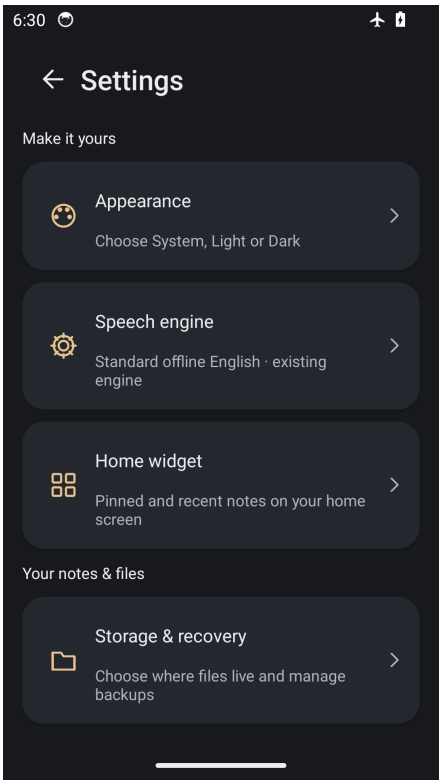

mynotes original screenshot

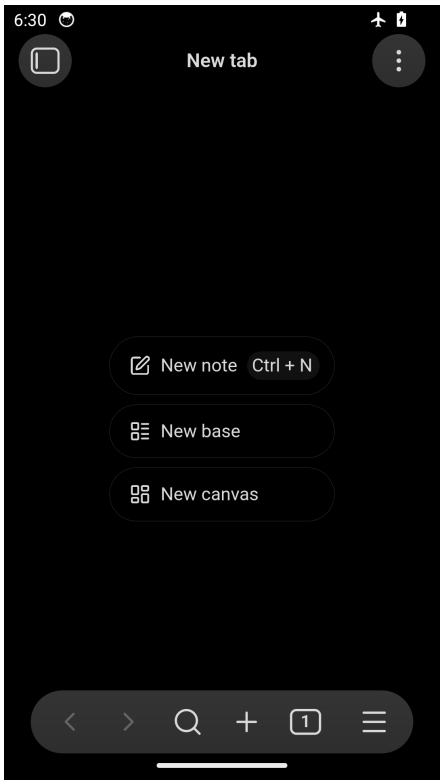

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: No login, purchase, upload or publishing was performed. Conflict resolution, encryption, recovery and cost/value remain untested; an entry screen is not a passed sync task.

PLAN-X36 | Slides, presentation and reading projections | planned dark-landscape

Original acceptance task (NOT automatically accepted): Present a multi-slide disposable note, navigate, dismiss the keyboard, rotate and return to editing; compare PDF reading only as a separate output route.

mynotes — counterpart_not_established. Actual bounded check: Requested counterpart not established in the visited first-party settings surface. This is NOT proof of app-wide absence or a comparative score.

mynotes original exact result record

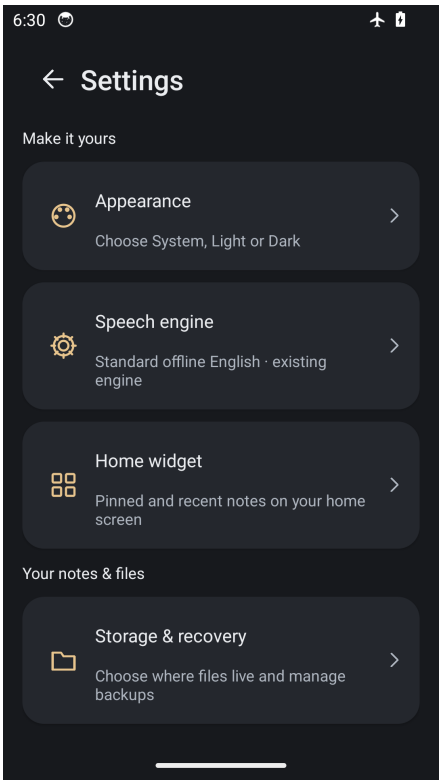

mynotes original screenshot

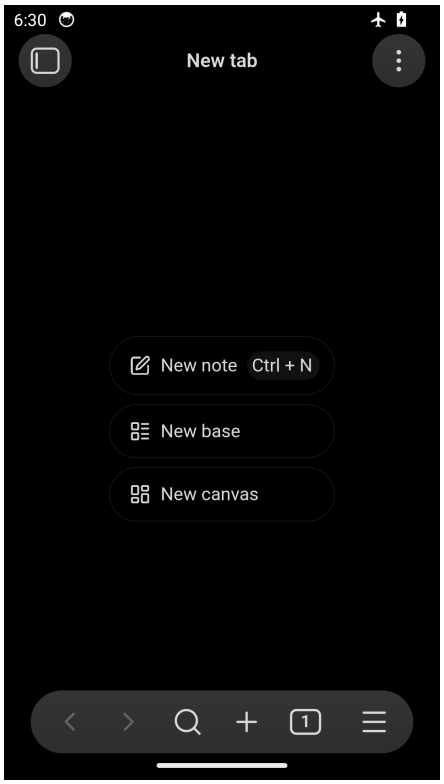

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Verify every slide, media, controls and return location. Obsidian landscape was not qualified by its retained audit; no physical presentation run occurred here.

PLAN-X37 | About, models, licences and honest help | planned dark-landscape

Original acceptance task (NOT automatically accepted): Ask a novice to identify where notes are saved, how to protect audio and how to export useful diagnostics without sending private notes.

mynotes — blocked. Actual bounded check: No visible enabled exact-label control: ('About & offline models',); labels=['', '', '', '', '', '', 'Back', 'Settings', '', '', 'Make it yours', '', '', '', 'Appearance', 'Choose System, Light or Dark', '', '', '', '', 'Speech engine', 'Standard offline English · existing engine', '', '', '', '', 'Home widget', 'Pinned and recent notes on your home screen', '', 'Your notes & files', '', '', '', 'Storage & recovery', 'Choose where files live and manage backups', '', 'Help & privacy', '', '']

mynotes original exact result record

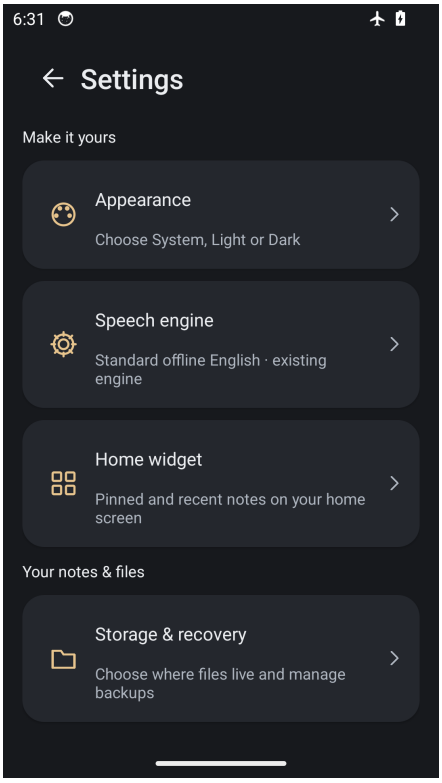

mynotes original screenshot

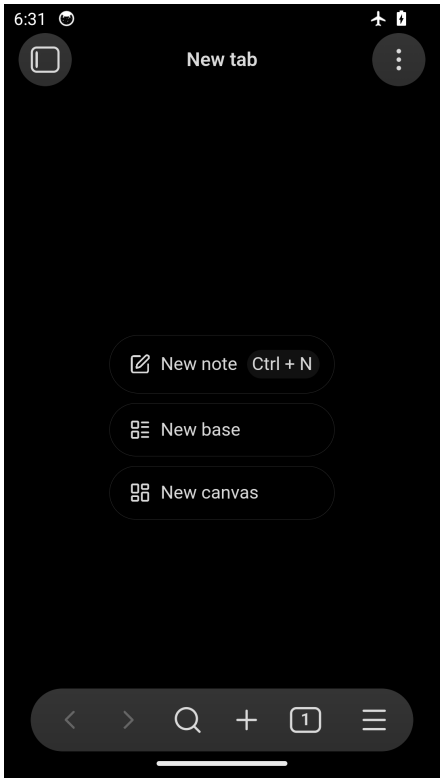

obsidian — blocked. Actual bounded check: Requested profile not achieved

Actual WebView profile observation: {"dark": true, "landscape": false, "width": 360, "height": 640}; failed profile assertions remain blocked, never a landscape/theme pass.

obsidian original exact result record

obsidian original screenshot

No whole-family acceptance. Remaining: Observe whether they can explain the result in their own words. Do not substitute long notices or a generated guide for successful comprehension.
